§941.305  on the proposed development (to expedite the HUD environmental review);

(m) Occupancy and operation policies. Statement of all PHA policies and practices that will be used in occupancy and operation that contribute to an overall objective of ending the social and economic isolation of low-income people and promoting their economic independence;

(n) New construction certification. If a PHA's proposal involves new construction, evidence of compliance with section 6(h) of the Act in one of the following two ways:

(1) Submission of a PHA comparison of the cost of new construction in the neighborhood where the PHA proposes to construct the housing and the cost of acquisition of existing housing (with or without rehabilitation) in the same neighborhood; or

(2) Certification by the PHA, accompanied by supporting documentation, that there is insufficient existing housing in the neighborhood to develop public housing through acquisition; and

(o) Additional HUD-requested information. Any additional information that may be needed for HUD to determine whether it can approve the proposal pursuant to §941.305.

EFFECTIVE DATE NOTE: At 61 FR 38018, July 22, 1996, §941.304 was added. This section contains information collection and record-keeping requirements and will not become effective until approval has been given by the Office of Management and Budget.

§941.306  Maximum project cost.

(a) Calculation of maximum project cost. The maximum project cost represents the total amount of public housing capital assistance used in connection with the development of a public housing project, and includes: (1) project costs that are subject to the TDC limit (i.e., Housing Construction Costs and Community Renewal Costs); and (2) project costs that are not subject to the TDC limit (i.e., Additional Project Costs). The total project cost to be funded with public housing capital assistance, as set forth in the proposal and as approved by HUD, becomes the maximum project cost stated in the ACC. Upon completion of the project, the actual project cost is determined based upon the amount of public housing capital assistance expended for the project, and this becomes the maximum project cost for purposes of the ACC.

(b) TDC limit. (1) Public housing capital assistance may not be used to pay for Housing Construction Costs and Community Renewal Costs in excess of the TDC limit, as determined under paragraph (b)(2) of this section. However, HOPE VI grantees will be eligible to request a TDC exception for public housing and HOPE VI funds awarded in Fiscal Year 1996 and prior years. No exceptions to HCC limits will be granted within the TDC limit.

(2) Determination of TDC limit. HUD will determine the TDC for a public housing project as follows:
