

888.320 One-time Contract Rent determination.

**Subpart D—Retroactive Housing Assistance Payments for Moderate Rehabilitation Projects**

888.401 Purpose and scope.

888.405 Amount of the retroactive Housing Assistance Payments.

888.410 Notice of eligibility requirements for retroactive payments.

888.415 Restrictions on retroactive payments.

888.420 One-time Contract Rent determination.

AUTHORITY: 42 U.S.C. 1437f and 3535d.

SOURCE: 50 FR 38796, Sept. 25, 1985, unless otherwise noted.

EDITORIAL NOTE: For revisions and amendments affecting Schedules A, B, C, and D, issued under part 888, but not carried in the Code of Federal Regulations, see the List of CFR Sections Affected, in the Finding Aids section of the printed volume and on GPO Access.

**Subpart A—Fair Market Rents**

**§ 888.111 Fair market rents for existing housing: Applicability.**

(a) The fair market rents (FMRs) for existing housing are determined by HUD and are used in the Section 8 Housing Choice Voucher Program (“voucher program”) (part 982 of this title), Section 8 project-based assistance programs and other programs requiring their use. In the voucher program, the FMRs are used to determine payment standard schedules. In the Section 8 project-based assistance programs, the FMRs are used to determine the maximum initial rent (at the beginning of the term of a housing assistance payments contract).

(b) Fair market rent means the rent, including the cost of utilities (except telephone), as established by HUD, pursuant to this subpart, for units of varying sizes (by number of bedrooms), that must be paid in the market area to rent privately owned, existing, decent, safe and sanitary rental housing of modest (non-luxury) nature with suitable amenities.

[64 FR 56911, Oct. 21, 1999]

**§ 888.113 Fair market rents for existing housing: Methodology.**

(a) *Basis for setting fair market rents.* Fair Market Rents (FMRs) are estimates of rent plus the cost of utilities, except telephone. FMRs are housing market-wide estimates of rents that provide opportunities to rent standard quality housing throughout the geographic area in which rental housing units are in competition. The level at which FMRs are set is expressed as a percentile point within the rent distribution of standard quality rental housing units in the FMR area. FMRs are set at either the 40th or 50th percentile rent—the dollar amount below which the rent for 40 or 50 percent of standard quality rental housing units falls. The 40th or 50th percentile rent is drawn from the distribution of rents of all units that are occupied by recent movers. Adjustments are made to exclude public housing units, newly built units and substandard units.

(b) *Setting FMRs at the 40th or 50th percentile rent.* Generally HUD will set the FMRs at the 40th percentile rent. HUD will set FMRs at the 50th percentile only in accordance with paragraph (c) of this section.

(c) *Setting FMRs at the 50th percentile rent to provide a broad range of housing opportunities throughout a metropolitan area.* (1) HUD will set the FMRs at the 50th percentile rent for all unit sizes in each metropolitan FMR area that meets all of the following criteria at the time of annual publication of the FMRs:

(i) The FMR area contains at least 100 census tracts;

(ii) 70 percent or fewer of the census tracts with at least 10 two bedroom rental units are census tracts in which at least 30 percent of the two bedroom rental units have gross rents at or below the two bedroom FMR set at the 40th percentile rent; and

(iii) 25 percent or more of the tenant-based rental program participants in the FMR area reside in the 5 percent of the census tracts within the FMR area that have the largest number of program participants.

(2) If the FMRs are set at the 50th percentile rent in accordance with paragraph (c)(1) of this section, HUD

will set the FMRs at the 50th percentile rent for a total of three years.

(i) At the end of the three-year period, HUD will continue to set the FMRs at the 50th percentile rent only so long as the concentration measure for the current year is less than the concentration measure at the time the FMR area first received an FMR set at the 50th percentile rent. HUD will publish FMRs based on the 40th percentile rent for FMR areas that do not qualify for continued use of the 50th percentile rent.

(ii) For purposes of this section, the term “concentration measure” means the percentage of tenant-based rental program participants in the FMR area who reside in the 5 percent of the census tracts within the FMR area that have the largest number of program participants.

(iii) FMR areas that do not meet the test for continued use of FMRs set at the 50th percentile will be ineligible to use FMRs set at the 50th percentile for a period of three years.

(iv) A PHA whose jurisdiction includes one or more FMR areas that are no longer eligible to use FMRs set at the 50th percentile may be eligible for a higher payment standard under § 982.503(f).

(d) *FMR Areas.* FMR areas are metropolitan areas and nonmetropolitan counties (nonmetropolitan parts of counties in the New England States). With several exceptions, the most current Office of Management and Budget (OMB) metropolitan area definitions of Metropolitan Statistical Areas (MSAs) and Primary Metropolitan Statistical Areas (PMSAs) are used because of their generally close correspondence with housing market area definitions. HUD may make exceptions to OMB definitions if the MSAs or PMSAs encompass areas that are larger than housing market areas. The counties deleted from the HUD-defined FMR areas in those cases are established as separate metropolitan county FMR areas. FMRs are established for all areas in the United States, the District of Columbia, Puerto Rico, the Virgin Islands, and the Pacific Islands.

(e) *Data sources.* (1) HUD uses the most accurate and current data available to develop the FMR estimates and

may add other data sources as they are discovered and determined to be statistically valid. The following sources of survey data are used to develop the base-year FMR estimates:

(i) The most recent decennial Census, which provides statistically reliable rent data.

(ii) The American Housing Survey (AHS) data, conducted by the Bureau of the Census for HUD. AHS's have comparable accuracy to the decennial Census, and are used to develop between-census revisions for the largest metropolitan areas on a four-year revolving schedule.

(iii) Random Digit Dialing (RDD) telephone survey data, based on a sampling procedure that uses computers to select statistically random samples of rental housing.

(iv) Statistically valid information, as determined by HUD, presented to HUD during the public comment and review period.

(2) Base-year FMRs are updated and trended to the midpoint of the program year they are to be effective using Consumer Price Index (CPI) data for rents and for utilities or using rent-change factors obtained from the RDD regional surveys. The RDD rent-change factors are developed annually for the metropolitan and nonmetropolitan parts of the HUD-specified geographic regions not covered by CPI surveys, and are used to update the base-year FMR estimates within these regions.

(f) *Unit size adjustments.* (1) For most areas the ratios developed from the most recent decennial Census are applied to the two-bedroom FMR estimates to derive FMRs for other bedroom sizes. Exceptions to this procedure may be made for areas with local bedroom intervals below an acceptable range. To help the largest most difficult to house families find units, higher ratios than the actual market ratios may be used for three-bedroom and larger-size units.

(2) The FMR for single room occupancy housing is 75 percent of the FMR for a zero bedroom unit.

(g) *Manufactured home space rental.* The FMR for a manufactured home space rental (for the voucher program under part 982 of this title) is:

(1) 40 percent of the FMR for a two bedroom unit; or

(2) When approved by HUD on the basis of survey data submitted in public comments, either the 40th or 50th percentile as applicable of the rental distribution of manufactured home spaces for the FMR area. HUD accepts public comments requesting revision of the proposed manufactured home spaces FMRs for areas where space rentals are thought to differ from 40 percent of the FMR for a two-bedroom unit. To be considered for approval, the comments must contain statistically valid survey data that show either the 40th or 50th percentile manufactured home space rent (including the cost of utilities for the manufactured home) for the FMR area. Once approved, the revised manufactured home space FMRs establish new base-year estimates that will be updated annually using the same data used to update the FMRs.

[60 FR 42226, Aug. 15, 1995, as amended at 64 FR 56911, Oct. 21, 1999; 65 FR 58873, Oct. 2, 2000]

**§ 888.115 Fair market rents for existing housing: Manner of publication.**

FMRs will be published at least annually in the FEDERAL REGISTER. The Department will propose FMRs and provide a comment period of at least 30 days for the purpose of identifying areas where the FMRs are believed to be too high or too low. To be considered for FMR revisions, public comments must include statistically valid rental housing survey data that justify the requested changes. After the comments have been considered, the Department will publish a final notice announcing FMRs to be effective on October 1 each year.

[60 FR 42227, Aug. 15, 1995]

**Subpart B—Contract Rent Annual Adjustment Factors**

**§ 888.201 Purpose.**

Automatic Annual Adjustment Factors are used to adjust rents under the Section 8 Housing Assistance Payments Program.

[44 FR 75383, Dec. 20, 1979]

**§ 888.202 Manner of publication.**

Adjustment Factors will be published in the FEDERAL REGISTER at least annually by Notice. Interim revisions may be published as market conditions indicate. In the case of revised factors applicable only to specific areas, the HUD Field Office will publish a notice appropriate to the limited scope of the revised factors (see § 888.204).

[42 FR 60508, Nov. 25, 1977, as amended at 44 FR 75383, Dec. 20, 1979; 47 FR 4252, Jan. 29, 1982]

**§ 888.203 Use of contract rent automatic annual adjustment factors.**

(a) To compute an adjustment to a Contract Rent, find the schedule of Automatic Annual Adjustment Factors for the appropriate Census Region or Standard Metropolitan Statistical Area—

(1) If the Contract Rent includes all utilities, use the factor shown on the basic schedule for the rent bracket within which the particular Contract Rent falls and for the applicable size of unit (by number of bedrooms).

(2) If the Contract Rent does not include all utilities but does include the highest cost utility, use the appropriate factor shown on the basic schedule.

(3) If the Contract Rent does not include any utilities or includes some utilities but not the highest cost utility, use the Annual Adjustment Factor for Contract Rent (Excluding Utilities).

(b) The adjusted monthly amount of the Contract Rent of a dwelling unit shall be determined by multiplying the Contract Rent in effect on the anniversary date of the contract by the applicable Automatic Annual Adjustment Factor (see paragraph (a) of this section) and rounding the result as follows:

(1) If the result contains a fractional dollar amount ranging from \$0.01 to \$0.49, round to the next lower whole dollar amount;

(2) If the result contains a fractional dollar amount ranging from \$0.50 to \$0.99, round to the next higher whole dollar amount.

[42 FR 60508, Nov. 25, 1977, as amended at 44 FR 21769, Apr. 12, 1979; 47 FR 4252, Jan. 29, 1982; 59 FR 38564, July 29, 1994]
