

871(c) or section 882(a), Internal Revenue Code of 1954, if such alien, corporation, or other entity has engaged in trade or business in the United States at any time during the taxable year, even though it has not had a permanent establishment therein at any time within such year.

(b) *No United States permanent establishment.* A Swiss enterprise is not subject to United States tax upon its industrial and commercial profits from sources within the United States, nor shall such profits be included in gross income, if it has not at any time during the taxable year engaged in trade or business in the United States through a permanent establishment situated therein. For example, if during the taxable year an enterprise carried on in Switzerland by a nonresident alien individual who is a resident of Switzerland, or by a Swiss corporation, were to sell merchandise, such as watches, dairy products, or liqueurs, in the United States through a commission agent or broker in the United States acting in the ordinary course of his business as such agent or broker, the profits arising from such sale would not be included in gross income and would be exempt from United States tax under Article III of the convention. Similarly, if during the taxable year such enterprise were to secure orders in the United States for such merchandise through its sales agents whose sole function in the United States is sales promotion, the orders being transmitted to Switzerland for acceptance, then the profits arising from such sales would not be included in gross income and would be exempt from United States tax.

(c) *United States permanent establishment—(1) General.* A Swiss enterprise is subject to United States tax upon its industrial and commercial profits from sources within the United States to the same extent as are nonresident aliens or foreign corporations which are subject to tax pursuant to section 871(c) or section 882(a), Internal Revenue Code of 1954, if such enterprise has at any time during the taxable year engaged in trade or business in the United States through a permanent establishment situated therein. If it is so engaged, it is subject to United States

tax upon its entire income from sources within the United States except to the extent otherwise exempt from United States tax.

(2) *Allocation of profits.* In the determination of the income taxable to such enterprise for purposes of the United States tax, all industrial and commercial profits from sources within the United States shall be deemed to be allocable to the permanent establishment in the United States. Hence, if a Swiss enterprise which has a permanent establishment in the United States at some time during the taxable year were to sell in the United States, through a commission agent therein acting in the ordinary course of his business as such, merchandise which has been produced in Switzerland, the profits arising from such sale would be allocable to the permanent establishment to the extent they are derived from sources within the United States, even though the sale is made independently of the permanent establishment.

(3) *Independent basis.* The industrial and commercial profits of the permanent establishment in the United States shall be determined as if the establishment were an independent enterprise engaged in the same or similar activities under the same or similar conditions and dealing at arm's length, or on an independent basis, with the enterprise of which it is a permanent establishment.

**§ 509.106 Control of a United States enterprise by a Swiss enterprise.**

In effect, Article IV of the convention provides that, if a Swiss enterprise by reason of its control of a United States enterprise imposes on the latter enterprise conditions different from those which would result from normal business relations between independent enterprises, the accounts between the enterprises shall be adjusted in order to ascertain the true taxable income of each enterprise. The purpose is to place the controlled United States enterprise on a tax parity with an uncontrolled United States enterprise by determining, according to the standard of an uncontrolled enterprise, the true taxable income from the property and business of the controlled enterprise. The basic objective of the article is

that, if the accounting records do not truly reflect the taxable income from the property and business of the United States enterprise, the Commissioner shall intervene and, by making such distributions, apportionments, or allocations as he may deem necessary of gross income, deductions, credits, or allowances, or of any item or element affecting taxable income, between the United States enterprise and the Swiss enterprise by which it is controlled or directed, shall determine the true taxable income of the United States enterprise. The provisions of section 482 of the Internal Revenue Code of 1954, and the regulations thereunder, shall, insofar as applicable, be followed in the determination of the taxable income of the United States enterprise.

**§ 509.107 Income from operation of ships or aircraft.**

Under Article V of the convention so much of the income from sources within the United States of a Swiss enterprise as consists of earnings derived from the operation of ships or aircraft documented or registered in Switzerland shall not be included in gross income and shall be exempt from United States tax, even though at some time during the taxable year such enterprise has engaged in trade or business in the United States through a permanent establishment situated therein.

**§ 509.108 Dividends.**

(a) *General.* (1) The rate of United States tax imposed by the Internal Revenue Code of 1954 upon dividends derived from sources within the United States by a nonresident alien individual who is a resident of Switzerland, or by a Swiss corporation or other entity, shall not exceed 15 percent under the provisions of Article VI of the convention, if such alien, corporation, or other entity at no time during the taxable year in which such dividends are derived has a permanent establishment in the United States.

(2) If, for example, a nonresident alien individual who is a resident of Switzerland performs personal services within the United States during the taxable year, but has at no time during such year a permanent establishment within the United States, he is entitled

to the reduced rate of tax with respect to dividends derived in that year from United States sources, as provided in Article VI of the convention, even though under the provisions of section 871(c) of the Internal Revenue Code of 1954 he has engaged in trade or business within the United States during such year by reason of his having performed personal services therein.

(b) *Dividends paid by related corporation.* The rate of United States tax imposed by the Internal Revenue Code of 1954 upon dividends derived from sources within the United States by a Swiss corporation shall not exceed 5 percent under the provisions of Article VI (2) of the convention if:

(1) The Swiss corporation is a shareholder which controls, directly or indirectly, at the time the dividend is paid 95 percent or more of the entire voting power in the corporation paying the dividend;

(2) Not more than 25 percent of the gross income of the paying corporation for the three-year period immediately preceding the taxable year in which the dividend is paid consists of dividends and interest (other than dividends and interest received by such paying corporation from its own subsidiary corporations, if any);

(3) The relationship between the paying corporation and the Swiss corporation has not been arranged or maintained primarily with the intention of securing the reduced rate of 5 percent; and

(4) The Swiss corporation at no time during the taxable year in which such dividends are derived has a permanent establishment in the United States.

**§ 509.109 Interest.**

The rate of United States tax imposed by the Internal Revenue Code of 1954 upon interest on bonds, securities, notes, debentures, or on any other form of indebtedness, including interest on obligations of the United States, obligations of instrumentalities of the United States, and mortgages and bonds secured by real property, which is derived from sources within the United States by a nonresident alien individual who is a resident of Switzerland, or by a Swiss corporation or other entity, shall not exceed 5 percent
