National Aeronautics and Space Admin. § 1216.302

(i) The reasons why the proposed action must be located in the floodplain.

(ii) A statement of all significant facts considered in making the determination including alternative sites and actions.

(iii) A statement indicating whether the actions conform to applicable State and local floodplain protection standards.

(iv) In cases where land acquisition or major changes in land use are involved, it may also be appropriate to include:

(A) A provision for publication in the Federal Register or other appropriate vehicle.

(B) A description of how the activity will be designed or modified to minimize harm to or within the floodplain.

(C) A statement indicating how the action affects natural or beneficial floodplain or wetlands values.

(D) A statement listing other involved agencies and individuals.

(7) After a reasonable period (15 to 30 days) to allow for public response, the proposed action may proceed through the normal NASA approval process, or if disposal is anticipated, the action can be implemented in accordance with Federal Property Management Regulations real property disposal procedures. If, however, significant new information is revealed in comments by the public, the field installation shall re-evaluate the proposed action in accordance with the provisions of paragraph (b)(5) of this section.

(8) For major NASA actions significantly affecting the quality of the human environment, the evaluations required above will be included in any statement prepared under Section 102(2)(C) of the National Environmental Policy Act.

In accordance with §1216.202(b), the Assistant Associate Administrator for Facilities Engineering, NASA Headquarters, will conduct periodic on-site reviews to assure that the action is carried out in accordance with the stated findings and plans for the proposed action, in compliance with the Executive orders.

§ 1216.303 Responsibilities of NASA officials.

(a) The Associate Administrator for Management or designee, who is responsible for developing the procedures of this subpart and for ensuring that environmental factors are properly considered in all NASA planning and decisionmaking, shall:

(b) Construction of facilities project. The consolidation of applicable specific individual types of facility work, including related collateral equipment, which is required to fully reflect all of the needs, generally relating to one facility, which have been or may be generated by the same set of events or circumstances which are required to be accomplished at one time in order to provide for the planned initial operational use of the facility or a discrete portion thereof. Facility projects are subject to the NASA decision processes of §1216.304.

(c) Environmental analysis. The analysis of the environmental effects of proposed actions, including alternative proposals. The analyses are carried out from the very earliest of planning studies for the action in question, and are the materials from which the more formal environmental assessments, environmental impact statements, and public record of decisions are made.

(d) Institutional action. An action to establish, change, or terminate an aspect of the NASA institution, defined as the total NASA resource (plant, employees, skills).

(e) R&D project. A discrete research and development activity, with a scheduled beginning and ending, which normally involves one of the following primary purposes:

(1) The design, development, and demonstration of major advanced technology hardware items;

(2) The design, construction, and operation of a new launch vehicle (and associated ground support) during its research and development phase; and

(3) The construction and operation of one or more aeronautics or space vehicles (and necessary ground support) in order to accomplish a scientific or technical objective. R&D projects are each subelements in the NASA R&D budget line item. R&D projects are subject to the decision processes of §1216.304.

(f) SFCDC project. R&D type projects authorized under the SFCDC budget line item.
