

§ 256.01-5

for each associate company and the amount of service costs allocated thereto. These records should be maintained to meet the Federal Energy Regulatory Commission's accounting requirements for electric and gas companies.

§ 256.01-5 Determination of service cost accounting.

Service at cost and fair allocation of costs require, first of all, an accurate accounting for the elements which make up the aggregate expense of conducting the business of the service company. In the accounts herein prescribed, the total amounts included in the expense accounts during any period plus such amount as appropriately may be added as compensation for the use of capital, if paid, constitute cost during such period.

§ 256.01-6 Departmental classification required.

The importance of "salaries and wages" as an element of cost requires analysis of this item of expense by departmental or other functional category in accordance with the departmental organization of the service company. To the extent practicable, such departmental organization should be established along lines which will provide a readily available basis for analysis.

§ 256.01-7 Records.

(a) The books of account and other records of the service company shall be so kept as to show fully the facts pertaining to all entries in these accounts. All such entries shall be supported by detailed information sufficient to permit ready identification and audit.

(b) The books and records referred to herein shall include not only accounting records in a limited technical sense but all other records such as minute books, stock books, reports, working papers, memoranda, etc., which may be useful in developing the history of or facts regarding any transactions of the service company.

(c) No company shall destroy any records except as authorized by the provisions of part 257 of this chapter.

(d) The accounts may be further subdivided: *Provided*, Such subdivisions do

17 CFR Ch. II (4-1-10 Edition)

not impair the integrity of the prescribed accounts. The titles of all subdivisions or subaccounts shall refer by number to the accounts of which they are subdivisions.

(e) Clearing-accounts shall be kept when necessary or useful in making the proper distribution of items to the appropriate accounts prescribed herein or in accumulating general overhead cost such as rent, utility, employee benefits, and other general and support services that are to be allocated to work orders.

(f) On or before the effective date of this Uniform System of Accounts, the several accounts prescribed herein shall be opened by transferring thereto the balances carried in the accounts previously maintained by the service company. The service company is authorized to make such subdivisions, reclassification, or consolidations of such balances as are necessary to meet the requirements of this Uniform System of Accounts.

(g) Except where this Uniform System of Accounts accords specific treatment for specified accounts, all accounts and financial statements shall be maintained in accordance with Regulation S-X and Accounting Series Releases of this Commission. The Uniform System of Accounts promulgated by the Federal Energy Regulatory Commission, as amended from time to time, and the interpretations thereof adopted from time to time by the Federal Energy Regulatory Commission, and accounting regulations and orders of any other Federal or State Commission having jurisdiction over associate companies shall be complied with unless expressly inconsistent with the requirements of this system.

[44 FR 8250, Feb. 9, 1979, as amended at 49 FR 27310, July 3, 1984]

§ 256.01-8 Definitions.

Definitions contained in the Public Utility Holding Company Act of 1935 shall be applicable to terms not specifically defined herein.

(a) *Accounts* means the accounts prescribed by this Uniform System of Accounts.

(b) *Associate company* means any company in the same holding company system.
