

or incurred by him in any taxable year beginning after December 31, 1962, in the clearing of land. The expenditures to which the election applies are all expenditures paid or incurred during the taxable year in clearing land for the purpose of making the "land suitable for use in farming" (as defined in § 1.182-4) which are not otherwise deductible (exclusive of expenditures for or in connection with depreciable items referred to in paragraph (b)(1) of § 1.182-3), but only if such expenditures are made in furtherance of the taxpayer's business of farming. The term *expenditures* to which the election applies also includes a reasonable allowance for depreciation (not otherwise allowable) on equipment used in the clearing of land provided such equipment, if used in the carrying on of a trade or business, would be subject to the allowance for depreciation under section 167. (See paragraph (c) of § 1.182-3.) (See section 175 and the regulations thereunder for deductibility of certain expenditures for treatment or moving of earth by a farmer where the land already qualifies as land used in farming as defined in § 1.175-4.) The amount deductible for any taxable year is limited to the lesser of \$5,000 or 25 percent of the taxable income derived from farming (as defined in paragraph (a)(2) of § 1.182-5) during the taxable year. Expenditures paid or incurred in a taxable year in excess of the amount deductible under section 182 for such taxable year shall be treated as capital expenditures and shall constitute an adjustment to the basis of the land under section 1016(a).

[T.D. 6794, 30 FR 790, Jan. 26, 1965]

**§ 1.182-2 Definition of "the business of farming."**

Under section 182, the election to deduct expenditures incurred in the clearing of land is applicable only to a taxpayer who is engaged in "the business of farming" during the taxable year. A taxpayer is engaged in the business of farming if he cultivates, operates, or manages a farm for gain or profit, either as owner or tenant. For purposes of section 182, a taxpayer who receives a rental (either in cash or in kind) which is based upon farm production is engaged in the business of farm-

ing. However, a taxpayer who receives a fixed rental (without reference to production) is engaged in the business of farming only if he participates to a material extent in the operation or management of the farm. A taxpayer engaged in forestry or the growing of timber is not thereby engaged in the business of farming. A person cultivating or operating a farm for recreation or pleasure rather than for profit is not engaged in the business of farming. For purposes of section 182 and this section, the term *farm* is used in its ordinary, accepted sense and includes stock, dairy, poultry, fish, fruit, and truck farms, and also plantations, ranches, ranges, and orchards. A fish farm is an area where fish are grown or raised, as opposed to merely caught or harvested; that is, an area where they are artificially fed, protected, cared for, etc. A taxpayer is engaged in "the business of farming" if he is a member of a partnership engaged in the business of farming. See § 1.702-1.

[T.D. 6794, 30 FR 790, Jan. 26, 1965]

**§ 1.182-3 Definition, exceptions, etc., relating to deductible expenditures.**

(a) *Clearing of land.* (1) For purposes of section 182, the term *clearing of land* includes (but is not limited to):

(i) The removal of rocks, stones, trees, stumps, brush or other natural impediments to the use of the land in farming through blasting, cutting, burning, bulldozing, plowing, or in any other way;

(ii) The treatment or moving of earth, including the construction, repair or removal of nondepreciable earthen structures, such as dikes or levies, if the purpose of such treatment or moving of earth is to protect, level, contour, terrace, or condition the land so as to permit its use as farming land; and

(iii) The diversion of streams and watercourses, including the construction of nondepreciable drainage facilities, provided that the purpose is to remove or divert water from the land so as to make it available for use in farming.

(2) The following are examples of land clearing activities:

(i) The cutting of trees, the blasting of the resulting stumps, and the burning of the residual undergrowth;

(ii) The leveling of land so as to permit irrigation or planting;

(iii) The removal of salt or other minerals which might inhibit cultivation of the soil;

(iv) The draining and filling in of a swamp or marsh; and

(v) The diversion of a stream from one watercourse to another.

(b) *Expenditures not allowed as a deduction under section 182.* (1) Section 182 applies only to expenditures for non-depreciable items. Accordingly, a taxpayer may not deduct expenditures for the purchase, construction, installation, or improvement of structures, appliances, or facilities which are of a character which is subject to the allowance for depreciation under section 167 and the regulations thereunder. Expenditures in respect of such depreciable property include those for materials, supplies, wages, fuel, freight, and the moving of earth, paid or incurred with respect to tanks, reservoirs, pipes, conduits, canals, dams, wells, or pumps constructed of masonry, concrete, tile, metal, wood, or other nonearthen material.

(2) Expenditures which are deductible without regard to section 182 are not deductible under section 182. Thus, such expenditures are deductible without being subject to the limitations imposed by section 182(b) and §1.182-5. For example, section 182 does not apply to the ordinary and necessary expenses incurred in the business of farming which are deductible under section 162 even though they might otherwise be considered to be clearing of land expenditures. Section 182 also does not apply to interest (deductible under section 163) nor to taxes (deductible under section 164). Similarly, section 182 does not apply to any expenditures (whether or not currently deductible) paid or incurred for the purpose of soil or water conservation in respect of land used in farming, or for the prevention of erosion of land used in farming, within the meaning of section 175 and the regulations thereunder, nor to expenditures deductible under section 180 and the regulations thereunder, relating to expenditures for fertilizer, etc.

(c) *Depreciation.* In addition to expenditures for the activities described in paragraph (a) of this section, there

also shall be treated as an expenditure to which section 182 applies a reasonable allowance for depreciation not otherwise deductible on property of the taxpayer which is used in the clearing of land for the purpose of making such land suitable for use in farming, provided the property is property which, if used in a trade or business, would be subject to the allowance for depreciation under section 167. Depreciation allowable as a deduction under section 182 is limited to the portion of depreciation which is attributable to the use of the property in the clearing of land. The depreciation shall be computed in accordance with section 167 and the regulations thereunder. To the extent an amount representing a reasonable allowance for depreciation with respect to property used in clearing land is treated as an expenditure to which section 182 applies, such depreciation shall, for purposes of chapter 1 of the Code, be treated as an amount allowed under section 167 for depreciation. Thus, if a deduction is allowed for depreciation under section 182 in respect of property used in clearing land, proper adjustment to the basis of the property so used shall be made under section 1016(a).

[T.D. 6794, 30 FR 791, Jan. 26, 1965]

**§ 1.182-4 Definition of "land suitable for use in farming", etc.**

For purposes of section 182, the term *land suitable for use in farming* means land which, as a result of the land clearing activities described in paragraph (a) of §1.182-3, could be used by the taxpayer or his tenant for the production of crops, fruits, or other agricultural products, including fish, or for the sustenance of livestock. The term *livestock* includes cattle, hogs, horses, mules, donkeys, sheep, goats, captive fur-bearing animals, chickens, turkeys, pigeons, and other poultry. Land used for the sustenance of livestock includes land used for grazing such livestock. Expenditures are considered to be for the purpose of making land suitable for use in farming by the taxpayer or his tenant only if made to prepare the land which is cleared for use by the taxpayer or his tenant in farming. Thus, if the taxpayer pays or incurs expenditures to clear land for the purpose of
