(d) *Orders regarding competition.* An applicant or a registered derivatives clearing organization may request that the Commission issue an order concerning whether a rule or practice of the organization is the least anti-competitive means of achieving the objectives, purposes, and policies of the Act.

APPENDIX A TO PART 39—APPLICATION GUIDANCE AND COMPLIANCE WITH CORE PRINCIPLES

This appendix provides guidance concerning the core principles with which applicants must demonstrate the ability to comply and with which registered derivatives clearing organizations must continue to comply to be granted and to maintain registration as a derivatives clearing organization under section 5b of the Act and §39.3 and §39.5 of the Commission's regulations. The guidance follows each core principle and can be used to demonstrate core principle compliance under §39.3(a)(iv) and §39.5(d). The guidance for each core principle is illustrative only of the types of matters a clearing organization may address, as applicable, and is not intended to be a mandatory checklist. Addressing the criteria set forth in this appendix would help the Commission in its consideration of whether the clearing organization is in compliance with the core principles. To the extent that compliance with, or satisfaction of, a core principle is not self-explanatory from the face of a clearing organization's rules, an application pursuant to §39.3 or a submission pursuant to §39.5 should include an explanation or other form of documentation demonstrating that the clearing organization is able to or does comply with the core principles.

Core Principle A: IN GENERAL—To be registered and to maintain registration as a derivatives clearing organization, an applicant shall demonstrate to the Commission that the applicant complies with the core principles specified in this paragraph. The applicant shall have reasonable discretion in establishing the manner in which it complies with the core principles.

An entity preparing to submit to the Commission an application to operate as a derivatives clearing organization is encouraged to contact Commission staff for guidance and assistance in preparing its application. Applicants may submit a draft application for review prior to the submission of an actual application without triggering the application review procedures of §39.3 of the Commission's regulations. The Commission also may require a derivatives clearing organization to demonstrate to the Commission that it is operating in compliance with one or more core principles.

Core Principle B: FINANCIAL RESOURCES—The applicant shall demonstrate that the applicant has adequate financial, operational, and managerial resources to discharge the responsibilities of a derivatives clearing organization.

In addressing Core Principle B, applicants and registered derivatives clearing organizations may describe or otherwise document:

1. The resources dedicated to supporting the clearing function:

a. The level of resources available to the clearing organization and the sufficiency of those resources to assure that no material adverse break in clearing operations will occur in a variety of market conditions; and

b. The level of member/participant default such resources could support as demonstrated through use of hypothetical default scenarios that explain assumptions and variables factored into the illustrations.

2. The nature of resources dedicated to supporting the clearing function:

a. The type of the resources, including their liquidity, and how they could be accessed and applied by the clearing organization promptly;

b. How financial and other material information will be updated and reported to members, the public, if and when appropriate, and to the Commission on an ongoing basis; and

c. Any legal or operational impediments or conditions to access.

Core Principle C: PARTICIPANT AND PRODUCT ELIGIBILITY—The applicant shall establish (i) appropriate admission and continuing eligibility standards (including appropriate minimum financial requirements) for members of and participants in the organization; and (ii) appropriate standards for determining eligibility of agreements, contracts, or transactions submitted to the applicant.

In addressing Core Principle C, applicants and registered derivatives clearing organizations may describe or otherwise document:
