

your total net earnings from self-employment for the taxable year.

(e) *Different taxable years.* If you are a partner and your taxable year is different from that of the partnership, you must include, in figuring your net earnings from self-employment, your distributive share of the income or loss of the partnership for its taxable year ending with or within your taxable year. For the special rule in case of the termination of a partner's taxable year as a result of death, see § 404.1087.

(f) *Meaning of partnerships.* A partnership for social security purposes is one that is recognized as a partnership for income tax purposes. For income tax purposes, the term *partnership* includes not only a partnership as known under common law, but also a syndicate, group, pool, joint venture, or other unincorporated organization that carries on any trade or business, financial operation, or venture, and which is not a trust, estate, or a corporation.

(g) *Proprietorship taxed as domestic corporation.* If you are a proprietor of an unincorporated business enterprise and have elected to be taxed as a domestic corporation, you must figure your net earnings from self-employment without regard to the election you have made.

[45 FR 20075, Mar. 27, 1980, as amended at 50 FR 36574, Sept. 9, 1985]

§ 404.1082 Rentals from real estate; material participation.

(a) *In general.* Your rentals from real estate and from personal property leased with the real estate (including rentals paid in crop shares) and the deductions attributable to the rentals are excluded in figuring your net earnings from self-employment, unless you receive the rentals in the course of a trade or business as a real estate dealer. If you are an owner or lessee of land, rentals paid in crop shares include income you get under an agreement with another person if the arrangement provides for the following:

(1) The other person will produce agricultural or horticultural commodities on the land.

(2) The commodities produced, or the income from their sale, will be divided between you and the other person.

(3) The amount of your share depends on the amount of the commodities produced.

(b) *Real estate dealers.* (1) You are a real estate dealer if you are engaged in the business of selling real estate to customers for profit.

(2) If you merely hold real estate for investment or speculation and receive rental income from it, you are not considered a real estate dealer.

(3) If you are a real estate dealer, but also hold real estate for investment or speculation in addition to real estate you hold for sale to customers, only the rental income from the real estate held for sale to customers and the deductions attributable to it are included in determining your net earnings from self-employment. The rental income from real estate you hold for investment or speculation and the deductions attributable to it are not counted in figuring your net earnings from self-employment.

(c) *Special rule for farm rental income—*
(1) *In general.* If you own or lease land, any income you derive from it is included in figuring your net earnings from self-employment if—

(i) The income results from an arrangement between you and another person which provides for the other person to produce agricultural or horticultural commodities on the land that you own or lease and for you to materially participate in the production or the management of the production of the agricultural or horticultural commodities; and

(ii) You actually do materially participate.

(2) *Nature of arrangement.* (i) The arrangement between you and the other person may be either oral or written. It must provide that the other person will produce one or more agricultural or horticultural commodities and that you will materially participate in the production or the management of the production of the commodities.

(ii) The term *production*, refers to the physical work performed and the expenses incurred in producing a commodity. It includes activities like the actual work of planting, cultivating, and harvesting crops, and the furnishing of machinery, implements, seed, and livestock.

(iii) The term *management of the production*, refers to services performed in making managerial decisions about the production of the crop, such as when to plant, cultivate, dust, spray, or harvest, and includes advising and consulting, making inspections, and making decisions on matters, such as rotation of crops, the type of crops to be grown, the type of livestock to be raised, and the type of machinery and implements to be furnished.

(3) *Material participation.* (i) If you show that you periodically advise or consult with the other person, who under the rental arrangement produces the agricultural or horticultural commodities, and also show that you periodically inspect the production activities on the land, you will have presented strong evidence that you are materially participating.

(ii) If you also show that you furnish a large portion of the machinery, tools, and livestock used in the production of the commodities, or that you furnish or advance monies, or assume financial responsibility, for a substantial part of the expense involved in the production of the commodities, you will have established that you are materially participating.

(4) *Employees or agents.* We consider any farm rental arrangement entered into by your employee or agent and another person to be an arrangement entered into by you. However, we do not consider the services of an employee or agent as your services in determining the extent to which you have participated in the production or management of production of a commodity.

(5) *Examples.*

Example 1. After the death of her husband, Ms. A rents her farm, together with its machinery and equipment, to B for one-half of the proceeds from the commodities produced on the farm by B. It is agreed that B will live in the tenant house on the farm and be responsible for the overall operation of the farm, such as planting, cultivating, and harvesting the field crops, caring for the orchard and harvesting the fruit and caring for the livestock and poultry. It also is agreed that Ms. A will continue to live in the farm residence and help B operate the farm. Under the agreement it is expected that Ms. A will regularly operate and clean the cream separator and feed the poultry flock and collect the eggs. When possible she will assist B in such work as spraying the fruit trees, pen-

ning livestock, culling the poultry, and controlling weeds. She will also assist in preparing the meals when B engages seasonal workers. The agreement between Ms. A and B clearly provides that she will materially participate in the overall production operations to be conducted on her farm by B. In actual practice, Ms. A regularly performs those services. The regularly performed services are material to the production of an agricultural commodity, and the services performed are material to the production operations to which they relate. The furnishing of a substantial portion of the farm machinery and equipment also supports the conclusion that Ms. A has materially participated. Accordingly, the rental income Ms. A receives from her farm should be included in her net earnings from self-employment.

Example 2. G owns a fully-equipped farm which he rents to H under an arrangement which provides that G will materially participate in the management of the production of crops raised on the farm under the arrangement. G lives in town about 5 miles from the farm. About twice a month he visits the farm and looks over the buildings and equipment. G may occasionally, in an emergency, discuss with H some phase of a crop production activity. In effect, H has complete charge of the management of farming operations regardless of the understanding between him and G. Although G pays one-half of the cost of the seed and fertilizer and is charged for the cost of materials purchased by H to make all necessary repairs, G's activities are not material in the crop production activities. Accordingly, G's income from the crops is not included in net earnings from self-employment.

(d) *Rental income from living quarters—*
(1) *No services provided for occupants.* Payments you receive for renting living quarters in a private residence, duplex, or multiple-housing unit are generally rental income from real estate. Except in the case of real estate dealers, these payments are excluded in determining net earnings from self-employment, even if the payments are in part attributable to personal property furnished under the lease.

(2) *Services provided for occupants.* (i) Payments you receive for renting living quarters where services are also provided to the occupant, as in hotels, boarding houses, or apartment houses furnishing hotel services, or in tourist camps or tourist homes, are included in determining your net earnings from self-employment. Any payments you receive for the use of space in parking lots, warehouses, or storage garages

§ 404.1083

are also included in determining your net earnings from self-employment.

(ii) Generally, we consider services to be provided to the occupant if they are primarily for the occupant's convenience and are other than those usually provided in connection with the rental of rooms or other space for occupancy only. We consider the supplying of maid service to be a service provided to the occupant. However, we do not consider the furnishing of heat and light, the cleaning of public entrances, exits, stairways, and lobbies and the collection of trash, as services provided to the occupant.

Example: A owns a building containing four apartments. During the taxable year, A received \$1,400 from apartments numbered 1 and 2, which are rented without services provided to the occupants, and \$3,600 from apartments numbered 3 and 4, which are rented with services provided. A's fixed expenses for the four apartments are \$1,200 during the taxable year. In addition, A has \$500 of expenses attributable to the services provided to the occupants of apartments 3 and 4. In determining his net earnings from self-employment, A includes the \$3,600 received from apartments 3 and 4, and the expenses of \$1,100 (\$500 plus one-half of \$1,200) attributable to them. The rentals and expenses attributable to apartments 1 and 2 are excluded. Therefore, A has \$2,500 of net earnings from self-employment from the building for the taxable year.

(e) *Treatment of business income which includes rentals from real estate.* If an individual or a partnership is engaged in a trade or business other than real estate, and part of the income is rentals from real estate, only that part of the income which is not rentals and the expenses attributable to that portion are included in determining net earnings from self-employment.

§ 404.1083 Dividends and interest.

(a) The dividends you receive on shares of stock are excluded in determining your net earnings from self-employment, unless you are a dealer in stocks and securities and receive the dividends in the course of your trade or business.

(b) The interest you receive on a bond, debenture, note, certificate, or other evidence of indebtedness issued with interest coupons or in registered form by any corporation (including one

20 CFR Ch. III (4-1-10 Edition)

issued by a government or political subdivision) is excluded in determining your net earnings from self-employment, unless you are a dealer in stocks and securities and receive the interest in the course of your trade or business.

(c) If you hold stocks or securities for investment or speculation purposes, any dividends and interest you receive that are excludable under paragraphs (a) and (b) of this section are excluded in determining your net earnings from self-employment, whether or not you are a dealer in stocks and securities.

(d) A dealer in stocks or securities is a merchant with an established place of business who is regularly engaged in the business of purchasing stocks or securities and reselling them to customers. The dealer, as a merchant, buys stocks or securities and sells them to customers with a view to making a profit. Persons who buy and sell or hold stocks or securities for investment or speculation, regardless of whether the buying or selling constitutes a trade or business, are not dealers in stocks or securities.

[45 FR 20075, Mar. 25, 1980; 45 FR 25060, Apr. 14, 1980]

§ 404.1084 Gain or loss from disposition of property; capital assets; timber, coal, and iron ore; involuntary conversion.

(a) If you are engaged in a trade or business, you must, in determining your net earnings from self-employment, exclude any gain or loss—

(1) That is considered a gain or loss from the sale or exchange of a capital asset;

(2) From the cutting of timber or from the disposal of timber or coal, even if held primarily for sale to customers, if section 631 of the Code applies to the gain or loss;

(3) From the disposal of iron ore mined in the United States, even if held primarily for sale to customers, if section 631 of the Code applies to the gain or loss; and

(4) From the sale, exchange, involuntary conversion, or other disposition of property that is not—

(i) Stock in trade or other property of a kind which would properly be included in inventory if on hand at the close of the taxable year; or
