

## §210.3-19

(4) Audited statements of changes in net assets conforming to the requirements of §210.6-09 for the two most recent fiscal years.

(b) If the filing is made within 60 days after the end of the registrant's fiscal year and audited financial statements for the most recent fiscal year are not available, the balance sheet or statement of assets and liabilities may be as of the end of the preceding fiscal year and the filing shall include an additional balance sheet or statement of assets and liabilities as of an interim date within 245 days of the date of filing. In addition, the statements of operations and cash flows (if required by generally accepted accounting principles) shall be provided for the preceding fiscal year and the statement of changes in net assets shall be provided for the two preceding fiscal years and each of the statements shall be provided for the interim period between the end of the preceding fiscal year and the date of the most recent balance sheet or statement of assets and liabilities being filed. Financial statements for the corresponding period of the preceding fiscal year need not be provided.

(c) If the most current balance sheet or statement of assets and liabilities in a filing is as of a date 245 days or more prior to the date the filing is expected to become effective, the financial statements shall be updated with a balance sheet or statement of assets and liabilities as of an interim date within 245 days. In addition, the statements of operations, cash flows, and changes in net assets shall be provided for the interim period between the end of the most recent fiscal year for which a balance sheet or statement of assets and liabilities is presented and the date of the most recent interim balance sheet or statement of assets and liabilities filed.

(d) Interim financial statements provided in accordance with these requirements may be unaudited but shall be presented in the same detail as required by §§210.6-01 to 210.6-10. When unaudited financial statements are presented in a registration statement,

## §210.3-19 [Reserved]

## §210.3-20 Currency for financial statements of foreign private issuers.

(a) A foreign private issuer, as defined in §230.405 of this chapter, shall state amounts in its primary financial statements in the currency which it deems appropriate.

(b) The currency in which amounts in the financial statements are stated shall be disclosed prominently on the face of the financial statements. If dividends on publicly-held equity securities will be declared in a currency other than the reporting currency, a note to the financial statements shall identify that currency. If there are material exchange restrictions or controls relating to the issuer's reporting currency, the currency of the issuer's domicile, or the currency in which the issuer will pay dividends, prominent disclosure of this fact shall be made in the financial statements. If the reporting currency is not the U.S. dollar, dollar-equivalent financial statements or convenience translations shall not be presented, except a translation may be presented of the most recent fiscal year and any subsequent interim period presented using the exchange rate as of the most recent balance sheet included in the filing, except that a rate as of the most recent practicable date shall be used if materially different.

(c) If the financial statements of a foreign private issuer are stated in a currency of a country that has experienced cumulative inflationary effects exceeding a total of 100 percent over the most recent three year period, and

have not been recast or otherwise supplemented to include information on a historical cost/constant currency or current cost basis prescribed or permitted by appropriate authoritative standards, the issuer shall present supplementary information to quantify the effects of changing prices upon its financial position and results of operations.

(d) Notwithstanding the currency selected for reporting purposes, the issuer shall measure separately its own transactions, and those of each of its material operations (e.g., branches, divisions, subsidiaries, joint ventures, and similar entities) that is included in the issuer's consolidated financial statements and not located in a hyperinflationary environment, using the particular currency of the primary economic environment in which the issuer or the operation conducts its business. Assets and liabilities so determined shall be translated into the reporting currency at the exchange rate at the balance sheet date; all revenues, expenses, gains, and losses shall be translated at the exchange rate existing at the time of the transaction or, if appropriate, a weighted average of the exchange rates during the period; and all translation effects of exchange rate changes shall be included as a separate component ("cumulative translation adjustment") of shareholder's equity. For purposes of this paragraph, the currency of an operation's primary economic environment is normally the currency in which cash is primarily generated and expended; a hyperinflationary environment is one that has cumulative inflation of approximately 100% or more over the most recent three year period. Departures from the methodology presented in this paragraph shall be quantified pursuant to Item 17(c)(2) of Form 20-F (§ 249.220f of this chapter).

(e) The issuer shall state its primary financial statements in the same currency for all periods for which financial information is presented. If the financial statements are stated in a currency that is different from that used in financial statements previously filed with the Commission, the issuer shall recast its financial statements as if the newly adopted currency had been used

since at least the earliest period presented in the filing. The decision to change and the reason for the change in the reporting currency shall be disclosed in a note to the financial statements in the period in which the change occurs.

#### CONSOLIDATED AND COMBINED FINANCIAL STATEMENTS

##### **§ 210.3A-01 Application of § 210.3A-01 to § 210.3A-05.**

Sections 210.3A-01 to 210.3A-05 shall govern the presentation of consolidated and combined financial statements.

[44 FR 19386, Apr. 3, 1979. Redesignated at 45 FR 63687, Sept. 25, 1980, and amended at 50 FR 25215, June 18, 1985]

##### **§ 210.3A-02 Consolidated financial statements of the registrant and its subsidiaries.**

In deciding upon consolidation policy, the registrant must consider what financial presentation is most meaningful in the circumstances and should follow in the consolidated financial statements principles of inclusion or exclusion which will clearly exhibit the financial position and results of operations of the registrant. There is a presumption that consolidated statements are more meaningful than separate statements and that they are usually necessary for a fair presentation when one entity directly or indirectly has a controlling financial interest in another entity. Other particular facts and circumstances may require combined financial statements, an equity method of accounting, or valuation allowances in order to achieve a fair presentation. In any case, the disclosures required by § 210.3A-03 should clearly explain the accounting policies followed by the registrant in this area, including the circumstances involved in any departure from the normal practice of consolidating majority owned subsidiaries and not consolidating entities that are less than majority owned. Among the factors that the registrant should consider in determining the most meaningful presentation are the following:

(a) *Majority ownership:* Generally, registrants shall consolidate entities
