§ 10.81 Use in any port.

(a) Salt withdrawn under bond for use in curing fish on the shores of navigable waters may be used for such purpose at any port, but the evidence of use in such cases shall be submitted through the director of the port where the salt was used.

(b) If desired, salt to be used in curing fish on shore at another port than that in which it is warehoused in bond may be withdrawn under a transportation entry and shipped in bond to the other port at which it is to be used, where it may be entered on Customs Form 7501 which shall show withdrawal of the salt for use in curing fish. Thereupon, and upon the filing of a bond on Customs Form 301, containing the bond conditions set forth in § 113.62 of this chapter, such salt may be used without being sent to a bonded warehouse or public store. In such a case the proof of use shall be filed at the latter port.

§ 10.82 [Reserved]

§ 10.83 Bond; cancellation; extension.

(a) If it shall appear to the satisfaction of the port director holding the bond referred to in §10.80, that the entire quantity of salt covered by the bond has been duly accounted for, either by having been used in curing fish or by the payment of duty, the port director may cancel the charges against the bond. The port director may require additional evidence in corroboration of the proof of use produced.

(b) On application of the person making the withdrawal, the period of the bond may be extended 1 year so as to allow the salt to be used during the time of extension in curing fish with the same privileges as if used during the original period.

§ 10.84 Automotive products and articles for use as original equipment in the manufacture of automotive vehicles.

(a)(1) Certain motor vehicles and motor vehicle equipment are eligible for duty-free entry as proclaimed by the President under the Automotive Products Trade Act of 1965. The articles designated for such duty-free treatment are defined in General Note 3(c)(iii), HTSUS (19 U.S.C. 1202). Specifically, such articles are those designated as “Free (B)” in the “Special” subcolumn in Chapter 87, HTSUS, and must qualify as “Canadian articles” as defined in General Note 3(c)(iii)(A)(1), HTSUS. To claim exemption from duty under the Automotive Products Trade Act of 1965, an importer must establish, to the satisfaction of the appropriate Customs officer, that the article in question qualifies as a “Canadian article” for purposes of General Note 3(c)(iii)(A)(1), HTSUS. The Customs officer may accept as satisfactory evidence a certificate executed by the exporter as set forth in paragraph (b) of this section, subject to any verification he may deem necessary. Alternatively, the Customs officer may determine that under the circumstances of the importation a certificate is unnecessary.

(2) Under the United States-Canada Free-Trade Agreement and implementing legislation (Pub. L. 100–449, 102 Stat. 1851) a manufacturer of motor vehicles may elect to average, over its 12-month financial year, its calculation of the value-content requirement for vehicles in establishing its eligibility for tariff preference. Requirements for averaging are set forth in §10.310 and 10.311.

(b)(1) When all materials used at any stage in the production of the imported article are wholly obtained or produced in Canada or the United States, or both, a certificate in the following form may be accepted as evidence that the commodity is a “Canadian article”:

All materials contained in the product covered by the invoice, bill of lading, or other document or statement identifying the shipment) annexed or
were not included in the price paid.

brokerage fees on the materials, if such costs in transporting the materials to the location which represents all costs incurred try materials of which the price paid was sufficient for tariff classification of the materials, and number of units) of third coun-

production in Canada

a Canadian article. There were used in its production or the price paid

subscribed is an originating good so as to be
certificate of Canadian origin at the time it was

annexed or appended to this certificate of Canadian origin at the time it was

entered in the following form when the merchandise

covered thereby has been produced

for consumption of articles for use as

It is impractical to ascertain the exact

number of units of third country material, if any, used in its production or the price paid

and, if not included in the price paid, the costs incurred in transporting

the materials to the location of the producer and duties, taxes and brokerage fees paid in Canada and/or the United States on the material, per unit

of each kind of materials.

A certificate conforming to para-

graph (b) (1), (2), or (3) of this section shall be accepted as evidence of the

facts alleged therein only if:

(1) There is annexed thereto a copy of the commercial invoice or bill of lading covering the articles or other documentary evidence which identifies the article to which the certificate pertains,

(ii) The certificate is signed by the manufacturer or producer of the article to which it pertains, or by the person who exported the articles from Canada, and

(iii) It clearly appears that such copy or other documentary evidence was annexed to the certificate when it was signed.

(c) In lieu of the certification in paragraph (b) (1), (2), or (3) of this section, a manufacturer of motor vehicles who claims a preference under the United States-Canada Free-Trade Agreement and elects to average pursuant to §10.310(a), shall be subject to the requirements of §§10.301 to 10.311 of this part.

(d) When an importer makes an entry, or withdrawal from warehouse, for consumption of articles for use as
§ 10.90

“original motor-vehicle equipment” as that term is defined in General Note 3(c)(iii), HTSUS, he shall file in connection therewith his declaration that the articles are being imported for use as original equipment in the manufacture in the United States of the kinds of motor vehicles specified in the General Note and furnish the name and address of the motor vehicle manufacturer. A copy of the written order, contract, or letter of intent shall be attached to the importer’s declaration except that if the port director is satisfied that a copy of the written order, contract, or letter of intent will be made available by the importer or ultimate consignee for inspection by customs officials upon request during a period of 3 years from the date of such entry or withdrawal from warehouse, the production of such documents will not be required. Proof of use need not be furnished.

(e) If, after a Canadian article has been accorded the status of original motor-vehicle equipment, it is decided to divert the article from its intended use in the manufacture in the United States of motor vehicles, the importer or other person deciding to divert the article from such intended use shall give notice in writing of the decision to the director of the port where entry was made or where the offices of the importer are located and either make arrangements for its destruction or exportation under Customs supervision or pay duties in accordance with General Note 3(c)(iii)(B)(2), HTSUS. If such article is not destroyed or exported under Customs supervision or the duties paid, the article, or its value, shall be subject to forfeiture.

MASTER RECORDS, AND METAL MATRICES

§ 10.91 Prototypes used exclusively for product development and testing.

(a) Duty-free entry; declaration of use; extension of liquidation—(1) Entry or withdrawal for consumption. Articles defined as “prototypes” and meeting the other requirements prescribed in paragraph (b) of this section may be entered or withdrawn from warehouse for consumption, duty-free, under subheading 9817.85.01, Harmonized Tariff Schedule of the United States (HTSUS), on CBP Form 7501 or an electronic equivalent. A separate entry or withdrawal must be made for a qualifying prototype article each time the article is imported/reimported to the United States.

(2) Importer declaration. (i) Entry accepted as declaration. Entry or withdrawal from warehouse for consumption under HTSUS subheading 9817.85.01
