principal thereof, unless such performance is accompanied by one of the following:

(i) The following statement: "These results are based on simulated or hypothetical performance results that have certain inherent limitations. Unlike the results shown in an actual performance record, these results do not represent actual trading. Also, because these trades have not actually been executed, these results may have underestimated or over-compensated for the impact, if any, of certain market factors, such as lack of liquidity. Simulated or hypothetical trading programs in general are also subject to the fact that they are designed with the benefit of hindsight. No representation is being made that any account will or is likely to achieve profits or losses similar to these being shown."; or

(ii) A statement prescribed pursuant to rules promulgated by a registered futures association pursuant to section 17(j) of the Act.

APPENDIX A TO PART 4—GUIDANCE ON THE APPLICATION OF RULE 4.13(a)(3) IN THE FUND-OF-FUNDS CONTEXT

The following provides guidance on the application of the trading limits of Rule 4.13(a)(3)(ii) to commodity pool operators (CPOs) who operate "fund-of-funds." For the purpose of this appendix A, it is presumed that the CPO can comply with all of the other requirements of Rule 4.13(a)(3). It is also presumed that where the investor fund CPO is relying on its own computations, the investor fund is participating in each investee fund that trades commodity interests as a passive investor, with limited liability (e.g., as a limited partner of a limited partnership or a non-managing member of a limited liability company). Fund-of-funds CPOs who seek to claim exemption from registration under Rule 4.13(a)(3), (a)(2) or (a)(4) may do so without regard to the trading engaged in by an investee fund, because none of the registration exemptions set forth in those rules concerns limits on or levels of commodity interest trading. Persons whose fact situations do not fit any of the scenarios below should contact Commission staff to discuss the applicability of the registration exemption in Rule 4.13(a)(3) to their particular situations.

1. Situation: An investor fund CPO allocates the fund's assets to one or more investee funds, none of which meets the trading limits of Rule 4.13(a)(3) and each of which is operated by a registered CPO. It does not allocate any of the investor fund's assets directly to commodity interest trading.

Application: The investor fund CPO may claim relief under Rule 4.13(a)(3) provided the investor fund itself meets the trading limits of Rule 4.13(a)(3)(ii)(A).

2. Situation: An investor fund CPO allocates the fund's assets to one or more investee funds, each having a CPO who is either: (1) itself claiming exemption from CPO registration under Rule 4.13(a)(3); or (2) a registered CPO that is complying with the trading restrictions of Rule 4.13(a)(3). It does not allocate any of the investor fund's assets directly to commodity interest trading.

Application: The investor fund CPO fund may rely upon the representations of the investee fund CPOs that they are complying with the trading limits of Rule 4.13(a)(3).

3. Situation: An investor fund CPO allocates the fund's assets to investee funds, each of which operates under a percentage restriction on the amount of margin or option premiums that may be used to establish its commodity interest positions (whether pursuant to Rule 4.12(b), Rule 4.13(a)(3)(ii)(A) or otherwise), by, e.g., contractual agreement. It does not allocate any of the investor fund's assets directly to commodity interest trading.
