

§ 30.53

- (x) Trade Identification.
- (y) Admission Date.

§ 30.53 Import of goods returned for repair.

Import entries covering U.S. goods imported temporarily for repair or alteration and reexport are required to show the following statement: "Imported for Repair and Reexport" on CBP-7501 or in the ABI entry. Whenever goods are returned to the United States after undergoing either repair, alteration, or assembly under HTS heading 9802, the country of origin shall be shown as the country in which the repair, alteration, or assembly is performed. When the goods are for reexport and meet all of the requirements for filing the EEL, file according to the instructions provided in § 30.2, except for the following data items:

(a) *Value*. Report the value of the repairs, including parts and labor. Do not report the value of the original product. If goods are repaired under warranty, at no charge to the customer, report the cost to repair as if the customer were being charged.

(b) *Schedule B Classification Code*. Report Schedule B commodity classification code 9801.10.0000 for goods reexported after repair.

§ 30.54 Special provisions for imports from Canada.

(a) When certain softwood lumber products described under HTSUSA subheadings 4407.1001, 4409.1010, 4409.1090, and 4409.1020 are imported from Canada, import entry records are required to show a valid Canadian region of manufacture code. The Canadian region of manufacture is determined on a first mill basis (the point at which the item was first manufactured into a covered lumber product). Canadian region of manufacture is the first region where the subject goods underwent a change in tariff classification to the tariff classes cited in this paragraph. The Canadian region code should be transmitted in the electronic ABI summaries. The Canadian region of manufacture code should replace the region of origin code on CBP-7501, entry summary form. These requirements apply only for imports of certain softwood

15 CFR Subtitle B, Ch. I (1-1-10 Edition)

lumber products for which the region of origin is Canada.

(b) All other imports from Canada, including certain softwood lumber products not covered in paragraph (a) of this section, will require the twoletter designation of the Canadian region of origin to be reported on U.S. entry summary records. This information is required only for U.S. imports that under applicable CBP rules of origin are determined to originate in Canada. For nonmanufactured goods determined to be of Canadian origin, the region of origin is defined as the region where the exported goods were originally grown, mined, or otherwise produced. For goods of Canadian origin that are manufactured or assembled in Canada, with the exception of the certain softwood lumber products described in paragraph (a) of this section, the region of origin is that in which the final manufacture or assembly is performed prior to exporting that good to the United States. In cases where the region in which the goods were manufactured, assembled, grown, mined, or otherwise produced is unknown, the region in which the Canadian vendor is located can be reported. For those reporting on paper forms the region of origin code replaces the region of origin code on the CBP-7501, entry summary form.

(c) All electronic ABI entry summaries for imports originating in Canada also require the Canadian region of origin code to be transmitted for each entry summary line item.

(d) The region of origin code replaces the region of origin code only for imports that have been determined, under applicable CBP rules, to originate in Canada. Valid Canadian region/territory codes are:

XA—Alberta
XB—New Brunswick
XD—British Columbia Coastal
XE—British Columbia Interior
XM—Manitoba
XN—Nova Scotia
XO—Ontario
XP—Prince Edward Island
XQ—Quebec
XS—Saskatchewan
XT—Northwest Territories
XV—Nunavut
XW—Newfoundland

XY—Yukon

§ 30.55 Confidential information, import entries, and withdrawals.

The contents of the statistical copies of import entries and withdrawals on file with the Census Bureau are treated as confidential and will not be released without authorization by CBP, in accordance with 19 CFR 103.5 relating to the copies on file in CBP offices. The importer or import broker must provide the Census Bureau with information or documentation necessary to verify the accuracy or resolve problems regarding the reported import transaction.

(a) The basic responsibility for obtaining and providing the information required by the general statistical headnotes of the HTSUSA rests with the person filing the import entry. This is provided for in section 484(a) of the Tariff Act, 19 CFR 141.61(e) of CBP regulations, and § 30.50 of this subpart. CBP Regulations 19 CFR 141.61(a) specify that the entry summary data clearly set forth all information required.

(b) 19 CFR 141.61(e) of CBP regulations provides that penalty procedures relating to erroneous statistical information shall not be invoked against any person who attempts to comply with the statistical requirements of the General Statistical Notes of the HTSUSA. However, in those instances where there is evidence that statistical suffixes are misstated to avoid quota action, or a misstatement of facts is made to avoid import controls or restrictions related to specific commodities, the importer or its licensed broker should be aware that the appropriate actions will be taken under 19 U.S.C. 1592, as amended.

§§ 30.56–30.59 [Reserved]

Subpart G—General Administrative Provisions

§ 30.60 Confidentiality of Electronic Export Information.

(a) *Confidential status.* The EEI collected pursuant to this Part is confidential, to be used solely for official purposes as authorized by the Secretary of Commerce. The collection of EEI by the Department of Commerce

has been approved by the Office of Management and Budget (OMB). The information collected is used by the Census Bureau for statistical purposes only and by the BIS for export control purposes. In addition, EEI is used by other federal government agencies, such as the Department of State, CBP, and ICE for export control and other federal government agencies such as the Bureau of Economic Analysis, Bureau of Labor Statistics, and Bureau of Transportation Statistics for statistical purposes. Except as provided for in paragraph (e) of this section, information collected pursuant to this Part shall not be disclosed to anyone by any officer, employee, contractor, agent of the federal government or other parties with access to the EEI other than to the USPPI, or the authorized agent of the USPPI or the transporting carrier. Such disclosure shall be limited to that information provided by each party pursuant to this Part.

(b) *Supplying EEI for official purposes.* (1) The EEI may be supplied to federal agencies for official purposes, defined to include, but not limited to:

(i) Verification and investigation of export shipments, including penalty assessments, for export control and compliance purposes,

(ii) Providing proof of export; and

(iii) Statistical purposes;

(iv) Circumstances to be determined in the national interest pursuant to 13 U.S.C., § 301(g) and paragraph (e) of this section.

(2) The EEI may be supplied to the USPPI, or authorized agents of USPPI and carriers for compliance and audit purposes. Such disclosure shall be limited to that information provided to the AES by each party.

(c) *Supplying EEI for nonofficial purposes.* The official report of the EEI submitted to the United States Government shall not be disclosed by the USPPI, or the authorized agent, or representative of the USPPI for “nonofficial purposes,” either in whole or in part, or in any form including but not limited to electronic transmission, paper printout, or certified reproduction. “Nonofficial purposes” are defined to include but not limited to use of the official EEI:
