Special purpose pilot authorization.

Any person that is required to hold a special purpose pilot authorization, issued in accordance with §61.77 of this part, must have that authorization and the person’s foreign pilot license in that person’s physical possession or have it readily accessible in the aircraft when exercising the privileges of that authorization.

Inspection of certificate.

Each person who holds an airman certificate, medical certificate, authorization, or license required by this part must present it and their photo identification as described in paragraph (a)(2) of this section for inspection upon a request from:

1. The Administrator;
2. An authorized representative of the National Transportation Safety Board;
3. Any Federal, State, or local law enforcement officer; or
4. An authorized representative of the Transportation Security Administration.

§61.4 Qualification and approval of flight simulators and flight training devices.

Except as specified in paragraph (b) or (c) of this section, each flight simulator and flight training device used for training, and for which an airman is to receive credit to satisfy any training, testing, or checking requirement under this chapter, must be qualified and approved by the Administrator for—

1. The training, testing, and checking for which it is used;
2. Each particular maneuver, procedure, or crewmember function performed; and
3. The representation of the specific category and class of aircraft, type of aircraft, particular variation within the type of aircraft, or set of aircraft for certain flight training devices.

Any device used for flight training, testing, or checking that has been determined to be acceptable to or approved by the Administrator prior to August 1, 1996, which can be shown to function as originally designed, is considered to be a flight training device, provided it is used for the same purposes for which it was originally accepted or approved and only to the extent of such acceptance or approval.

The Administrator may approve a device other than a flight simulator or flight training device for specific purposes.
