(e) *Quantities to be declared*—(1) *Calculations*. If you exported from or imported to your plant site, trading company, or other location more than the applicable threshold of a Schedule 2 chemical in the previous calendar year, you must declare or report all exports and imports of that chemical by country of destination or country of origin, respectively, and indicate the total amount exported to or imported from each country.

(2) *Rounding*. For purposes of declaring or reporting exports and imports of a Schedule 2 chemical, you must total all exports and imports per calendar year per recipient or source and then round as follows: For the chemical BZ, the total quantity for each country of destination or country of origin (source) should be reported to the nearest hundredth of a kilogram (10 grams); for PFIB and Amiton and corresponding alkylated or protonated salts, the quantity for each destination or source should be reported to the nearest 1 kilogram; and for all other Schedule 2 chemicals, the total quantity for each destination or source should be reported to the nearest 10 kilograms.

§ 713.4 Advance declaration requirements for additionally planned production, processing, or consumption of Schedule 2 chemicals.

(a) *Declaration requirements for additionally planned activities*. (1) You must declare additionally planned production, processing, or consumption of Schedule 2 chemicals after the annual declaration on anticipated activities for the next calendar year has been delivered to BIS if:

(i) You plan that a previously undeclared plant on your plant site under § 713.2(a)(1)(ii) of the CWCR will produce, process, or consume a Schedule 2 chemical above the applicable declaration threshold;

(ii) You plan to produce, process, or consume at a plant declared under § 713.2(a)(1)(ii) of the CWCR an additional Schedule 2 chemical above the applicable declaration threshold;

(iv) You plan to increase the production, processing, or consumption of a Schedule 2 chemical by a plant declared under § 713.2(a)(1)(ii) of the CWCR from the amount exceeding the applicable declaration threshold to an amount exceeding the applicable inspection threshold (see § 716.1(b)(2) of the CWCR);

(v) You plan to change the starting or ending date of anticipated production, processing, or consumption declared under § 713.2(a)(1)(ii) of the CWCR by more than three months; or

(vi) You plan to increase your production, processing, or consumption of a Schedule 2 chemical by a declared plant site by 20 percent or more above that declared under § 713.2(a)(1)(ii) of the CWCR.

(2) If you must submit a declaration on additionally planned activities because you plan to engage in any of the activities listed in paragraphs (a)(1)(i) through (vi) of this section, you also should declare changes to your declaration relating to the following activities. You do not have to submit an additionally planned declaration if you are only changing the following non-quantitative activities:

(i) Changes to the plant's production capacity;

(ii) Changes or additions to the product group codes for the plant site or the plant(s);

(iii) Changes to the plant's activity status (i.e., dedicated, multipurpose, or other status);

(iv) Changes to the plant's multipurpose activities;

(v) Changes to the plant site's status relating to domestic transfer of the chemical;

(vi) Changes to the plant site's purposes for which the chemical will be produced, processed or consumed; or
