

payable on the loan, including the capitalized interest, is original issue discount. See section 1273 and the regulations thereunder. Therefore, in determining the total amount of interest paid on the loan each taxable year, Student K may deduct any payments that § 1.1275-2(a) treats as payments of interest, including any principal payments that are treated as payments of capitalized interest. See paragraph (f)(3) of this section.

Example 2. Allocation of payments. The facts are the same as in *Example 1*, except that, in addition, the lender charges Student K a loan origination fee, which is not for any property or services provided by the lender. Under § 1.1273-2(g), the loan origination fee reduces the issue price of the loan, which reduction increases the amount of original issue discount on the loan by the amount of the fee. The amount of original issue discount (which includes the capitalized interest and loan origination fee) that accrues each year is determined under section 1272 and § 1.1272-1. In effect, the loan origination fee accrues over the entire term of the loan. Because the loan has original issue discount, the payment ordering rules in § 1.1275-2(a) must be used to determine how much of each payment is interest for federal tax purposes. See paragraph (f)(3) of this section. Under § 1.1275-2(a), each payment (regardless of its designation by the parties as either interest or principal) generally is treated first as a payment of original issue discount, to the extent of the original issue discount that has accrued as of the date the payment is due and has not been allocated to prior payments, and second as a payment of principal. Therefore, in determining the total amount of interest paid on the qualified education loan for a taxable year, Student K may deduct any payments that the parties label as principal but that are treated as payments of original issue discount under § 1.1275-2(a).

(g) *Additional Rules—(1) Payment of interest made during period when interest payment not required.* Payments of interest on a qualified education loan to which this section is applicable are deductible even if the payments are made during a period when interest payments are not required because, for example, the loan has not yet entered repayment status or is in a period of deferment or forbearance.

(2) *Denial of double benefit.* No deduction is allowed under this section for any amount for which a deduction is allowable under another provision of Chapter 1 of the Internal Revenue Code. No deduction is allowed under this section for any amount for which an exclusion is allowable under section

108(f) (relating to cancellation of indebtedness).

(3) *Examples.* The following examples illustrate the rules of this paragraph (g). In the examples, assume that the institution the student attends is an eligible educational institution, the loan is a qualified education loan, and the student is legally obligated to make interest payments under the terms of the loan:

Example 1. Voluntary payment of interest before loan has entered repayment status. Student L obtains a loan to attend college. The terms of the loan provide that interest accrues on the loan while Student L earns his undergraduate degree but that Student L is not required to begin making payments of interest until six full calendar months after he graduates or otherwise leaves school. Nevertheless, Student L voluntarily pays interest on the loan during 2003, while enrolled in college. Assuming all other relevant requirements are met, Student L is allowed a deduction for interest paid while attending college even though the payments were made before interest payments were required.

Example 2. Voluntary payment during period of deferment or forbearance. The facts are the same as in *Example 2*, except that Student L makes no payments on the loan while enrolled in college. Student L graduates in June 2003 and begins making monthly payments of principal and interest on the loan in January 2004, as required by the terms of the loan. In August 2004, Student L enrolls in graduate school on a full-time basis. Under the terms of the loan, Student L may apply for deferment of the loan payments while Student L is enrolled in graduate school. Student L applies for and receives a deferment on the outstanding loan. However, Student L continues to make some monthly payments of interest during graduate school. Student L may deduct interest paid on the loan during the period beginning in January 2004, including interest paid while Student L is enrolled in graduate school.

(h) *Effective date.* This section is applicable to periods governed by section 221 as amended in 2001, which relates to interest paid on a qualified education loan after December 31, 2001, in taxable years ending after December 31, 2001, and on or before December 31, 2010.

[T.D. 9125, 69 FR 25492, May 7, 2004]

§ 1.221-2 Deduction for interest due and paid on qualified education loans before January 1, 2002.

(a) *In general.* Under section 221, an individual taxpayer may deduct from

gross income certain interest due and paid by the taxpayer during the taxable year on a qualified education loan. The deduction is allowed only with respect to interest due and paid on a qualified education loan during the first 60 months that interest payments are required under the terms of the loan. See paragraph (e) of this section for rules relating to the 60-month rule. See paragraph (b)(4) of this section for rules on payments of interest by third parties. The rules of this section are applicable to interest due and paid on qualified education loans after January 21, 1999, if paid before January 1, 2002. Taxpayers also may apply the rules of this section to interest due and paid on qualified education loans after December 31, 1997, but before January 21, 1999. To the extent that the effective date limitation (“sunset”) of the 2001 amendment remains in force unchanged, section 221 before amendment in 2001, to which this section relates, also applies to interest due and paid on qualified education loans in taxable years beginning after December 31, 2010. For rules applicable to periods governed by section 221 as amended in 2001, which relates to deductions for interest paid on qualified education loans after December 31, 2001, in taxable years ending after December 31, 2001, and before January 1, 2011, see §1.221-1.

(b) *Eligibility*—(1) *Taxpayer must have a legal obligation to make interest payments.* A taxpayer is entitled to a deduction under section 221 only if the taxpayer has a legal obligation to make interest payments under the terms of the qualified education loan.

(2) *Claimed dependents not eligible*—(i) *In general.* An individual is not entitled to a deduction under section 221 for a taxable year if the individual is a dependent (as defined in section 152) for whom another taxpayer is allowed a deduction under section 151 on a Federal income tax return for the same taxable year (or, in the case of a fiscal year taxpayer, the taxable year beginning in the same calendar year as the individual’s taxable year).

(ii) *Examples.* The following examples illustrate the rules of this paragraph (b)(2):

Example 1. Student not claimed as dependent. Student A pays \$750 of interest on qualified

education loans during 1998. Student A’s parents are not allowed a deduction for her as a dependent for 1998. Assuming fulfillment of all other relevant requirements, Student A may deduct the \$750 of interest paid in 1998 under section 221.

Example 2. Student claimed as dependent. Student B pays \$750 of interest on qualified education loans during 1998. Only Student B has the legal obligation to make the payments. Student B’s parent claims him as a dependent and is allowed a deduction under section 151 with respect to Student B in computing the parent’s 1998 Federal income tax. Student B may not deduct the \$750 of interest paid in 1998 under section 221. Because Student B’s parent was not legally obligated to make the payments, Student B’s parent also may not deduct the interest.

(3) *Married taxpayers.* If a taxpayer is married as of the close of a taxable year, he or she is entitled to a deduction under this section only if the taxpayer and the taxpayer’s spouse file a joint return for that taxable year.

(4) *Payments of interest by a third party*—(i) *In general.* If a third party who is not legally obligated to make a payment of interest on a qualified education loan makes a payment of interest on behalf of a taxpayer who is legally obligated to make the payment, then the taxpayer is treated as receiving the payment from the third party and, in turn, paying the interest.

(ii) *Examples.* The following examples illustrate the rules of this paragraph (b)(4):

Example 1. Payment by employer. Student C obtains a qualified education loan to attend college. Upon Student C’s graduation from college, Student C works as an intern for a non-profit organization during which time Student C’s loan is in deferment and Student C makes no interest payments. As part of the internship program, the non-profit organization makes an interest payment on behalf of Student C after the deferment period. This payment is not excluded from Student C’s income under section 108(f) and is treated as additional compensation includible in Student C’s gross income. Assuming fulfillment of all other requirements of section 221, Student C may deduct this payment of interest for Federal income tax purposes.

Example 2. Payment by parent. Student D obtains a qualified education loan to attend college. Upon graduation from college, Student D makes legally required monthly payments of principal and interest. Student D’s mother makes a required monthly payment

§ 1.221-2

of interest as a gift to Student D. A deduction for Student D as a dependent is not allowed on another taxpayer's tax return for that taxable year. Assuming fulfillment of all other requirements of section 221, Student D may deduct this payment of interest for Federal income tax purposes.

(c) *Maximum deduction.* In any taxable year beginning before January 1, 2002, the amount allowed as a deduction under section 221 may not exceed the amount determined in accordance with the following table:

Taxable year beginning in	Maximum deduction
1998	\$1,000
1999	1,500
2000	2,000
2001	2,500

(d) *Limitation based on modified adjusted gross income—(1) In general.* The deduction allowed under section 221 is phased out ratably for taxpayers with modified adjusted gross income between \$40,000 and \$55,000 (\$60,000 and \$75,000 for married individuals who file a joint return). Section 221 does not allow a deduction for taxpayers with modified adjusted gross income of \$55,000 or above (\$75,000 or above for married individuals who file a joint return).

(2) *Modified adjusted gross income defined.* The term *modified adjusted gross income* means the adjusted gross income (as defined in section 62) of the taxpayer for the taxable year increased by any amount excluded from gross income under section 911, 931, or 933 (relating to income earned abroad or from certain United States possessions or Puerto Rico). Modified adjusted gross income must be determined under this section after taking into account the inclusions, exclusions, deductions, and limitations provided by sections 86 (social security and tier 1 railroad retirement benefits), 135 (redemption of qualified United States savings bonds), 137 (adoption assistance programs), 219 (deductible qualified retirement contributions), and 469 (limitation on passive activity losses and credits), but before taking into account the deduction provided by section 221.

(e) *60-month rule—(1) In general.* A deduction for interest paid on a qualified education loan is allowed only for payments made during the first 60 months

that interest payments are required on the loan. The 60-month period begins on the first day of the month that includes the date on which interest payments are first required and ends 60 months later, unless the 60-month period is suspended for periods of deferment or forbearance within the meaning of paragraph (e)(3) of this section. The 60-month period continues to run regardless of whether the required interest payments are actually made. The date on which the first interest payment is required is determined under the terms of the loan agreement or, in the case of a loan issued or guaranteed under a federal postsecondary education loan program (such as loan programs under Title IV of the Higher Education Act of 1965 (20 U.S.C. 1070) and Titles VII and VIII of the Public Health Service Act (42 U.S.C. 292., and 42 U.S.C. 296)) under applicable Federal regulations. For a discussion of interest, see paragraph (h) of this section. For special rules relating to loan refinancings, consolidated loans, and collapsed loans, see paragraph (i) of this section.

(2) *Loans that entered repayment status prior to January 1, 1998.* In the case of any qualified education loan that entered repayment status prior to January 1, 1998, section 221 allows no deduction for interest paid during the portion of the 60-month period described in paragraph (e)(1) of this section that occurred prior to January 1, 1998. Section 221 allows a deduction only for interest due and paid during that portion, if any, of the 60-month period remaining after December 31, 1997.

(3) *Periods of deferment or forbearance.* The 60-month period described in paragraph (e)(1) of this section generally is suspended for any period when interest payments are not required on a qualified education loan because the lender has granted the taxpayer a period of deferment or forbearance (including postponement in anticipation of cancellation). However, in the case of a qualified education loan that is not issued or guaranteed under a Federal postsecondary education loan program, the 60-month period will be suspended under this paragraph (e)(3) only if the promissory note contains conditions substantially similar to the conditions

for deferment or forbearance established by the U.S. Department of Education for Federal student loan programs under Title IV of the Higher Education Act of 1965, such as half-time study at a postsecondary educational institution, study in an approved graduate fellowship program or in an approved rehabilitation program for the disabled, inability to find full-time employment, economic hardship, or the performance of services in certain occupations or federal programs, and the borrower satisfies one of those conditions. For any qualified education loan, the 60-month period is not suspended if under the terms of the loan interest continues to accrue while the loan is in deferment or forbearance and either—

(i) In the case of deferment, the taxpayer agrees to pay interest currently during the deferment period; or

(ii) In the case of forbearance, the taxpayer agrees to make reduced payments, or payments of interest only, during the forbearance period.

(4) *Late payments.* A deduction is allowed for a payment of interest required in one month but actually made in a subsequent month prior to the expiration of the 60-month period. A deduction is not allowed for a payment of interest required in one month but actually made in a subsequent month after the expiration of the 60-month period. A late payment made during a period of deferment or forbearance is treated, solely for purposes of determining whether it is made during the 60-month period, as made on the date it is due.

(5) *Examples.* The following examples illustrate the rules of this paragraph (e). In the examples, assume that the institution the student attends is an eligible educational institution, the loan is a qualified education loan and is issued or guaranteed under a federal postsecondary education loan program, the student is legally obligated to make interest payments under the terms of the loan, the interest payments occur after December 31, 1997, but before January 1, 2002, and with respect to any period after December 31, 1997, but before January 21, 1999, the taxpayer elects to apply the rules of

this section. The examples are as follows:

Example 1. Payment prior to 60-month period. Student E obtains a loan to attend college. The terms of the loan provide that interest accrues on the loan while Student E earns his undergraduate degree but that Student E is not required to begin making payments of interest until six full calendar months after he graduates. Nevertheless, Student E voluntarily pays interest on the loan while attending college. Student E is not allowed a deduction for interest paid during that period, because those payments were made prior to the start of the 60-month period. Similarly, Student E would not be allowed a deduction for any interest paid during the six month grace period after graduation when interest payments are not required.

Example 2. Deferment option not exercised. The facts are the same as in *Example 1* except that Student E makes no payments on the loan while enrolled in college. Student E graduates in June 1999, and is required to begin making monthly payments of principal and interest on the loan in January 2000. The 60-month period described in paragraph (e)(1) of this section begins in January 2000. In August 2000, Student E enrolls in graduate school on a full-time basis. Under the terms of the loan, Student E may apply for deferment of the loan payments while enrolled in graduate school. However, Student E elects not to apply for deferment and continues to make required monthly payments on the loan during graduate school. Assuming fulfillment of all other relevant requirements, Student E may deduct interest paid on the loan during the 60-month period beginning in January 2000, including interest paid while enrolled in graduate school.

Example 3. Late payment, within 60-month period. The facts are the same as in *Example 2* except that, after the loan enters repayment status in January 2000, Student E makes no interest payments until March 2000. In March 2000, Student E pays interest required for the months of January, February, and March 2000. Assuming fulfillment of all other relevant requirements, Student E may deduct the interest paid in March for the months of January, February, and March because the interest payments are required under the terms of the loan and are paid within the 60-month period, even though the January and February interest payments may be late.

Example 4. Late payment during deferment but within 60-month period. The terms of Student F's loan require her to begin making monthly payments of interest on the loan in January 2000. The 60-month period described in paragraph (e)(1) of this section begins in January 2000. Student F fails to make the required interest payments for the months of November and December 2000. In January

2001, Student F enrolls in graduate school on a half-time basis. Under the terms of the loan, Student F obtains a deferment of the loan payments due while enrolled in graduate school. The deferment becomes effective January 1, 2001. In March 2001, while the loan is in deferment, Student F pays the interest due for the months of November and December 2000. Assuming fulfillment of all other relevant requirements, Student F may deduct interest paid in March 2001, for the months of November and December 2000, because the late interest payments are treated, solely for purposes of determining whether they were made during the 60-month period, as made in November and December 2000.

Example 5. 60-month period. The terms of Student G's loan require him to begin making monthly payments of interest on the loan in November 1999. The 60-month period described in paragraph (e)(1) of this section begins in November 1999. In January 2000, Student G enrolls in graduate school on a half-time basis. As permitted under the terms of the loan, Student G applies for deferment of the loan payments due while enrolled in graduate school. While awaiting formal approval from the lender of his request for deferment, Student G pays interest due for the month of January 2000. In February 2000, the lender approves Student G's request for deferment, effective as of January 1, 2000. Assuming fulfillment of all other relevant requirements, Student G may deduct interest paid in January 2000, prior to his receipt of the lender's approval, even though the deferment was retroactive to January 1, 2000. As of February 2000, there are 57 months remaining in the 60-month period for that loan. Because Student G is not required to make interest payments during the period of deferment, the 60-month period is suspended. After January 2000, Student G may not deduct any voluntary payments of interest made during the period of deferment.

Example 6. 60-month period. The terms of Student H's loan require her to begin making monthly payments of interest on the loan in November 1999. The 60-month period described in paragraph (e)(1) of this section begins in November 1999. In January 2000, Student H enrolls in graduate school on a half-time basis. As permitted under the terms of the loan, Student H applies to make reduced payments of principal and interest while enrolled in graduate school. After the lender approves her application, Student H pays principal and interest due for the month of January 2000 at the reduced rate. Assuming fulfillment of all other relevant requirements, Student H may deduct interest paid in January 2000. As of February 2000, there are 57 months remaining in the 60-month period for that loan.

Example 7. Reduction of 60-month period for months prior to January 1, 1998. The first pay-

ment of interest on a loan is due in January 1997. Thereafter, interest payments are required on a monthly basis. The 60-month period described in paragraph (e)(1) of this section for this loan begins on January 1, 1997, the first day of the month that includes the date on which the first interest payment is required. However, the borrower may not deduct interest paid prior to January 1, 1998, under the effective date provisions of section 221. Assuming fulfillment of all other relevant requirements, the borrower may deduct interest due and paid on the loan during the 48 months beginning on January 1, 1998 (unless such period is extended for periods of deferment or forbearance under paragraph (e)(3) of this section).

(f) *Definitions*—(1) *Eligible educational institution.* In general, an *eligible educational institution* means any college, university, vocational school, or other post-secondary educational institution described in section 481 of the Higher Education Act of 1965, 20 U.S.C. 1088, as in effect on August 5, 1997, and certified by the U.S. Department of Education as eligible to participate in student aid programs administered by the Department, as described in section 25A(f)(2) and § 1.25A-2(b). For purposes of this section, an eligible educational institution also includes an institution that conducts an internship or residency program leading to a degree or certificate awarded by an institution, a hospital, or a health care facility that offers postgraduate training.

(2) *Qualified higher education expenses*—(i) *In general.* *Qualified higher education expenses* means the cost of attendance (as defined in section 472 of the Higher Education Act of 1965, 20 U.S.C. 108711, as in effect on August 4, 1997), at an eligible educational institution, reduced by the amounts described in paragraph (f)(2)(ii) of this section. Consistent with section 472 of the Higher Education Act of 1965, a student's cost of attendance is determined by the eligible educational institution and includes tuition and fees normally assessed a student carrying the same academic workload as the student, an allowance for room and board, and an allowance for books, supplies, transportation, and miscellaneous expenses of the student.

(ii) *Reductions.* Qualified higher education expenses are reduced by any amount that is paid to or on behalf of

a student with respect to such expenses and that is—

(A) A qualified scholarship that is excludable from income under section 117;

(B) An educational assistance allowance for a veteran or member of the armed forces under chapter 30, 31, 32, 34 or 35 of title 38, United States Code, or under chapter 1606 of title 10, United States Code;

(C) Employer-provided educational assistance that is excludable from income under section 127;

(D) Any other amount that is described in section 25A(g)(2)(C) (relating to amounts excludable from gross income as educational assistance);

(E) Any otherwise includible amount excluded from gross income under section 135 (relating to the redemption of United States savings bonds); or

(F) Any otherwise includible amount distributed from a Coverdell education savings account and excluded from gross income under section 530(d)(2).

(3) *Qualified education loan*—(i) *In general.* A *qualified education loan* means indebtedness incurred by a taxpayer solely to pay qualified higher education expenses that are—

(A) Incurred on behalf of a student who is the taxpayer, the taxpayer's spouse, or a dependent (as defined in section 152) of the taxpayer at the time the taxpayer incurs the indebtedness;

(B) Attributable to education provided during an academic period, as described in section 25A and the regulations thereunder, when the student is an eligible student as defined in section 25A(b)(3) (requiring that the student be a degree candidate carrying at least half the normal full-time workload); and

(C) Paid or incurred within a reasonable period of time before or after the taxpayer incurs the indebtedness.

(ii) *Reasonable period.* Except as otherwise provided in this paragraph (f)(3)(ii), what constitutes a reasonable period of time for purposes of paragraph (f)(3)(i)(C) of this section generally is determined based on all the relevant facts and circumstances. However, qualified higher education expenses are treated as paid or incurred within a reasonable period of time be-

fore or after the taxpayer incurs the indebtedness if—

(A) The expenses are paid with the proceeds of education loans that are part of a federal postsecondary education loan program; or

(B) The expenses relate to a particular academic period and the loan proceeds used to pay the expenses are disbursed within a period that begins 90 days prior to the start of that academic period and ends 90 days after the end of that academic period.

(iii) *Related party.* A qualified education loan does not include any indebtedness owed to a person who is related to the taxpayer, within the meaning of section 267(b) or 707(b)(1). For example, a parent or grandparent of the taxpayer is a related person. In addition, a qualified education loan does not include a loan made under any qualified employer plan as defined in section 72(p)(4) or under any contract referred to in section 72(p)(5).

(iv) *Federal issuance or guarantee not required.* A loan does not have to be issued or guaranteed under a federal postsecondary education loan program to be a qualified education loan.

(v) *Refinanced and consolidated indebtedness*—(A) *In general.* A qualified education loan includes indebtedness incurred solely to refinance a qualified education loan. A qualified education loan includes a single, consolidated indebtedness incurred solely to refinance two or more qualified education loans of a borrower.

(B) *Treatment of refinanced and consolidated indebtedness.* [Reserved]

(4) *Examples.* The following examples illustrate the rules of this paragraph (f):

Example 1. Eligible educational institution. University J is a postsecondary educational institution described in section 481 of the Higher Education Act of 1965. The U.S. Department of Education has certified that University J is eligible to participate in federal financial aid programs administered by that Department, although University J chooses not to participate. University J is an eligible educational institution.

Example 2. Qualified higher education expenses. Student K receives a \$3,000 qualified scholarship for the 1999 fall semester that is excludable from Student K's gross income under section 117. Student K receives no other forms of financial assistance with respect to the 1999 fall semester. Student K's

cost of attendance for the 1999 fall semester, as determined by Student K's eligible educational institution for purposes of calculating a student's financial need in accordance with section 472 of the Higher Education Act, is \$16,000. For the 1999 fall semester, Student K has qualified higher education expenses of \$13,000 (the cost of attendance as determined by the institution (\$16,000) reduced by the qualified scholarship proceeds excludable from gross income (\$3,000)).

Example 3. Qualified education loan. Student L borrows money from a commercial bank to pay qualified higher education expenses related to his enrollment on a half-time basis in a graduate program at an eligible educational institution. Student L uses all the loan proceeds to pay qualified higher education expenses incurred within a reasonable period of time after incurring the indebtedness. The loan is not federally guaranteed. The commercial bank is not related to Student L within the meaning of section 267(b) or 707(b)(1). Student L's loan is a qualified education loan within the meaning of section 221.

Example 4. Qualified education loan. Student M signs a promissory note for a loan on August 15, 1999, to pay for qualified higher education expenses for the 1999 fall and 2000 spring semesters. On August 20, 1999, the lender disburses loan proceeds to Student M's college. The college credits them to Student M's account to pay qualified higher education expenses for the 1999 fall semester, which begins on August 23, 1999. On January 25, 2000, the lender disburses additional loan proceeds to Student M's college. The college credits them to Student M's account to pay qualified higher education expenses for the 2000 spring semester, which began on January 10, 2000. Student M's qualified higher education expenses for the two semesters are paid within a reasonable period of time, as the first loan disbursement occurred within the 90 days prior to the start of the fall 1999 semester, and the second loan disbursement occurred during the spring 2000 semester.

Example 5. Qualified education loan. The facts are the same as in *Example 4*, except that in 2001 the college is not an eligible educational institution because it loses its eligibility to participate in certain federal financial aid programs administered by the U.S. Department of Education. The qualification of Student M's loan, which was used to pay for qualified higher education expenses for the 1999 fall and 2000 spring semesters, as a qualified education loan is not affected by the college's subsequent loss of eligibility.

Example 6. Mixed-use loans. Student N signs a promissory note for a loan that is secured by Student N's personal residence. Student N will use part of the loan proceeds to pay for certain improvements to Student N's residence and part of the loan proceeds to pay qualified higher education expenses of Stu-

dent N's spouse. Because Student N obtains the loan not solely to pay qualified higher education expenses, the loan is not a qualified education loan.

(g) *Denial of double benefit.* No deduction is allowed under this section for any amount for which a deduction is allowable under another provision of Chapter 1 of the Internal Revenue Code. No deduction is allowed under this section for any amount for which an exclusion is allowable under section 108(f) (relating to cancellation of indebtedness).

(h) *Interest—(1) In general.* Amounts paid on a qualified education loan are deductible under section 221 if the amounts are interest for Federal income tax purposes. For example, interest includes—

(i) Qualified stated interest (as defined in § 1.1273-1(c)); and

(ii) Original issue discount, which generally includes capitalized interest. For purposes of section 221, capitalized interest means any accrued and unpaid interest on a qualified education loan that, in accordance with the terms of the loan, is added by the lender to the outstanding principal balance of the loan.

(2) *Operative rules for original issue discount—(i) In general.* The rules to determine the amount of original issue discount on a loan and the accruals of the discount are in sections 163(e), 1271 through 1275, and the regulations thereunder. In general, original issue discount is the excess of a loan's stated redemption price at maturity (all payments due under the loan other than qualified stated interest payments) over its issue price (the amount loaned). Although original issue discount generally is deductible as it accrues under section 163(e) and § 1.163-7, original issue discount on a qualified education loan is not deductible until paid. See paragraph (h)(3) of this section to determine when original issue discount is paid.

(ii) *Treatment of loan origination fees by the borrower.* If a loan origination fee is paid by the borrower other than for property or services provided by the lender, the fee reduces the issue price of the loan, which creates original issue discount (or additional original issue discount) on the loan in an

amount equal to the fee. See § 1.1273-2(g). For an example of how a loan origination fee is taken into account, see *Example 2* of paragraph (h)(4) of this section.

(3) *Allocation of payments.* See §§ 1.446-2(e) and 1.1275-2(a) for rules on allocating payments between interest and principal. In general, these rules treat a payment first as a payment of interest to the extent of the interest that has accrued and remains unpaid as of the date the payment is due, and second as a payment of principal. The characterization of a payment as either interest or principal under these rules applies regardless of how the parties label the payment (either as interest or principal). Accordingly, the taxpayer may deduct the portion of a payment labeled as principal that these rules treat as a payment of interest on the loan, including any portion attributable to capitalized interest or loan origination fees.

(4) *Examples.* The following examples illustrate the rules of this paragraph (h). In the examples, assume that the institution the student attends is an eligible educational institution, the loan is a qualified education loan, the student is legally obligated to make interest payments under the terms of the loan, and any other applicable requirements, if not otherwise specified, are fulfilled. The examples are as follows:

Example 1. Capitalized interest. Interest on Student O's qualified education loan accrues while Student O is in school, but Student O is not required to make any payments on the loan until six months after he graduates or otherwise leaves school. At that time, the lender capitalizes all accrued but unpaid interest and adds it to the outstanding principal amount of the loan. Thereafter, Student O is required to make monthly payments of interest and principal on the loan. The interest payable on the loan, including the capitalized interest, is original issue discount. Therefore, in determining the total amount of interest paid on the qualified education loan during the 60-month period described in paragraph (e)(1) of this section, Student O may deduct any payments that § 1.1275-2(a) treats as payments of interest, including any principal payments that are treated as payments of capitalized interest. See paragraph (h)(3) of this section.

Example 2. Allocation of payments. The facts are the same as in *Example 1* of this paragraph (h)(4), except that, in addition, the lender charges Student O a loan origination

fee, which is not for any property or services provided by the lender. Under § 1.1273-2(g), the loan origination fee reduces the issue price of the loan, which reduction increases the amount of original issue discount on the loan by the amount of the fee. The amount of original issue discount (which includes the capitalized interest and loan origination fee) that accrues each year is determined under section § 1272 and § 1.1272-1. In effect, the loan origination fee accrues over the entire term of the loan. Because the loan has original issue discount, the payment ordering rules in § 1.1275-2(a) must be used to determine how much of each payment is interest for federal tax purposes. See paragraph (h)(3) of this section. Under § 1.1275-2(a), each payment (regardless of its designation by the parties as either interest or principal) generally is treated first as a payment of original issue discount, to the extent of the original issue discount that has accrued as of the date the payment is due and has not been allocated to prior payments, and second as a payment of principal. Therefore, in determining the total amount of interest paid on the qualified education loan during the 60-month period described in paragraph (e)(1) of this section, Student O may deduct any payments that the parties label as principal but that are treated as payments of original issue discount under § 1.1275-2(a). The 60-month period does not begin in the month in which the lender charges Student O the loan origination fee.

(i) *Special rules regarding 60-month limitation—(1) Refinancing.* A qualified education loan and all indebtedness incurred solely to refinance that loan constitute a single loan for purposes of calculating the 60-month period described in paragraph (e)(1) of this section.

(2) *Consolidated loans.* A consolidated loan is a single loan that refinances more than one qualified education loan of a borrower. For consolidated loans, the 60-month period described in paragraph (e)(1) of this section begins on the latest date on which any of the underlying loans entered repayment status and includes any subsequent month in which the consolidated loan is in repayment status.

(3) *Collapsed loans.* A collapsed loan is two or more qualified education loans of a single taxpayer that constitute a single qualified education loan for loan servicing purposes and for which the lender or servicer does not separately account. For a collapsed loan, the 60-month period described in paragraph

§ 1.241-1

26 CFR Ch. I (4-1-10 Edition)

(e)(1) of this section begins on the latest date on which any of the underlying loans entered repayment status and includes any subsequent month in which any of the underlying loans is in repayment status.

(4) *Examples.* The following examples illustrate the rules of this paragraph (i):

Example 1. Refinancing. Student P obtains a qualified education loan to pay for an undergraduate degree at an eligible educational institution. After graduation, Student P is required to make monthly interest payments on the loan beginning in January 2000. Student P makes the required interest payments for 15 months. In April 2001, Student P borrows money from another lender exclusively to repay the first qualified education loan. The new loan requires interest payments to start immediately. At the time Student P must begin interest payments on the new loan, which is a qualified education loan, there are 45 months remaining of the original 60-month period referred to in paragraph (e)(1) of this section.

Example 2. Collapsed loans. To finance his education, Student Q obtains four separate qualified education loans from Lender R. The loans enter repayment status, and their respective 60-month periods described in paragraph (e)(1) of this section begin, in July, August, September, and December of 1999. After all of Student Q's loans have entered repayment status, Lender R informs Student Q that Lender R will transfer all four loans to Lender S. Following the transfer, Lender S treats the loans as a single loan for loan servicing purposes. Lender S sends Student Q a single statement that shows the total principal and interest, and does not keep separate records with respect to each loan. With respect to the single collapsed loan, the 60-month period described in paragraph (e)(1) of this section begins in December 1999.

(j) *Effective date.* This section is applicable to interest due and paid on qualified education loans after January 21, 1999, if paid before January 1, 2002. Taxpayers also may apply this section to interest due and paid on qualified education loans after December 31, 1997, but before January 21, 1999. This section also applies to interest due and paid on qualified education loans in a taxable year beginning after December 31, 2010.

SPECIAL DEDUCTIONS FOR CORPORATIONS

§ 1.241-1 Allowance of special deductions.

A corporation, in computing its taxable income, is allowed as deductions the items specified in Part VIII (section 242 and following), Subchapter B, Chapter 1 of the Code, in addition to the deductions provided in part VI (section 161 and following) Subchapter B, Chapter 1 of the Code.

§ 1.242-1 Deduction for partially tax-exempt interest.

A corporation is allowed a deduction under section 242(a) in an amount equal to certain interest received on obligations of the United States, or an obligation of corporations organized under Acts of Congress which are instrumentalities of the United States. The interest for which a deduction shall be allowed is interest which is included in gross income and which is exempt from normal tax under the act, as amended and supplemented, which authorized the issuance of the obligations. The deduction allowed by section 242(a) is allowed only for the purpose of computing normal tax, and therefore, no deduction is allowed for such interest in the computation of any surtax imposed by Subtitle A of the Internal Revenue Code of 1954.

[T.D. 7100, 36 FR 5333, Mar. 20, 1971]

§ 1.243-1 Deduction for dividends received by corporations.

(a)(1) A corporation is allowed a deduction under section 243 for dividends received from a domestic corporation which is subject to taxation under Chapter 1 of the Internal Revenue Code of 1954.

(2) Except as provided in section 243(c) and in section 246, the deduction is:

(i) For the taxable year, an amount equal to 85 percent of the dividends received from such domestic corporations during the taxable year (other than dividends to which subdivision (ii) or (iii) of this subparagraph applies).

(ii) For a taxable year beginning after September 2, 1958, an amount equal to 100 percent of the dividends received from such domestic corporations if at the time of receipt of such
