as of the transition date. A QBU branch shall adjust income by the amount of any unrealized exchange gain or loss that was attributable to a section 988 transaction (as defined in sections 988(c)(1) (A), (B), and (C)) that was denominated in terms of (or determined by reference to) the dollar and was held by the QBU branch on the transition date. Such gain or loss shall be computed as if recognized on the transition date and shall be reduced by any gain and increased by any loss recognized by the QBU branch with respect to such transaction during the look-back period. The amount of such gain or loss shall be determined without regard to the limitations of section 988(b) (i.e., whether any gain or loss would be realized on the transaction as a whole). The character and source of such gain or loss shall be determined under section 988. Proper adjustments shall be made to account for gain or loss taken into account by reason of this paragraph (d)(2). See §1.985–5(f) *Example 1, footnote 1.*

(ii) *Treatment of a section 988 transaction entered into and terminated during the look-back period.* A QBU branch shall reduce income by the amount of any gain, and increase income by the amount of any loss, that was recognized with respect to any dollar denominated section 988 transactions entered into and terminated during the look-back period.

(3) *Deemed termination income adjustment.* The taxpayer shall realize gain or loss attributable to the QBU branch's equity pool (as stated on the transition date) under the principles of section 987, computed as if the branch terminated on the transition date. Such amount shall be reduced by section 987 gain and increased by section 987 loss that was recognized by such taxpayer with respect to remittances during the look-back period.

(4) *Branch income adjustment.* Branch income in a separate category shall be determined under §1.985–3 for each look-back year. For this purpose, the opening DASTM balance sheet shall be determined under §1.985–5. The sum of the difference (positive or negative) between the amount computed pursuant to §1.985–3 and amount taken into account for each year shall be taken into account in the taxable year of change pursuant to paragraph (d)(1) of this section. Such amounts shall retain their character for all federal income tax purposes.

(5) *Opening balance sheet.* The opening balance sheet of a QBU branch for the taxable year of change shall be determined as if the branch had changed its functional currency to the dollar by applying §1.985–5(c) on the transition date and had translated its assets and liabilities acquired and incurred during the look-back period under §1.985–3.

(e) *Effective date.* This section is effective for taxable years beginning after April 6, 1998. However, a taxpayer may choose to apply this section to all open taxable years beginning after December 31, 1986, provided each person, and each QBU branch of a person, that is related (within the meaning of §1.985–2(d)(3)) to the taxpayer also applies this section.

[T.D. 8765, 63 FR 10774, Mar. 5, 1998]

§ 1.985–8 Special rules applicable to the European Monetary Union (conversion to euro).

(a) *Definitions*—(1) *Legacy currency.* A legacy currency is the former currency of a Member State of the European Community which is substituted for the euro in accordance with the Treaty establishing the European Community signed February 7, 1992. The term legacy currency shall also include the European Currency Unit.

(2) *Conversion rate.* The conversion rate is the rate at which the euro is substituted for a legacy currency.

(b) *Operative rules*—(1) *Initial adoption.* A QBU (as defined in §1.989(a)–1(b)) whose first taxable year begins after the euro has been substituted for a legacy currency may not adopt a legacy currency as its functional currency.

(2) *QBU with a legacy currency as its functional currency*—(i) *Required change.* A QBU with a legacy currency as its functional currency is required to change its functional currency to the euro beginning the first day of the first taxable year—

(A) That begins on or after the day that the euro is substituted for that legacy currency (in accordance with the Treaty on European Union); and

(B) In which the QBU begins to maintain its books and records (as described in §1.989(a)–1(d)) in the euro.

(ii) Notwithstanding paragraph (b)(2)(i) of this section, a QBU with a legacy currency as its functional currency is required to change its functional currency to the euro no later than the last taxable year beginning on or before the first day such legacy currency is no longer valid legal tender.

(3) *QBU with a non-legacy currency as its functional currency*—(i) *In general.* A QBU with a non-legacy currency as its functional currency may change its functional currency to the euro pursuant to this §1.985–8 if—

(A) Under the rules set forth in §1.985–1(c), the euro is the currency of the economic environment in which a significant part of the QBU's activities are conducted;

(B) After conversion, the QBU maintains its books and records (as described in §1.989(a)–1(d)) in the euro; and

(C) The QBU is not required to use the dollar as its functional currency under §1.985–1(b).

(ii) *Time period for change.* A QBU with a non-legacy currency as its functional currency may change its functional currency to the euro under this section only if it does so within the period set forth in paragraph (b)(2) of this section as if the functional currency of the QBU was a legacy currency.

(4) *Consent of Commissioner.* A change made pursuant to paragraph (b) of this section shall be deemed to be made with the consent of the Commissioner for purposes of §1.985–4. A QBU changing its functional currency to the euro pursuant to paragraph (b)(2) of this section must make adjustments as provided in paragraph (c) of this section. A QBU changing its functional currency to the euro pursuant to paragraph (b)(3) must make adjustments as provided in §1.985–5.

(5) *Statement to file upon change.* With respect to a QBU that changes its functional currency to the euro under paragraph (b) of this section, an affected taxpayer shall attach to its return for the taxable year of change a statement that includes the following: ''TAXPAYER CERTIFIES THAT A QBU OF THE TAXPAYER HAS CHANGED ITS FUNCTIONAL CURRENCY TO THE EURO PURSUANT TO TREAS. REG. §1.985–8.'' For purposes of this paragraph (b)(5), an affected taxpayer shall be in the case where the QBU is: a QBU of an individual U.S. resident (as a result of the activities of such individual), the individual; a QBU branch of a U.S. corporation, the corporation; a controlled foreign corporation (as described in section 957)(or QBU branch thereof), each United States shareholder (as described in section 951(b)); a partnership, each partner separately; a noncontrolled section 902 corporation (as described in section 904(d)(2)(E)) (or branch thereof), each domestic shareholder as described in §1.902–1(a)(1); or a trust or estate, the fiduciary of such trust or estate.

(c) *Adjustments required when a QBU changes its functional currency from a legacy currency to the euro pursuant to paragraph (b)(2) of this section*—(1) *In general.* A QBU that changes its functional currency from a legacy currency to the euro pursuant to paragraph (b)(2) of this section must make the adjustments described in paragraphs (c)(2) through (5) of this section. Section 1.985–5 shall not apply.

(2) *Determining the euro basis of property and the euro amount of liabilities and other relevant items.* The euro basis in property and the euro amount of liabilities and other relevant items shall equal the product of the legacy functional currency adjusted basis or amount of liabilities multiplied by the applicable conversion rate.

(3) *Taking into account exchange gain or loss on legacy currency section 988 transactions*—(i) *In general.* Except as provided in paragraphs (c)(3)(iii) and (iv) of this section, a legacy currency denominated section 988 transaction (determined after applying section 988(d)) outstanding on the last day of the taxable year immediately prior to the year of change shall continue to be treated as a section 988 transaction after the change and the principles of section 988 shall apply.

(ii) *Examples.* The application of this paragraph (c)(3) may be illustrated by the following examples:

Example 1. X, a calendar year QBU on the cash method of accounting, uses the deutschmark as its functional currency. X is not described in section 1281(b). On July 1, 1998, X converts 10,000 deutschmarks (DM) into Dutch guilders (fl) at the spot rate of fl1 = DM1 and loans the 10,000 guilders to Y (an unrelated party) for one year at a rate of 10% with principal and interest to be paid on June 30, 1999. On January 1, 1999, X changes its functional currency to the euro pursuant to this section. Assume that the euro/deutschmark conversion rate is set by the European Council at €1= DM2. Assume further that the euro/guilder conversion rate is set at €1 = fl2.25. Accordingly, under the terms of the note, on June 30, 1999, X will receive €4444.44 (fl10,000/2.25) of principal and €444.44 (fl1,000/2.25) of interest. Pursuant to this paragraph (c)(3), X will realize an exchange loss on the principal computed under the principles of §1.988–2(b)(5). For this purpose, the exchange rate used under §1.988–2(b)(5)(i) shall be the guilder/euro conversion rate. The amount under §1.988–2(b)(5)(ii) is determined by translating the fl10,000 at the guilder/deutschmark spot rate on July 1, 1998, and translating that deutschmark amount into euros at the deutschmark/euro conversion rate. Thus, X will compute an exchange loss for 1999 of €555.56 determined as follows: [€4444.44 (fl10,000/2.25)–5000 ((fl10,000/1)/2) = – €555.56]. Pursuant to this paragraph (c)(3), the character and source of the loss are determined pursuant to section 988 and regulations thereunder. Because X uses the cash method of accounting for the interest on this debt instrument, X does not realize exchange gain or loss on the receipt of that interest.

Example 2. (i) X, a calendar year QBU on the accrual method of accounting, uses the deutschmark as its functional currency. On February 1, 1998, X converts 12,000 deutschmarks into Dutch guilders at the spot rate of fl1 = DM1 and loans the 12,000 guilders to Y (an unrelated party) for one year at a rate of 10% with principal and interest to be paid on January 31, 1999. In addition, assume the average rate (deutschmark/guilder) for the period from February 1, 1998, through December 31, 1998 is fl1.07 = DM1. Pursuant to §1.988–2(b)(2)(ii)(C), X will accrue eleven months of interest on the note and recognize interest income of DM1028.04 (fl1100/1.07) in the 1998 taxable year.

(ii) On January 1, 1999, the euro will replace the deutschmark as the national currency of Germany pursuant to the Treaty on European Union signed February 7, 1992. Assume that on January 1, 1999, X changes its functional currency to the euro pursuant to this section. Assume that the euro/deutschmark conversion rate is set by the European Council at €1 = DM2. Assume further that the euro/guilder conversion rate is set at €1 = fl2.25. In 1999, X will accrue one month of interest equal to €44.44 (fl100/2.25). On January 31, 1999, pursuant to the note, X will receive interest denominated in euros of €533.33 (fl1200/2.25). Pursuant to this paragraph (c)(3), X will realize an exchange loss in the 1999 taxable year with respect to accrued interest computed under the principles of §1.988–2(b)(3). For this purpose, the exchange rate used under §1.988–2(b)(3)(i) is the guilder/euro conversion rate and the exchange rate used under §1.988–2(b)(3)(ii) is the deutschmark/euro conversion rate. Thus, with respect to the interest accrued in 1998, X will realize exchange loss of €25.13 under §1.988–2(b)(3) as follows: [€488.89 (fl1100/2.25)–€514.02 (DM1028.04/2) =– €25.13]. With respect to the one month of interest accrued in 1999, X will realize no exchange gain or loss since the exchange rate when the interest accrued and the spot rate on the payment date are the same.

(iii) X will realize exchange loss of €666.67 on repayment of the loan principal computed in the same manner as in Example 1 [€5333.33 (fl12,000/2.25)– €6000 fl12,000/1)/2)]. The losses with respect to accrued interest and principal are characterized and sourced under the rules of section 988.

(iii) *Special rule for legacy nonfunctional currency.* The QBU shall realize or otherwise take into account for all purposes of the Internal Revenue Code the amount of any unrealized exchange gain or loss attributable to nonfunctional currency (as described in section 988(c)(1)(C)(ii)) that is denominated in a legacy currency as if the currency were disposed of on the last day of the taxable year immediately prior to the year of change. The character and source of the gain or loss are determined under section 988.

(iv) *Legacy currency denominated accounts receivable and payable*—(A) *In general.* A QBU may elect to realize or otherwise take into account for all purposes of the Internal Revenue Code the amount of any unrealized exchange gain or loss attributable to a legacy currency denominated item described in section 988(c)(1)(B)(ii) as if the item were terminated on the last day of the taxable year ending prior to the year of change.

(B) *Time and manner of election.* With respect to a QBU that makes an election described in paragraph (c)(3)(iv)(A) of this section, an affected taxpayer (as described in paragraph (b)(5) of this section) shall attach a statement to its tax return for the taxable year ending immediately prior to the year of change which includes the following: ‘‘TAXPAYER CERTIFIES THAT A QBU OF THE TAXPAYER HAS

ELECTED TO REALIZE CURRENCY GAIN OR LOSS ON LEGACY CURRENCY DENOMINATED ACCOUNTS RECEIVABLE AND PAYABLE UPON CHANGE OF FUNCTIONAL CURRENCY TO THE EURO.'' A QBU making the election must do so for all legacy currency denominated items described in section 988(c)(1)(B)(ii).

(4) *Adjustments when a branch changes its functional currency to the euro*—(i) *Branch changing from a legacy currency to the euro in a taxable year during which taxpayer's functional currency is other than the euro.* If a branch changes its functional currency from a legacy currency to the euro for a taxable year during which the taxpayer's functional currency is other than the euro, the branch's euro equity pool shall equal the product of the legacy currency amount of the equity pool multiplied by the applicable conversion rate. No adjustment to the basis pool is required.

(ii) *Branch changing from a legacy currency to the euro in a taxable year during which taxpayer's functional currency is the euro.* If a branch changes its functional currency from a legacy currency to the euro for a taxable year during which the taxpayer's functional currency is the euro, the taxpayer shall realize gain or loss attributable to the branch's equity pool under the principles of section 987, computed as if the branch terminated on the last day prior to the year of change. Adjustments under this paragraph (c)(4)(ii) shall be taken into account by the taxpayer ratably over four taxable years beginning with the taxable year of change.

(5) *Adjustments to a branch's accounts when a taxpayer changes to the euro*—(i) *Taxpayer changing from a legacy currency to the euro in a taxable year during which a branch's functional currency is other than the euro.* If a taxpayer changes its functional currency to the euro for a taxable year during which the functional currency of a branch of the taxpayer is other than the euro, the basis pool shall equal the product of the legacy currency amount of the basis pool multiplied by the applicable conversion rate. No adjustment to the equity pool is required.

(ii) *Taxpayer changing from a legacy currency to the euro in a taxable year during which a branch's functional currency is the euro.* If a taxpayer changes its functional currency from a legacy currency to the euro for a taxable year during which the functional currency of a branch of the taxpayer is the euro, the taxpayer shall take into account gain or loss as determined under paragraph (c)(4)(ii) of this section.

(6) *Additional adjustments that are necessary when a corporation changes its functional currency to the euro.* The amount of a corporation's euro currency earnings and profits and the amount of its euro paid-in capital shall equal the product of the legacy currency amounts of these items multiplied by the applicable conversion rate. The foreign income taxes and accumulated profits or deficits in accumulated profits of a foreign corporation that were maintained in foreign currency for purposes of section 902 and that are attributable to taxable years of the foreign corporation beginning before January 1, 1987, also shall be translated into the euro at the conversion rate.

(d) *Treatment of legacy currency section 988 transactions with respect to a QBU that has the euro as its functional currency*—(1) *In general.* This §1.985–8(d) applies to a QBU that has the euro as its functional currency and that holds a section 988 transaction denominated in, or determined by reference to, a currency that is substituted by the euro. For example, this paragraph (d) will apply to a German QBU with the euro as its functional currency if the QBU is holding Country X currency or other section 988 transactions denominated in such currency on the day in the year 2005 when the euro is substituted for the Country X currency.

(2) *Principles of paragraph (c)(3) of this section shall apply.* With respect to a QBU described in paragraph (d) of this section, the principles of paragraph (c)(3) of this section shall apply. For example, if a German QBU with the euro as its functional currency is holding a Country X currency denominated debt instrument on the day in the year 2005 when the euro is substituted for the Country X currency, the instrument shall continue to be treated as a section 988 transaction pursuant to the

principles of paragraph (c)(3)(i) of this section. However, if such QBU holds Country X currency, the QBU shall take into account any unrealized exchange gain or loss pursuant to the principles of paragraph (c)(3)(iii) of this section as if the currency was disposed of on the day prior to the day the euro is substituted for the Country X currency. Similarly, if the QBU makes an election under the principles of paragraph (c)(3)(iv) of this section, the QBU shall take into account for all purposes of the Internal Revenue Code the amount of any unrealized exchange gain or loss attributable to a legacy currency denominated item described in section 988(c)(1)(B)(ii) as if the item were terminated on the day prior to the day the euro is substituted for the Country X currency.

(e) *Effective date.* This section applies to tax years ending after July 29, 1998.

[T.D. 8927, 66 FR 2216, Jan. 11, 2001; T.D. 8927, 66 FR 21447, Apr. 30, 2001]

§ 1.987–1 Profit and loss method of accounting for a qualified business unit of a taxpayer having a different functional currency from the taxpayer. [Reserved]

§ 1.987–2 Accounting for gain or loss on certain transfers of property. [Reserved]

§ 1.987–3 Termination. [Reserved]

§ 1.987–4 Special rules relating to QBU branches of foreign taxpayers. [Reserved]

§ 1.987–5 Transition rules for certain qualified business units using a profit and loss method of accounting for taxable years beginning before January 1, 1987.

(a) *Applicability*—(1) *In general.* This section applies to qualified business unit (QBU) branches of United States persons, whose functional currency (as defined in section 985 of the Code and the regulations thereunder) is other than the United States dollar (dollar) and that used a profit and loss method of accounting for their last taxable year beginning before January 1, 1987. Generally, a profit and loss method of accounting is any method of accounting under which the taxpayer calculates the profits of a QBU branch in its functional currency and translates the net result into dollars. For all taxable years beginning after December 31, 1986, such QBU branches must use the profit and loss method of accounting as described in section 987, except to the extent otherwise provided in regulations under section 985 or any other provision of the Code. See §1.989(c)–1 regarding transition rules for QBU branches of United States persons that have a nondollar functional currency and that used a net worth method of accounting for their last taxable year beginning before January 1, 1987.

(2) *Insolvent QBU branches.* A taxpayer may apply the principles of this section to a QBU branch that used a profit and loss method of accounting for its last taxable year beginning before January 1, 1987, whose $E pool (as defined in paragraph (d)(3)(i) of this section) is negative. For taxable years beginning on or after October 25, 1991, the principles of this section shall apply to insolvent QBU branches.

(b) *General rules.* Generally, section 987 gain or loss occurs when a QBU branch makes a remittance. A remittance is considered to be made from one or more functional currency pools under rules provided in paragraph (c) of this section. In general, the amount of section 987 gain or loss from a remittance equals the difference between the dollar value of the functional currency adjusted basis of the property remitted and the portion of the dollar basis in the applicable pool. Section 987 gain or loss is calculated under a 4-step procedure described in paragraph (d) of this section. Section 987 gain or loss attributable to a remittance is realized and must be recognized in the taxable year of the remittance except to the extent otherwise provided in regulations.

(c) *Determining the pool(s) from which a remittance is made*—(1) *Remittances made during taxable years beginning after December 31, 1986, and before October 25, 1991.* A remittance made during taxable years beginning after December 31, 1986 and before October 25, 1991, first represents an amount of the QBU branch's post-86 profits pool (including functional currency profits for the current taxable year determined without regard to remittances made during the
