§ 607.65 Exemptions for blood product establishments.

The following classes of persons are exempt from registration and blood product listing in accordance with this part 607 under the provisions of section 510(g)(1), (g)(2), and (g)(3) of the act, or because the Commissioner of Food and Drugs has found, under section 510(g)(5), that such registration is not necessary for the protection of the public health. The exemptions in paragraphs (a), (b), (f), and (g) of this section are limited to those classes of persons located in any State as defined in section 201(a)(1) of the act.

(a) Pharmacies that are operating under applicable local laws regulating dispensing of prescription drugs and that are not manufacturing blood products for sale other than in the regular course of the practice of the profession of pharmacy including the business of dispensing and selling blood products at retail. The supplying by such pharmacies of blood products to a practitioner licensed to administer such blood products for his use in the course of his professional practice or to other pharmacies to meet temporary inventory shortages are not acts which require such pharmacies to register.

(b) Practitioners who are licensed by law to prescribe or administer drugs and who manufacture blood products solely for use in the course of their professional practice.

(c) Persons who manufacture blood products which are not for sale, rather, are solely for use in research, teaching, or analysis, including laboratory samples.

(d) Carriers, by reason of their receipt, carriage, holding, or delivery of
Food and Drug Administration, HHS

blood products in the usual course of business as carriers.

(e) Persons who engage solely in the manufacture of in vitro diagnostic blood products and reagents not subject to licensing under section 351 of the Public Health Service Act (42 U.S.C. 262). This paragraph does not exempt such persons from registration and listing for medical devices required under part 807 of this chapter.

(f) Transfusion services which are a part of a facility that is certified under the Clinical Laboratory Improvement Amendments of 1988 (42 U.S.C. 263a) and 42 CFR part 493 or has met equivalent requirements as determined by the Centers for Medicare and Medicaid Services and which are engaged in the compatibility testing and transfusion of blood and blood components, but which neither routinely collect nor process blood and blood components. The collection and processing of blood and blood components in an emergency situation as determined by a responsible person and documented in writing, therapeutic collection of blood or plasma, the preparation of recovered human plasma for further manufacturing use, or preparation of red blood cells for transfusion are not acts requiring such transfusion services to register.

PART 610—GENERAL BIOLOGICAL PRODUCTS STANDARDS

Subpart A—Release Requirements

610.1 Tests prior to release required for each lot.
610.2 Requests for samples and protocols; official release.

Subpart B—General Provisions

610.9 Equivalent methods and processes.
610.10 Potency.
610.11a Inactivated influenza vaccine, general safety test.
610.12 Sterility.
610.13 Purity.
610.14 Identity.
610.15 Constituent materials.
610.16 Total solids in serums.
610.17 Permissible combinations.
610.18 Cultures.

Subpart C—Standard Preparations and Limits of Potency

610.20 Standard preparations.
610.21 Limits of potency.

Subpart D—Mycoplasma

610.30 Test for Mycoplasma.

Subpart E—Testing Requirements for Communicable Disease Agents

610.40 Test requirements.
610.41 Donor deferral.
610.42 Restrictions on use for further manufacture of medical devices.
610.44 Use of reference panels by manufacturers of test kits.
610.46 Human immunodeficiency virus (HIV) "lookback" requirements.
610.47 Hepatitis C virus (HCV) "lookback" requirements.
610.48 Hepatitis C virus (HCV) "lookback" requirements based on review of historical testing records.

Subpart F—Dating Period Limitations

610.50 Date of manufacture.
610.53 Dating periods for licensed biological products.

Subpart G—Labeling Standards

610.60 Container label.
610.61 Package label.
610.62 Proper name; package label; legible type.
610.63 Divided manufacturing responsibility to be shown.
610.64 Name and address of distributor.
610.65 Products for export.
610.67 Bar code label requirements.
610.68 Exceptions or alternatives to labeling requirements for biological products held by the Strategic National Stockpile.
