

(4) *Self-employed on a regular basis.* For any taxable year beginning after 1972, we consider you to be self-employed on a regular basis, or to be a member of a partnership on a regular basis, if, in at least 2 of the 3 taxable years immediately before that taxable year, you had actual net earnings from self-employment of not less than \$400 from agricultural and non-agricultural trades or businesses (including your distributive share of the net income or loss from any partnership of which you are a member).

(d) *Members of partnerships.* If you are a member of a partnership you may use the optional method of reporting. Your gross income is your distributive share of the partnership's gross income (after all guaranteed payments to which section 707(c) of the Code applies have been deducted), plus your own guaranteed payment.

(e) *Computing gross income.* For purposes of this section gross income means—

(1) Under the cash method of computing, the gross receipts from the trade or business reduced by the cost or other basis of property that was purchased and sold, minus any income that is excluded in computing net earnings from self-employment; or

(2) Under the accrual method of computing, the gross income minus any income that is excluded in figuring net earnings from self-employment.

(f) *Exercise of option.* For each taxable year for which you are eligible to use the optional method and elect to use that method, you must figure your net earnings from self-employment in that manner on your tax return for that year. If you wish to change your method of reporting after your tax return is filed, you may change it by filing an amended tax return with the Internal Revenue Service or by filing with us Form 2190, Change in Method of Computing Net Earnings from Self-Employment.

§ 404.1095 Agricultural trade or business.

(a) An agricultural trade or business is one in which, if the trade or business were carried on entirely by employees, the major portion of the services would be agricultural labor (§ 404.1057).

(b)(1) If the services are partly agricultural and partly non-agricultural, the time devoted to the performance of each type of service is the test used to determine whether the major portion of the services is agricultural labor.

(2) If more than half of the time spent in performing all the services is spent in performing services that are agricultural labor, the trade or business is agricultural.

(3) If half or less of the time spent in performing all the services is spent in performing services that are agricultural labor, the trade or business is not agricultural. The time spent in performing the services is figured by adding the time spent in the trade or business during the taxable year by every individual (including the individual carrying on the trade or business and the members of that individual's family).

(c) We do not apply the rules in this section if the non-agricultural services are performed in connection with a trade or business separate and distinct from the agricultural trade or business. A roadside automobile service station on a farm is a trade or business separate and distinct from the agricultural trade or business, and the gross income from the service station, less the deductions attributable to it, is to be considered in determining net earnings from self-employment.

(d) We consider a sharefarmer (see § 404.1068(c)) or a materially participating owner or tenant (see § 404.1082(c)) to be engaged in an agricultural trade or business. We use the rules in this section to determine whether a farm crew leader who is self-employed (see § 404.1074) is engaged in an agricultural trade or business.

§ 404.1096 Self-employment income.

(a) *General.* Self-employment income is the amount of your net earnings from self-employment that is subject to social security tax and counted for social security benefit purposes. The term *self-employment income* means the net earnings from self-employment you derive in a taxable year, except as described in paragraphs (b), (c) and (d) of this section.

(b) *Maximum self-employment income.*
(1) The term *self-employment income*

§ 404.1200

20 CFR Ch. III (4-1-10 Edition)

does not include that part of your net earnings from self-employment that exceeds (or that part of your net earnings from self-employment which, when added to the wages you received in that taxable year, exceeds)—

Taxable year	Amount
Ending before 1955	\$3,600
Ending in 1955 through 1958	4,200
Ending in 1959 through 1965	4,800
Ending in 1966 and 1967	6,600
Ending after 1967 and beginning before 1972	7,800
Beginning in 1972	9,000
Beginning in 1973	10,800
Beginning in 1974	13,200
Beginning in 1975	14,100
Beginning in 1976	15,300
Beginning in 1977	16,500
Beginning in 1978	17,700
Beginning in 1979	22,900
Beginning in 1980	25,900
Beginning in 1981	29,700
Beginning in 1982	32,400
Beginning in 1983	35,700
Beginning in 1984	37,800
Beginning in 1985	39,600
Beginning in 1986	42,000
Beginning in 1987	43,800
Beginning in 1988	45,000
Beginning in 1989	48,000
Beginning in 1990	51,300
Beginning in 1991	53,400
Beginning in 1992	55,500

(2) For the purpose of this paragraph the term *wages* includes remuneration paid to an employee for services covered by an agreement entered into under section 218 of the Act, or an agreement entered into under section 3121(1) of the Code, which would be wages under section 209 of Act if the services were considered employment under section 210(a) of the Act.

(c) *Minimum net earnings from self-employment.* (1) Self-employment income does not include your net earnings from self-employment when the amount of those earnings for the taxable year is less than \$400. If you have only \$300 of net earnings from self-employment for the taxable year you would not have any self-employment income. (Special rules apply if you are paid \$100 or more and work for a church or church-controlled organization that has exempted its employees (see § 404.1068(f)).)

(2) If you have net earnings from self-employment of \$400 or more for the taxable year you may have less than \$400 of creditable self-employment income. This occurs where your net earnings from self-employment is \$400 or

more for a taxable year and the amount of your net earnings from self-employment plus the amount of the wages paid to you during that taxable year exceed the maximum creditable earnings for a year. For example, if you had net earnings from self-employment of \$1,000 for 1978, and were also paid wages of \$17,500 during 1978, your creditable self-employment income for 1978 would be \$200.

(d) *Nonresident aliens.* A nonresident alien has self-employment income only if coverage is provided under a totalization agreement [see § 404.1913]. We do not consider an individual who is a resident of the Commonwealth of Puerto Rico, the Virgin Islands, Guam, the Commonwealth of the Northern Mariana Islands, or American Samoa to be a nonresident alien.

GENERAL

§ 404.1200 General.

(a) *Coverage under section 218 of the Act.* Under section 218 of the Social Security Act (the Act) a State may ask the Commissioner of Social Security to enter into an agreement to extend Federal old-age, survivors, disability and hospital insurance coverage to groups of employees of the State and its political subdivisions. The Commissioner shall enter into such an agreement. State and local government employees, after being covered under an agreement, have the same benefit rights and responsibilities as other employees who are mandatorily covered under the programs. For payments due on wages
