except as provided in subparagraph (4) of this paragraph. The adjustments so required, which are set forth in paragraphs (b) and (c) of this section, shall not be used in determining the adjusted basis of property for taxable years beginning before the changeover date or on or after the taxpayer’s 1956 adjustment date.

(2) In order to arrive at the adjusted basis as of any specific date occurring on or after the changeover date and before the 1956 adjustment date, the taxpayer shall start with the unadjusted basis of all retirement-straight line property held on the changeover date by the taxpayer or its predecessor and shall, as of that specific date and with respect to both the asset and reserve accounts, (i) make the adjustments prescribed by this section and subsection (e) of the Act and (ii) also make those adjustments required, in accordance with the method of accounting regularly used, for additions, retirements, and other dispositions of property. For an illustration of adjustments required in accordance with the method of accounting regularly used, see the example in paragraph (d) of this section.

(4) Although this section, and subsection (e) of the Act, shall apply in determining the excess-profits tax, they shall not apply in determining adjusted basis for the purpose of computing equity capital for any day under section 437(c) (relating to the Excess Profits Tax Act of 1950) (64 Stat. 1137) of the Internal Revenue Code of 1939. For the adjustments to be made in computing equity capital under such section, see paragraph (c) of §1.9001-4.

(b) Adjustment for terms-letter reserve. Pursuant to subsection (e)(1) of the Act, the basis of any retirement-straight line property shall be adjusted, as of any specific applicable date occurring on or after the changeover date and before the 1956 adjustment date, for the amount of the terms-letter reserve applicable to such property.

(c) Adjustment for depreciation allowable under the terms-letter. Pursuant to subsection (e)(2) of the Act, the basis of any retirement-straight line property shall be adjusted, as of any specific applicable date occurring on or after the changeover date and before the 1956 adjustment date, for depreciation applicable to such property and allowable under the terms-letter.

(d) Illustration of basis adjustments required for taxable years beginning on or after the changeover date and before the 1956 adjustment date. The application of this section may be illustrated by the following example, which is based upon the assumption that multiple asset accounts are used:

Example. (1) The facts are assumed to be the same as those in the example under paragraph (e) of §1.9001-2, except that the adjusted basis of retirement-straight line property is determined as of January 1, 1955, and the depreciation allowable under the terms-letter from the changeover date to December 31, 1954, is $2,100.

(2) The adjusted basis on January 1, 1955, of the retirement-straight line property held by the taxpayer on that date is $4,195, determined as follows and in accordance with this section:

(i) Asset account:
