§ 923.82 Amendment review/approval procedures.

(a) Upon submission by a State of its amendment request, OCRM will review the request to determine preliminarily if the management program, if changed according to the amendment request, still will constitute an approvable program. In making this determination, OCRM will determine whether the state has satisfied the applicable program approvability criteria of subsection 306(d) of the Act.

(b) If the Assistant Administrator, as a preliminary matter, determines that the management program, if changed, would no longer constitute an approvable program, or if any of the procedural requirements of section 306(d) of the Act have not been met, the Assistant Administrator shall advise the state in writing of the reasons why the amendment request cannot be considered.

(c) If the Assistant Administrator, as a preliminary matter, determines that the management program, if changed, would still constitute an approvable program and that the procedural requirements of section 306(d) of the Act have been met, the Assistant Administrator will then determine, pursuant to the National Environmental Policy Act of 1969, as amended, whether an environmental impact statement (EIS) is required.

§ 923.83 Mediation of amendments.

(a) Section 307(h)(2) of the Act provides for mediation of "serious disagreements" between a Federal agency and a coastal State during administration of an approved management program. Accordingly mediation is available to states or federal agencies when a serious disagreement regarding a proposed amendment arises.

(b) Mediation may be requested by a Governor or head of a state agency designated pursuant to subsection 306(d)(6) or by the head of a relevant federal agency. Mediation is a voluntary process in which the Secretary of Commerce attempts to mediate between disagreeing parties over major problems. (See § 923.54).

§ 923.84 Routine program changes.

(a) Further detailing of a State's program that is the result of implementing provisions approved as part of a State's approved management program, that does not result in the type of action described in § 923.80(d), will be considered a routine program change.

(b)(1) States must notify OCRM of routine program change actions in order that OCRM may review the action to ensure it does not constitute an amendment. The state notification shall identify any enforceable policies to be added to the management program, and explain why the program change will not result in the type of action described in § 923.80(d).

(b)(2) States have the option of notifying OCRM of routine program changes on a case-by-case basis, periodically throughout the year, or annually.

(b)(3) In determining when and how often to notify OCRM of such actions, States should be aware that Federal consistency will apply only after the notice required by paragraph (b)(4) of this section has been provided.
