§416.601 Introduction.

(a) Explanation of representative payment. This subpart explains the principles and procedures that we follow in determining whether to make representative payment and in selecting a representative payee. It also explains the responsibilities that a representative payee has concerning the use of the funds he or she receives on behalf of a beneficiary. A representative payee may be either a person or an organization selected by us to receive benefits on behalf of a beneficiary. A representative payee will be selected if we believe that the interest of a beneficiary will be served by representative payment rather than direct payment of benefits. Generally, we appoint a representative payee if we have determined that the beneficiary is not able to manage or direct the management of benefit payments in his or her own interest.

(b) Policy used to determine whether to make representative payment. (1) Our policy is that every beneficiary has the right to manage his or her own benefits. However, some beneficiaries due to a mental or physical condition or due to their youth may be unable to do so. Under these circumstances, we may determine that the interests of the beneficiary would be better served if we certified benefit payments to another person as a representative payee. However, we must select a representative payee for an individual who is eligible for benefits solely on the basis of disability if drug addiction or alcoholism is a contributing factor material to the determination of disability.

(2) If we determine that representative payment is in the interest of a beneficiary, we will appoint a representative payee. We may appoint a representative payee even if the beneficiary is a legally competent individual. If the beneficiary is a legally incompetent individual, we may appoint the legal guardian or some other person as a representative payee.

(3) If payment is being made directly to a beneficiary and a question arises concerning his or her ability to manage or direct the management of benefit payments, we will, if the beneficiary is 18 years old or older and has not been adjudged legally incompetent, continue to pay the beneficiary until we make a determination about his or her ability to manage or direct the management of benefit payments and the selection of a representative payee.

§416.610 When payment will be made to a representative payee.

(a) We pay benefits to a representative payee on behalf of a beneficiary 18 years old or older when it appears to us that this method of payment will be in the interest of the beneficiary. We do this if we have information that the beneficiary is—

(1) Legally incompetent or mentally incapable of managing benefit payments; or

(2) Physically incapable of managing or directing the management of his or her benefit payments; or

(3) Eligible for benefits solely on the basis of disability and drug addiction or alcoholism is a contributing factor material to the determination of disability.

(b) Generally, if a beneficiary is under age 18, we will pay benefits to a representative payee. However, in certain situations, we will make direct payments to a beneficiary under age 18 who shows the ability to manage the benefits. For example, we make direct
