

§ 211.44 Suspension of operations.

(a) After the expiration of the primary term of the lease the Secretary may approve suspension of operations for remedial purposes which are necessary for continued production, to protect the resource, the environment, or for other good reasons. *Provided*, that such remedial operations are conducted in accordance with 43 CFR part 3160, subpart 3165 and under such stipulations and conditions as may be prescribed by the Secretary and are conducted with reasonable diligence. Any suspension shall not relieve the lessee from liability for the payment of rental and other payments as required by lease provisions.

(b) An application for permission to suspend operations or production for economic or marketing reasons on a lease capable of production after the expiration of the primary term of lease duration must be accompanied by the written consent of the Indian mineral owner, an economic analysis, and an executed amendment by the parties to the lease setting forth the provisions pertaining to the suspension of operations and production. Such application shall be treated as a negotiated change to lease provisions, and as such, shall be subject to review and approval by the Secretary.

§ 211.45 [Reserved]**§ 211.46 Inspection of premises, books and accounts.**

Lessees shall allow the Indian mineral owner, the Indian mineral owner's representatives, or any authorized representative of the Secretary to enter all parts of the leased premises for the purpose of inspection and audit. Lessees shall keep a full and correct account of all operations and submit all related reports required by the lease and applicable regulations. Books and records shall be available for inspection during regular business hours.

§ 211.47 Diligence, drainage and prevention of waste.

The lessee shall:

(a) Exercise diligence in mining, drilling and operating wells on the leased lands while minerals production can be secured in paying quantities;

(b) Protect the lease from drainage (if oil and gas or geothermal resources are being drained from the lease premises by a well or wells located on lands not included in the lease, the Secretary reserves the right to impose reasonable and equitable terms and conditions to protect the interest of the Indian mineral owner of the lands, such as payment of compensatory royalty for the drainage);

(c) Carry on operations in a good and workmanlike manner in accordance with approved methods and practices;

(d) Have due regard for the prevention of waste of oil or gas or other minerals, the entrance of water through wells drilled by the lessee to other strata, to the destruction or injury of the oil or gas, other mineral deposits, or fresh water aquifers, the preservation and conservation of the property for future productive operations, and the health and safety of workmen and employees;

(e) Securely plug all wells and effectively shut off all water from the oil or gas-bearing strata before abandoning them;

(f) Not construct any well pad location within 200 feet of any structures or improvements without the Indian surface owner's written consent;

(g) Carry out, at the lessee's expense, all reasonable orders and requirements of the authorized officer relative to prevention of waste;

(h) Bury all pipelines crossing tillable lands below plow depth unless other arrangements are made with the Indian surface owner; and

(i) Pay the Indian surface owner all damages, including damages to crops, buildings, and other improvements of the Indian surface owner occasioned by the lessee's operations as determined by the superintendent.

§ 211.48 Permission to start operations.

(a) No exploration, drilling, or mining operations are permitted on any Indian lands before the Secretary has granted written approval of a mineral lease or permit pursuant to the regulations in this part.

(b) After a lease or permit is approved, written permission must be secured from the Secretary before any
