States income tax attaches to such profits if such enterprise, through its sales agents in the United States, secures orders for its products, the sales being made in Denmark.

(c) United States permanent establishment. A nonresident alien (including a nonresident alien individual, fiduciary and partnership), who is a resident of Denmark, or a Danish corporation, whether or not carrying on a Danish enterprise, having a permanent establishment in the United States, is subject to tax upon industrial or commercial profits from sources within the United States to the same extent as are nonresident aliens and foreign corporations engaged in trade or business therein. In the determination of the income taxable to such alien or foreign corporation all industrial and commercial profits from sources within the United States shall be deemed to be allocable to the permanent establishment in the United States. Hence, for example, if a Danish enterprise having a permanent establishment in the United States sells in the United States, through a commission agent therein goods produced in Denmark, the resulting profits derived from United States sources from such transactions are allocable to such permanent establishment even though such transactions were carried on independently of such establishment. In determining industrial and commercial profits no account shall be taken of the mere purchase of merchandise within the United States by the Danish enterprise. The industrial or commercial profits of the permanent establishment shall be determined as if the establishment were an independent enterprise engaged in the same or similar activities and dealing at arm’s length with the enterprise of which it is a permanent establishment.

§ 521.106 Control of a domestic enterprise by a Danish enterprise.

Article IV of the convention provides, in effect, that if a Danish corporation by reason of its control of a domestic enterprise imposes on such later enterprise conditions different from those which would result from normal business relations between independent enterprises, the accounts between the enterprises may be adjusted so as to ascertain the true net income of each enterprise. The purpose is to place the controlled domestic enterprise on a tax parity with an uncontrolled domestic enterprise by determining, according to the standard of an uncontrolled enterprise, the true net income from the property and business of the controlled enterprise. The basic objective of the article is that if the accounting records do not truly reflect the net income from the property and business of such domestic enterprise and the Danish enterprise by which it is controlled or directed, determine the true net income of the domestic enterprise. The provisions of §29.45–1 of Regulations 111 (26 CFR 1949 ed. Supps. 29.45–1) [and §39.45–1 of Regulations 118 (26 CFR, Rev. 1953, Parts 1–79, and Supps.)] shall, insofar as applicable, be followed in the determination of the net income of the domestic business.

§ 521.107 Income from operation of ships or aircraft.

The income derived from the operation of ships or aircraft registered in Denmark by a nonresident alien who is a resident of Denmark, or by a Danish corporation, and carrying on an enterprise in Denmark, is, for taxable years beginning on or after January 1, 1948, exempt from United States income tax under the provisions of Article V of the convention.

§ 521.108 Exemption from, or reduction in rate of, United States tax in the case of dividends, interest and royalties.

(a) Dividends—(1) General. The tax imposed by the Internal Revenue Code in the case of dividends received from sources within the United States by (i) a nonresident alien (including a nonresident alien individual, fiduciary and partnership) who is a resident of Denmark, or (ii) a Danish corporation is, for taxable years beginning on and
