

PART 360—STEEL IMPORT MONITORING AND ANALYSIS SYSTEM

Sec.

360.101 Steel import licensing.

360.102 Online registration.

360.103 Automatic issuance of import licenses.

360.104 Steel import monitoring.

360.105 Duration of the steel import licensing requirement.

360.106 Fees.

360.107 Hours of operation.

360.108 Loss of electronic licensing privileges.

AUTHORITY: 13 U.S.C. 301(a) and 302.

SOURCE: 70 FR 12136, Mar. 11, 2005, unless otherwise noted.

§ 360.101 Steel import licensing.

(a) *In general.* (1) All imports of basic steel mill products are subject to the import licensing requirements. These products are listed in Annex II. Registered users will be able to obtain steel import licenses on the Steel Import Monitoring and Analysis (SIMA) System Web site. This Web site contains two sections related to import licensing—the online registration system and the automatic steel import license issuance system. Information gathered from these licenses will be aggregated and posted on the import monitoring section of the SIMA system Web site.

(2) A single license may cover multiple products as long as certain information on the license (*e.g.*, importer, exporter, manufacturer and country of origin) remains the same. However, separate licenses for steel entered under a single entry will be required if the information differs. As a result, a single Customs entry may require more than one steel import license. The applicable license(s) must cover the total quantity of steel entered and should cover the same information provided on the Customs entry summary.

(b) *Entries for consumption.* All entries for consumption of covered steel products, other than the exception for “informal entries” listed in paragraph (d) of this section, will require an import license prior to the filing of Customs entry summary documents. The license number(s) must be reported on the entry summary (Customs Form 7501) at the time of filing. There is no require-

ment to present physical copies of the license forms at the time of entry summary. However, copies must be maintained in accordance with Customs’ normal requirements. Entry summaries submitted without the required license number(s) will be considered incomplete and will be subject to liquidated damages for violation of the bond condition requiring timely completion of entry.

(c) *Foreign Trade Zone entries.* All shipments of covered steel products into a foreign trade zones (FTZ), known as FTZ admissions, will require an import license prior to the filing of FTZ admission documents. The license number(s) must be reported on the application for FTZ admission and/or status designation (Customs form 214) at the time of filing. There is no requirement to present physical copies of the license forms at the time of FTZ admission; however, copies must be maintained in accordance with Customs’ normal requirements. FTZ admission documents submitted without the required license number(s) will not be considered complete and will be subject to liquidated damages for violation of the bond condition requiring timely completion of admission. A further steel license will not be required for shipments from zones into the commerce of the United States.

(d) *Informal entries.* No import license shall be required on informal entries of covered steel products, such as merchandise valued at less than \$2,000. This exemption applies to informal entries only, imports of steel valued at less than \$2,000 that are part of a formal entry will require a license. For additional information, refer to 19 CFR 143.21 through 143.28.

(e) *Other non-consumption entries.* Import licenses are not required on temporary importation bond (TIB) entries, transportation and exportation (T&E) entries or entries into a bonded warehouse. Covered steel products withdrawn for consumption from a bonded warehouse will require a license at the entry summary.

§ 360.102 Online registration.

(a) *In general.* (1) Any importer, importing company, customs broker or

importer's agent with a U.S. street address may register and obtain the user identification number necessary to log on to the automatic steel import license issuance system. Foreign companies may obtain a user identification number if they have a U.S. address through which they may be reached; P.O. boxes will not be accepted. A user identification number will be issued within two business days. Companies will be able to register online through the SIMA system Web site. However, should a company prefer to apply for a user identification number non-electronically, a phone/fax option will be available at Commerce during regular business hours.

(2) This user identification number will be required in order to log on to the steel import license issuance system. A single user identification number will be issued to an importer, customs broker or importer's agent. Operating units within the company (*e.g.*, individual branches, divisions or employees) will all use the same basic company user identification code but can supply suffixes to identify the branches. The steel import license issuance system will be designed to allow multiple users of a single identification number from different locations within the company to enter information simultaneously.

(b) *Information required to obtain a user identification number.* In order to obtain a user identification number, the importer, importing company, customs broker or importer's agent will be required to provide general information. This information will include: the filer company name, employer identification number (EIN) or Customs ID number (where no EIN is available), U.S. street address, phone number, contact information and e-mail address for both the company headquarters and any branch offices that will be applying for steel licenses. It is the responsibility of the applicant to keep the information up-to-date. This information will not be released by Commerce, except as required by U.S. law.

§ 360.103 Automatic issuance of import licenses.

(a) In general. Steel import licenses will be issued to registered importers,

customs brokers or their agents through an automatic steel import licensing system. The licenses will be issued automatically after the completion of the form.

(b) Customs entry number. Filers are not required to report a Customs entry number to obtain an import license but are encouraged to do so if the Customs entry number is known at the time of filing for the license.

(c) Information required to obtain an import license. (1) The following information is required to be reported in order to obtain an import license (if using the automatic licensing system, some of this information will be provided automatically from information submitted as part of the registration process):

- (i) Filer company name and address;
- (ii) Filer contact name, phone number, fax number and email address;
- (iii) Entry type (*i.e.*, Consumption, FTZ);
- (iv) Importer name;
- (v) Exporter name;
- (vi) Manufacturer name (filer may state "unknown");
- (vii) Country of origin;
- (viii) Country of exportation;
- (ix) Expected date of export;
- (x) Expected date of import;
- (xi) Expected port of entry;
- (xii) Current HTS number (from Chapters 72 or 73);
- (xiii) Quantity (in kilograms) and
- (xiv) Customs value (U.S. \$).

(2) Certain fields will be automatically filled out by the automatic license system based on information submitted by the filer (*e.g.*, product category, unit value). Filers should review these fields to help confirm the accuracy of the submitted data.

(3) Upon completion of the form, the importer, customs broker or the importer's agent will certify as to the accuracy and completeness of the information and submit the form electronically. After refreshing the page, the system will automatically issue a steel import license number. The refreshed form containing the submitted information and the newly issued license number will appear on the screen (the "license form"). Filers can print the license form themselves only at that time. For security purposes, users will
