

§ 1260.70

(1) Name, address, and telegraphic abbreviation of the financial institution receiving payment.

(2) The American Bankers Association 9-digit identifying number for wire transfers of the financing institution receiving payment if the institution has access to the Federal Reserve Communication System.

(3) Payee's account number at the financial institution where funds are to be transferred.

(4) If the financial institution does not have access to the Federal Reserve Communications System, name, address, and telegraphic abbreviation of the correspondent financial institution through which the financial institution receiving payment obtains wire transfer activity. Provide the telegraphic abbreviation and American Bankers Association identifying number for the correspondent institution.

(c) For payment through ACH, the Recipient shall provide the following information:

(1) Routing transit number of the financial institution receiving payment (same as American Bankers Association identifying number used for FEDLINE).

(2) Number of account to which funds are to be deposited.

(3) Type of depositor account ("C" for checking, "S" for savings).

(4) If the Recipient is a new enrollee to the ACH system, a "Payment Information Form," SF 3881, must be completed before payment can be processed.

(d) In the event the Recipient, during the performance of this grant, elects to designate a different financial institution for the receipt of any payment made using electronic funds transfer procedures, notification of such change and the required information specified above must be received by the appropriate Government official 30 days prior to the date such change is to become effective.

(e) The documents furnishing the information required in this clause must be dated and contain the signature, title, and telephone number of the Recipient official authorized to provide it, as well as the Recipient's name and contract number.

(f) Failure to properly designate a financial institution or to provide appropriate payee bank account information may delay payments of amounts otherwise properly due.

(g) The requirements set forth in this special condition supercedes grant provision 1260.26, Financial Management.

POST-AWARD REQUIREMENTS

§ 1260.70 Delegation of administration.

(a) If a grant or a cooperative agreement is awarded with Government-furnished property, administration should

14 CFR Ch. V (1-1-10 Edition)

be delegated to the Office of Naval Research (ONR). If a grant or cooperative agreement has no Government-furnished property, administration will normally be performed by the issuing Center or by the NASA Shared Service Center (NSSC). However, the grant officer or the NSSC grant administrator has the option to delegate administration to ONR and should do so when exceptional administrative issues are anticipated. Other administration duties may be assigned as listed on NF 1674. Exceptions to this policy are:

(1) Training grants will not be delegated.

(2) Grants of short duration (9 months or less) or low dollar value (\$50k or less) will normally not be delegated.

(3) Grant officers may waive specific administration requirements (as listed on NF 1674) in exceptional circumstances for individual grants. Exceptions to administration duties that are normally delegated must be justified and approved in writing by the Grant Officer, and made part of the file.

(4) Waiver of delegation of property administration duties that are to be instituted by a center as a standard practice constitutes a deviation to this handbook, and requires approval in accordance with §1260.7.

(b) Grant and cooperative agreement administration delegations will be made by use of NF 1674 (Exhibit F to subpart A of this part 1260). When administration duties have been assigned to ONR, the NF 1674, the award document, and the approved budget will be sent to ONR in a single package (electronically, when possible).

(c) Upon acceptance of a delegation, ONR agrees to the following: ONR shall follow DoD property administration policies and procedures, plus the following NASA requirements:

(1) The recipient shall maintain property records and manage nonexpendable personal property in accordance with 14 CFR 1260.134. During Property Control System Analyses (PCSA), ONR will check the recipient's understanding and test compliance of property management requirements, including the accuracy of recipient property reports. ONR will provide one

copy of each PCSA Report to the appropriate NASA center industrial property officer.

(2) ONR will investigate and notify NASA as appropriate for any unauthorized property acquisitions by the recipient. See the provision at §1260.27.

(3) ONR will notify the cognizant grant officer and industrial policy officer when property is lost, damaged or destroyed.

(4) Under no circumstances will Government property be disposed without instructions from NASA.

(5) Prior to disposition, except when returned to NASA or reutilized on other NASA programs, ONR will ensure all NASA identifications are removed or obliterated from property, and hard drives of computers are cleared of sensitive or NASA owned/licensed software/data.

[65 FR 62900, Oct. 19, 2000, as amended at 67 FR 30544, May 7, 2002; 73 FR 33671, June 13, 2008]

§ 1260.71 Supplements and renewals.

(a) A NASA grant officer can unilaterally make minor or administrative changes to a grant; *e.g.*, Reports Substitution (§1260.55) and Withholding (§1260.56).

(b) To ensure timely completion and closeout of grants, renewal proposals to continue the same effort at the same institution that are accepted for award by NASA will be awarded as new grants versus continuation of the existing grant.

(1) When work under a grant is to be continued through an extension, or through a renewal of the work under a new grant, the continuation effort should be instituted concurrent with the original expiration date. When possible, the period of performance should be continuous with the prior grant period of performance. The extension or a renewal of a grant (see §1260.13(a)) beyond the original expiration date is a unilateral decision by NASA based upon availability of funds, continued research relevance, and progress made by the recipient.

(2) To insure uninterrupted programs, the technical office should forward to the grant office a completed award package, including a funded procurement request, technical evaluation

of the proposed budget, and other support documentation, at least 29 days before the expiration of the funded period.

(c) Requests by the recipient to have a grant modified must be in writing to the grant officer. Prior approvals and changes are detailed in §1260.125.

(d) A no-cost extension can be issued by the recipient as detailed in paragraph (b) of the provision at §1260.23, Extensions, and §1260.125(e). NASA reserves the right to disapprove the extension request if the requirements set forth at §1260.125(e)(2) are not met, including if the extension request is not received ten days prior to the grant expiration date.

(e) When two or more actions are completed on a single supplement, the supplement will reflect the effective date of the earliest action.

§ 1260.72 Adherence to original budget estimates.

(a) Although NASA assumes no responsibility for budget overruns, the recipient may spend grant funds without strict adherence to individual allocations within the proposed budgets, except that recipients must comply with prior approval requirements for property and subcontracts as provided in §§ 1260.27 and 1260.33.

(b) The revision of budgets and program plans are covered in §1260.125.

§ 1260.73 Transfers, novations, and change of name agreements.

(a) When the principal investigator changes organizational affiliation and desires support for the research at a new location, (*i.e.*, for the grant to be transferred), the grant officer should first consult with the institution that originally received the grant to ascertain whether an acceptable replacement principal investigator can be substituted to complete the research effort. The final decision on whether an acceptable replacement is available, or that the research effort should follow the original principal investigator to the new location, is at the discretion of the NASA technical Officer. If the decision is made to transfer the grant, the grant at the original institution must be terminated, and a new proposal
