Consumer Product Safety Commission

§ 1021.9

Public participation, notice, and comment.

(a) Information and comments are solicited from and provided to the public on anticipated environmental effects of CPSC actions as follows:

(1) Promptly after a decision is made to prepare a draft EIS, a notice of intent to prepare the draft EIS shall be published in the CPSC Public Calendar and in the Federal Register. The notice shall state the nature of the proposed action and available alternatives and shall describe the planned scoping process. The notice shall solicit information and comment by other governmental agencies and the public.

(2) As soon as practicable after a finding of no significant impact is completed, a copy of the finding together with the environmental assessment report shall be forwarded to the Office of the Secretary of the Commission to be made available to the public. Any information and comments received from the public on the documents will be considered and will accompany the documents throughout the CPSC decisionmaking process, but comments will not ordinarily be answered individually.

(3)(i) Upon completion of a draft EIS, a notice of its availability for comment should be published in the CPSC Public Calendar and in the Federal Register. Copies of the draft EIS shall be filed with the Environmental Protection Agency (EPA) in accordance with §1506.9 of the NEPA regulations. The length of the comment period on the draft EIS shall be stated in the notice of availability and on the cover of the draft EIS. It should also be stated in the CPSC notice that comments received during the comment period will be addressed in the final EIS, whereas late comments will be considered to the extent practicable, and that all comments will be appended to the final EIS.

(ii) Copies of the draft EIS shall be sent to public and private organizations known by CPSC to have special

§ 1021.8 Legislative proposals.

Draft EISs on legislative proposals which may significantly affect the environment shall be prepared as described in §1506.8 of the NEPA regulations. The draft EIS, where feasible, shall accompany the legislative proposal or report to Congress and shall be available in time for Congressional hearings and deliberations. The draft EIS shall be forwarded to the Environmental Protection Agency in accordance with §1506.9 of the NEPA regulations. Comments on the legislative statement and CPSC’s responses shall be forwarded to the appropriate Congressional committees.

(d) Whenever the Commission decides to solicit offers by an outside person or organization to develop a proposed consumer product safety standard in accordance with section 7 of the Consumer Product Safety Act (15 U.S.C. 2056) and the Executive Director has determined that environmental review is needed, the Executive Director shall recommend to the Commission whether the “offeror” should perform an environmental assessment during development of the proposed standard. In making this recommendation, the Executive Director shall take into account the resources of the “offeror”, including the expertise and money available to it. If the Commission decides that the “offeror” should perform an assessment, the agreement between the Commission and the offeror shall so provide. CPSC, however, shall independently evaluate any assessment prepared and shall take responsibility for the scope and content of the assessment.

(e) CPSC adjudications are primarily law enforcement proceedings and therefore are not agency actions within the meaning of NEPA. (See §1508.18(8) of the NEPA regulations.) However, in CPSC formal rulemaking proceedings, all available environmental information, including any supplements to a draft or final EIS, shall be filed in the Office of the Secretary and shall be made part of the formal record of the proceeding.

§ 1021.9
