upon the port director’s final determination of clean yield. Estimated and liquidated duties on wool or hair tested for clean yield pursuant to the provisions of §151.71, and withdrawn for consumption without a change in condition which affects the duties and in a quantity less than an entire sampling unit shall be determined on the basis of an appropriate adjustment of the estimated percentage clean yield shown on the entry summary for the wool or hair included in each of the lots covered by the withdrawal. This adjustment shall be made by increasing or decreasing such estimated percentage clean yield of each lot by the difference between the percentage clean yield of the related sampling unit, as determined by the port director, and the weighted average percentage clean yield for the sampling unit, as computed from the estimated percentages clean yield and net weights shown on the entry summary for the lots included in the sampling unit.

§ 151.68 Merchandise to be sampled and tested by Customs.

The following shall be weighed, sampled, and tested for clean yield, unless such sampling or testing is not feasible:

(a) All importation of wool or hair subject to duty at a rate per clean kilogram, except importations entered directly for manipulation under the provisions of section 562, Tariff Act of 1930, as amended (19 U.S.C. 1562), or for manufacture under the provisions of section 311, Tariff Act of 1930, as amended (19 U.S.C. 1311);

(b) All imported wool or hair manipulated under the provisions of section 562, Tariff Act of 1930, as amended (19 U.S.C. 1562) and dutiable after manipulation as wool or hair at a rate per clean kilogram; and

(c) Such other imported wool or hair as the port director may designate.

§ 151.69 Transfer or exportation of part of sampling unit.

(a) Transfer of right to withdraw. When an original sampling unit has been weighed, sampled, and tested in accordance with this subpart and a part of such unit is covered by a transfer of the right to withdraw made pursuant to section 557, Tariff Act of 1930, as amended (19 U.S.C. 1557), the port director shall be notified of the transfer and of the part not so covered, and the part covered by the transfer shall be computed on the basis of the original Customs weights and test and the invoice data related to the respective part.

(b) Exportation. When part of such an original sampling unit is exported from continuous Customs custody without having been manipulated as provided for in section 562, Tariff Act of 1930, as amended (19 U.S.C. 1562), the percentage clean yield of the part not exported shall be determined, at the discretion of the port director, by the method prescribed for the determination of the percentage clean yield of the whole sampling unit.
