

by W (\$900) bears to the fair market value of both classes of stock at that time (\$1,500). The allocated portion is $\$900/\$1,500 \times \$1,600$, or \$960. W's recognized gain is, therefore, \$640 (W's realized gain of \$1,600 minus \$960).

(c) *Special rules.* (1) Section 267(d) does not affect the basis of property for determining gain. Depreciation and other items which depend on such basis are also not affected.

(2) The provisions of section 267(d) shall not apply if the loss sustained by the transferor is not allowable to the transferor as a deduction by reason of section 1091, or section 118 of the Internal Revenue Code of 1939, which relate to losses from wash sales of stock or securities.

(3) In determining the holding period in the hands of the transferee of property received in an exchange with a transferor with respect to whom a loss on the exchange is not allowable by reason of section 267, section 1223(2) does not apply to include the period during which the property was held by the transferor. In determining such holding period, however, section 1223(1) may apply to include the period during which the transferee held the property which he exchanged where, for example, he exchanged a capital asset in a transaction which, as to him, was non-taxable under section 1031 and the property received in the exchange has the same basis as the property exchanged.

§ 1.267(d)-2 Effective date; taxable years subject to the Internal Revenue Code of 1939.

Pursuant to section 7851(a)(1)(C), the regulations prescribed in § 1.267(d)-1, to the extent that they relate to determination of gain resulting from the sale or other disposition of property after December 31, 1953, with respect to which property a loss was not allowable to the transferor by reason of section 267(a)(1) (or by reason of section 24(b) of the Internal Revenue Code of 1939), shall also apply to taxable years beginning before January 1, 1954, and ending after December 31, 1953, and taxable years beginning after December 31, 1953, and ending before August 17, 1954, which years are subject to the Internal Revenue Code of 1939.

§ 1.267(f)-1 Controlled groups.

(a) *In general*—(1) *Purpose.* This section provides rules under section 267(f) to defer losses and deductions from certain transactions between members of a controlled group (intercompany sales). The purpose of this section is to prevent members of a controlled group from taking into account a loss or deduction solely as the result of a transfer of property between a selling member (S) and a buying member (B).

(2) *Application of consolidated return principles.* Under this section, S's loss or deduction from an intercompany sale is taken into account under the *timing* principles of § 1.1502-13 (intercompany transactions between members of a consolidated group), treating the intercompany sale as an intercompany transaction. For this purpose:

(i) The matching and acceleration rules of § 1.1502-13 (c) and (d), the definitions and operating rules of § 1.1502-13 (b) and (j), and the simplifying rules of § 1.1502-13(e)(1) apply with the adjustments in paragraphs (b) and (c) of this section to reflect that this section—

(A) Applies on a controlled group basis rather than consolidated group basis; and

(B) Generally affects only the *timing* of a loss or deduction, and not *its attributes* (e.g., *its source and character*) or the holding period of property.

(ii) The special rules under § 1.1502-13(f) (stock of members) and (g) (obligations of members) apply under this section only to the extent the transaction is also an intercompany transaction to which § 1.1502-13 applies.

(iii) Any election under § 1.1502-13 to take items into account on a separate entity basis does not apply under this section. See § 1.1502-13(e)(3).

(3) *Other law.* The rules of this section apply in addition to other applicable law (including nonstatutory authorities). For example, to the extent a loss or deduction deferred under this section is from a transaction that is also an intercompany transaction under § 1.1502-13(b)(1), attributes of the loss or deduction are also subject to re-characterization under § 1.1502-13. See also, sections 269 (acquisitions to evade or avoid income tax) and 482 (allocations among commonly controlled taxpayers). Any loss or deduction taken

into account under this section can be deferred, disallowed, or eliminated under other applicable law. See, for example, section 1091 (loss eliminated on wash sale).

(b) *Definitions and operating rules.* The definitions in § 1.1502-13(b) and the operating rules of § 1.1502-13(j) apply under this section with appropriate adjustments, including the following:

(1) *Intercompany sale.* An intercompany sale is a sale, exchange, or other transfer of property between members of a controlled group, if it would be an intercompany transaction under the principles of § 1.1502-13, determined by treating the references to a consolidated group as references to a controlled group and by disregarding whether any of the members join in filing consolidated returns.

(2) *S's losses or deductions.* Except to the extent the intercompany sale is also an intercompany transaction to which § 1.1502-13 applies, S's losses or deductions subject to this section are determined on a separate entity basis. For example, the principles of § 1.1502-13(b)(2)(iii) (treating certain amounts not yet recognized as items to be taken into account) do not apply. A loss or deduction is from an intercompany sale whether it is directly or indirectly from the intercompany sale.

(3) *Controlled group; member.* For purposes of this section, a controlled group is defined in section 267(f). Thus, a controlled group includes a FSC (as defined in section 922) and excluded members under section 1563(b)(2), but does not include a DISC (as defined in section 992). Corporations remain members of a controlled group as long as they remain in a controlled group relationship with each other. For example, corporations become nonmembers with respect to each other when they cease to be in a controlled group relationship with each other, rather than by having a separate return year (described in § 1.1502-13(j)(7)). Further, the principles of § 1.1502-13(j)(6) (former common parent treated as continuation of group) apply to any corporation if, immediately before it becomes a nonmember, it is both the selling member and the owner of property with respect to which a loss or deduction is deferred (whether or not it becomes a member

of a different controlled group filing consolidated or separate returns). Thus, for example, if S and B merge together in a transaction described in section 368(a)(1)(A), the surviving corporation is treated as the successor to the other corporation, and the controlled group relationship is treated as continuing.

(4) *Consolidated taxable income.* References to consolidated taxable income (and consolidated tax liability) include references to the combined taxable income of the members (and their combined tax liability). For corporations filing separate returns, it ordinarily will not be necessary to actually combine their taxable incomes (and tax liabilities) because the taxable income (and tax liability) of one corporation does not affect the taxable income (or tax liability) of another corporation.

(c) *Matching and acceleration principles of § 1.1502-13—(1) Adjustments to the timing rules.* Under this section, S's losses and deductions are deferred until they are taken into account under the timing principles of the matching and acceleration rules of § 1.1502-13(c) and (d) with appropriate adjustments. For example, if S sells depreciable property to B at a loss, S's loss is deferred and taken into account under the principles of the matching rule of § 1.1502-13(c) to reflect the difference between B's depreciation taken into account with respect to the property and the depreciation that B would take into account if S and B were divisions of a single corporation; if S and B subsequently cease to be in a controlled group relationship with each other, S's remaining loss is taken into account under the principles of the acceleration rule of § 1.1502-13(d). For purposes of this section, the adjustments to § 1.1502-13 (c) and (d) include the following:

(i) *Application on controlled group basis.* The matching and acceleration rules apply on a controlled group basis, rather than a consolidated group basis. Thus if S and B are wholly-owned members of a consolidated group and 21% of the stock of S is sold to an unrelated person, S's loss continues to be deferred under this section because S and B continue to be members of a controlled group even though S is no

longer a member of the consolidated group. Similarly, S's loss would continue to be deferred if S and B remain in a controlled group relationship after both corporations become nonmembers of their former consolidated group.

(ii) *Different taxable years.* If S and B have different taxable years, the taxable years that include a December 31 are treated as the same taxable years. If S or B has a short taxable year that does not include a December 31, the short year is treated as part of the succeeding taxable year that does include a December 31.

(iii) *Transfer to a section 267(b) or 707(b) related person.* To the extent S's loss or deduction from an intercompany sale of property is taken into account under this section as a result of B's transfer of the property to a nonmember that is related to any member, immediately after the transfer, under sections 267(b) or 707(b), or as a result of S or B becoming a nonmember that is related to any member under section 267(b), the loss or deduction is taken into account but allowed only to the extent of any income or gain taken into account as a result of the transfer. The balance not allowed is treated as a loss referred to in section 267(d) if it is from a sale or exchange by B (rather than from a distribution).

(iv) *B's item is excluded from gross income or noncapital and nondeductible.* To the extent S's loss would be redetermined to be a noncapital, nondeductible amount under the principles of §1.1502-13 but is not redetermined because of paragraph (c)(2) of this section, then, if paragraph (c)(1)(iii) of this section does not apply, S's loss continues to be deferred and is not taken into account until S and B are no longer in a controlled group relationship. For example, if S sells all of the stock of corporation T to B at a loss and T subsequently liquidates into B in a transaction qualifying under section 332, S's loss is deferred until S and B (including their successors) are no longer in a controlled group relationship. See §1.1502-13(c)(6)(ii).

(v) *Circularity of references.* References to deferral or elimination under the Internal Revenue Code or regulations do not include references

to section 267(f) or this section. See, e.g., §1.1502-13(a)(4) (applicability of other law).

(2) *Attributes generally not affected.* The matching and acceleration rules are not applied under this section to affect the attributes of S's intercompany item, or cause it to be taken into account before it is taken into account under S's separate entity method of accounting. However, the attributes of S's intercompany item may be redetermined, or an item may be taken into account earlier than under S's separate entity method of accounting, to the extent the transaction is also an intercompany transaction to which §1.1502-13 applies. Similarly, except to the extent the transaction is also an intercompany transaction to which §1.1502-13 applies, the matching and acceleration rules do not apply to affect the timing or attributes of B's corresponding items.

(d) *Intercompany sales of inventory involving foreign persons—(1) General rule.* Section 267(a)(1) and this section do not apply to an intercompany sale of property that is inventory (within the meaning of section 1221(1)) in the hands of both S and B, if—

(i) The intercompany sale is in the ordinary course of S's trade or business;

(ii) S or B is a foreign corporation; and

(iii) Any income or loss realized on the intercompany sale by S or B is not income or loss that is recognized as effectively connected with the conduct of a trade or business within the United States within the meaning of section 864 (unless the income is exempt from taxation pursuant to a treaty obligation of the United States).

(2) *Intercompany sales involving related partnerships.* For purposes of paragraph (d)(1) of this section, a partnership and a foreign corporation described in section 267(b)(10) are treated as members, provided that the income or loss of the foreign corporation is described in paragraph (d)(1)(iii) of this section.

(3) *Intercompany sales in ordinary course.* For purposes of this paragraph (d), whether an intercompany sale is in the ordinary course of business is determined under all the facts and circumstances.

(e) *Treatment of a creditor with respect to a loan in nonfunctional currency.* Sections 267(a)(1) and this section do not apply to an exchange loss realized with respect to a loan of nonfunctional currency if—

(1) The loss is realized by a member with respect to nonfunctional currency loaned to another member;

(2) The loan is described in § 1.988-1(a)(2)(i);

(3) The loan is not in a hyperinflationary currency as defined in § 1.988-1(f); and

(4) The transaction does not have as a significant purpose the avoidance of Federal income tax.

(f) *Receivables.* If S acquires a receivable from the sale of goods or services to a nonmember at a gain, and S sells the receivable at fair market value to B, any loss or deduction of S from its sale to B is not deferred under this section to the extent it does not exceed S's income or gain from the sale to the nonmember that has been taken into account at the time the receivable is sold to B.

(g) *Earnings and profits.* A loss or deduction deferred under this section is not reflected in S's earnings and profits before it is taken into account under this section. See, e.g., §§ 1.312-6(a), 1.312-7, and 1.1502-33(c)(2).

(h) *Anti-avoidance rule.* If a transaction is engaged in or structured with a principal purpose to avoid the purposes of this section (including, for example, by avoiding treatment as an intercompany sale or by distorting the timing of losses or deductions), adjustments must be made to carry out the purposes of this section.

(i) [Reserved]

(j) *Examples.* For purposes of the examples in this paragraph (j), unless otherwise stated, corporation P owns 75% of the only class of stock of subsidiaries S and B, X is a person unrelated to any member of the P controlled group, the taxable year of all persons is the calendar year, all persons use the accrual method of accounting, tax liabilities are disregarded, the facts set forth the only activity, and no member has a special status. If a member acts as both a selling member and a buying member (e.g., with respect to different aspects of a

single transaction, or with respect to related transactions), the member is referred as to M (rather than as S or B). This section is illustrated by the following examples.

Example 1. Matching and acceleration rules.

(a) *Facts.* S holds land for investment with a basis of \$130. On January 1 of Year 1, S sells the land to B for \$100. On a separate entity basis, S's loss is long-term capital loss. B holds the land for sale to customers in the ordinary course of business. On July 1 of Year 3, B sells the land to X for \$110.

(b) *Matching rule.* Under paragraph (b)(1) of this section, S's sale of land to B is an intercompany sale. Under paragraph (c)(1) of this section, S's \$30 loss is taken into account under the timing principles of the matching rule of § 1.1502-13(c) to reflect the difference for the year between B's corresponding items taken into account and the recomputed corresponding items. If S and B were divisions of a single corporation and the intercompany sale were a transfer between the divisions, B would succeed to S's \$130 basis in the land and would have a \$20 loss from the sale to X in Year 3. Consequently, S takes no loss into account in Years 1 and 2, and takes the entire \$30 loss into account in Year 3 to reflect the \$30 difference in that year between the \$10 gain B takes into account and its \$20 recomputed loss. The attributes of S's intercompany items and B's corresponding items are determined on a separate entity basis. Thus, S's \$30 loss is long-term capital loss and B's \$10 gain is ordinary income.

(c) *Acceleration resulting from sale of B stock.* The facts are the same as in paragraph (a) of this *Example 1*, except that on July 1 of Year 3 P sells all of its B stock to X (rather than B's selling the land to X). Under paragraph (c)(1) of this section, S's \$30 loss is taken into account under the timing principles of the acceleration rule of § 1.1502-13(d) immediately before the effect of treating S and B as divisions of a single corporation cannot be produced. Because the effect cannot be produced once B becomes a nonmember, S takes its \$30 loss into account in Year 3 immediately before B becomes a nonmember. S's loss is long-term capital loss.

(d) *Subgroup principles applicable to sale of S and B stock.* The facts are the same as in paragraph (a) of this *Example 1*, except that on July 1 of Year 3 P sells all of its S and B stock to X (rather than B's selling the land to X). Under paragraph (b)(3) of this section, S and B are considered to remain members of a controlled group as long as they remain in a controlled group relationship with each other (whether or not in the original controlled group). P's sale of their stock does not affect the controlled group relationship of S and B with each other. Thus, S's loss is not taken into account as a result of P's sale

of the stock. Instead, S's loss is taken into account based on subsequent events (e.g., B's sale of the land to a nonmember).

Example 2. Distribution of loss property. (a) *Facts.* S holds land with a basis of \$130 and value of \$100. On January 1 of Year 1, S distributes the land to P in a transaction to which section 311 applies. On July 1 of Year 3, P sells the land to X for \$110.

(b) *No loss taken into account.* Under paragraph (b)(2) of this section, because P and S are not members of a consolidated group, §1.1502-13(f)(2)(iii) does not apply to cause S to recognize a \$30 loss under the principles of section 311(b). Thus, S has no loss to be taken into account under this section. (If P and S were members of a consolidated group, §1.1502-13(f)(2)(iii) would apply to S's loss in addition to the rules of this section, and the loss would be taken into account in Year 3 as a result of P's sale to X.)

Example 3. Loss not yet taken into account under separate entity accounting method. (a) *Facts.* S holds land with a basis of \$130. On January 1 of Year 1, S sells the land to B at a \$30 loss but does not take into account the loss under its separate entity method of accounting until Year 4. On July 1 of Year 3, B sells the land to X for \$110.

(b) *Timing.* Under paragraph (b)(2) of this section, S's loss is determined on a separate entity basis. Under paragraph (c)(1) of this section, S's loss is not taken into account before it is taken into account under S's separate entity method of accounting. Thus, although B takes its corresponding gain into account in Year 3, S has no loss to take into account until Year 4. Once S's loss is taken into account in Year 4, it is not deferred under this section because B's corresponding gain has already been taken into account. (If S and B were members of a consolidated group, S would be treated under §1.1502-13(b)(2)(iii) as taking the loss into account in Year 3.)

Example 4. Consolidated groups. (a) *Facts.* P owns all of the stock of S and B, and the P group is a consolidated group. S holds land for investment with a basis of \$130. On January 1 of Year 1, S sells the land to B for \$100. B holds the land for sale to customers in the ordinary course of business. On July 1 of Year 3, P sells 25% of B's stock to X. As a result of P's sale, B becomes a nonmember of the P consolidated group but S and B remain in a controlled group relationship with each other for purposes of section 267(f). Assume that if S and B were divisions of a single corporation, the items of S and B from the land would be ordinary by reason of B's activities.

(b) *Timing and attributes.* Under paragraph (a)(3) of this section, S's sale to B is subject to both §1.1502-13 and this section. Under §1.1502-13, S's loss is redetermined to be an ordinary loss by reason of B's activities. Under paragraph (b)(3) of this section, because S and B remain in a controlled group

relationship with each other, the loss is not taken into account under the acceleration rule of §1.1502-13(d) as modified by paragraph (c) of this section. See §1.1502-13(a)(4). Nevertheless, S's loss is redetermined by §1.1502-13 to be an ordinary loss, and the character of the loss is not further redetermined under this section. Thus, the loss continues to be deferred under this section, and will be taken into account as ordinary loss based on subsequent events (e.g., B's sale of the land to a nonmember).

(c) *Resale to controlled group member.* The facts are the same as in paragraph (a) of this *Example 4*, except that P owns 75% of X's stock, and B resells the land to X (rather than P's selling any B stock). The results for S's loss are the same as in paragraph (b) of this *Example 4*. Under paragraph (b) of this section, X is also in a controlled group relationship, and B's sale to X is a second intercompany sale. Thus, S's loss continues to be deferred and is taken into account under this section as ordinary loss based on subsequent events (e.g., X's sale of the land to a nonmember).

Example 5. Intercompany sale followed by installment sale. (a) *Facts.* S holds land for investment with a basis of \$130x. On January 1 of Year 1, S sells the land to B for \$100x. B holds the land for investment. On July 1 of Year 3, B sells the land to X in exchange for X's \$110x note. The note bears a market rate of interest in excess of the applicable Federal rate, and provides for principal payments of \$55x in Year 4 and \$55x in Year 5. Section 453A applies to X's note.

(b) *Timing and attributes.* Under paragraph (c) of this section, S's \$30x loss is taken into account under the timing principles of the matching rule of §1.1502-13(c) to reflect the difference in each year between B's gain taken into account and its recomputed loss. Under section 453, B takes into account \$5x of gain in Year 4 and in Year 5. Therefore, S takes \$20x of its loss into account in Year 3 to reflect the \$20x difference in that year between B's \$0 loss taken into account and its \$20x recomputed loss. In addition, S takes \$5x of its loss into account in Year 4 and in Year 5 to reflect the \$5x difference in each year between B's \$5x gain taken into account and its \$0 recomputed gain. Although S takes into account a loss and B takes into account a gain, the attributes of B's \$10x gain are determined on a separate entity basis, and therefore the interest charge under section 453A(c) applies to B's \$10x gain on the installment sale beginning in Year 3.

Example 6. Section 721 transfer to a related nonmember. (a) *Facts.* S owns land with a basis of \$130. On January 1 of Year 1, S sells the land to B for \$100. On July 1 of Year 3, B

transfers the land to a partnership in exchange for a 40% interest in capital and profits in a transaction to which section 721 applies. P also owns a 25% interest in the capital and profits of the partnership.

(b) *Timing.* Under paragraph (c)(1)(iii) of this section, because the partnership is a nonmember that is a related person under sections 267(b) and 707(b), S's \$30 loss is taken into account in Year 3, but only to the extent of any income or gain taken into account as a result of the transfer. Under section 721, no gain or loss is taken into account as a result of the transfer to the partnership, and thus none of S's loss is taken into account. Any subsequent gain recognized by the partnership with respect to the property is limited under section 267(d). (The results would be the same if the P group were a consolidated group, and S's sale to B were also subject to §1.1502-13.)

Example 7. Receivables. (a) *Controlled group.* S owns goods with a \$60 basis. In Year 1, S sells the goods to X for X's \$100 note. The note bears a market rate of interest in excess of the applicable Federal rate, and provides for payment of principal in Year 5. S takes into account \$40 of income in Year 1 under its method of accounting. In Year 2, the fair market value of X's note falls to \$90 due to an increase in prevailing market interest rates, and S sells the note to B for its \$90 fair market value.

(b) *Loss not deferred.* Under paragraph (f) of this section, S takes its \$10 loss into account in Year 2. (If the sale were not at fair market value, paragraph (f) of this section would not apply and none of S's \$10 loss would be taken into account in Year 2.)

(c) *Consolidated group.* Assume instead that P owns all of the stock of S and B, and the P group is a consolidated group. In Year 1, S sells to X goods having a basis of \$90 for X's \$100 note (bearing a market rate of interest in excess of the applicable Federal rate, and providing for payment of principal in Year 5), and S takes into account \$10 of income in Year 1. In Year 2, S sells the receivable to B for its \$85 fair market value. In Year 3, P sells 25% of B's stock to X. Although paragraph (f) of this section provides that \$10 of S's loss (i.e., the extent to which S's \$15 loss does not exceed its \$10 of income) is not deferred under this section, S's entire \$15 loss is subject to §1.1502-13 and none of the loss is taken into account in Year 2 under the matching rule of §1.1502-13(c). See paragraph (a)(3) of this section (continued deferral under §1.1502-13). P's sale of B stock results in B becoming a nonmember of the P consolidated group in Year 3. Thus, S's \$15 loss is taken into account in Year 3 under the acceleration rule of §1.1502-13(d). Nevertheless, B remains in a controlled group relationship with S and paragraph (f) of this section permits only \$10 of S's loss to be taken into account in Year 3. See §1.1502-13(a)(4) (contin-

ued deferral under section 267). The remaining \$5 of S's loss continues to be deferred under this section and taken into account under this section based on subsequent events (e.g., B's collection of the note or P's sale of the remaining B stock to a nonmember).

Example 8. Selling member ceases to be a member. (a) *Facts.* P owns all of the stock of S and B, and the P group is a consolidated group. S has several historic assets, including land with a basis of \$130 and value of \$100. The land is not essential to the operation of S's business. On January 1 of Year 1, S sells the land to B for \$100. On July 1 of Year 3, P transfers all of S's stock to newly formed X in exchange for a 20% interest in X stock as part of a transaction to which section 351 applies. Although X holds many other assets, a principal purpose for P's transfer is to accelerate taking S's \$30 loss into account. P has no plan or intention to dispose of the X stock.

(b) *Timing.* Under paragraph (c) of this section, S's \$30 loss ordinarily is taken into account immediately before P's transfer of the S stock, under the timing principles of the acceleration rule of §1.1502-13(d). Although taking S's loss into account results in a \$30 negative stock basis adjustment under §1.1502-32, because P has no plan or intention to dispose of its X stock, the negative adjustment will not immediately affect taxable income. P's transfer accelerates a loss that otherwise would be deferred, and an adjustment under paragraph (h) of this section is required. Thus, S's loss is never taken into account, and S's stock basis and earnings and profits are reduced by \$30 under §§1.1502-32 and 1.1502-33 immediately before P's transfer of the S stock.

(c) *Nonhistoric assets.* Assume instead that, with a principal purpose to accelerate taking into account any further loss that may accrue in the value of the land without disposing of the land outside of the controlled group, P forms M with a \$100 contribution on January 1 of Year 1 and S sells the land to M for \$100. On December 1 of Year 1, when the value of the land has decreased to \$90, M sells the land to B for \$90. On July 1 of Year 3, while B still owns the land, P sells all of M's stock to X and M becomes a nonmember. Under paragraph (c) of this section, M's \$10 loss ordinarily is taken into account under the timing principles of the acceleration rule of §1.1502-13(d) immediately before M becomes a nonmember. (S's \$30 loss is not taken into account under the timing principles of §1.1502-13(c) or §1.1502-13(d) as a result of M becoming a nonmember, but is taken into account based on subsequent events such as B's sale of the land to a nonmember or P's sale of the stock of S or B to a nonmember.) The land is not an historic asset of M and, although taking M's loss into account reduces P's basis in the M stock

under §1.1502-32, the negative adjustment only eliminates the \$10 duplicate stock loss. Under paragraph (h) of this section, M's loss is never taken into account. M's stock basis, and the earnings and profits of M and P, are reduced by \$10 under §§1.1502-32 and 1.1502-33 immediately before P's sale of the M stock.

(k) *Cross-reference.* For additional rules applicable to the disposition, deconsolidation, or transfer of the stock of members of consolidated groups, see §§1.337(d)-2, 1.1502-13(f)(6), 1.1502-35, and 1.1502-36.

(1) *Effective dates—(1) In general.* This section applies with respect to transactions occurring in S's years beginning on or after July 12, 1995. If both this section and prior law apply to a transaction, or neither applies, with the result that items are duplicated, omitted, or eliminated in determining taxable income (or tax liability), or items are treated inconsistently, prior law (and not this section) applies to the transaction.

(2) *Avoidance transactions.* This paragraph (1)(2) applies if a transaction is engaged in or structured on or after April 8, 1994, with a principal purpose to avoid the rules of this section (and instead to apply prior law). If this paragraph (1)(2) applies, appropriate adjustments must be made in years beginning on or after July 12, 1995, to prevent the avoidance, duplication, omission, or elimination of any item (or tax liability), or any other inconsistency with the rules of this section.

(3) *Prior law.* For transactions occurring in S's years beginning before July 12, 1995 see the applicable regulations issued under sections 267 and 1502. See, e.g., §§1.267(f)-1, 1.267(f)-1T, 1.267(f)-2T, 1.267(f)-3, 1.1502-13, 1.1502-13T, 1.1502-14, 1.1502-14T, and 1.1502-31 (as contained in the 26 CFR part 1 edition revised as of April 1, 1995).

[T.D. 8597, 60 FR 36680, July 18, 1995, as amended by T.D. 8660, 61 FR 10499, Mar. 14, 1996; 62 FR 12097, Mar. 14, 1997; T.D. 9048, 68 FR 12290, Mar. 14, 2003; T.D. 9187, 70 FR 10327, Mar. 3, 2005; T.D. 9254, 71 FR 13018, Mar. 14, 2006; T.D. 9424, 73 FR 53986, Sept. 17, 2008]

§ 1.268-1 Items attributable to an unharvested crop sold with the land.

In computing taxable income no deduction shall be allowed in respect of items attributable to the production of

an unharvested crop which is sold, exchanged, or involuntarily converted with the land and which is considered as property used in the trade or business under section 1231(b)(4). Such items shall be so treated whether or not the taxable year involved is that of the sale, exchange, or conversion of such crop and whether they are for expenses, depreciation, or otherwise. If the taxable year involved is not that of the sale, exchange, or conversion of such crop, a recomputation of the tax liability for such year shall be made; such recomputation should be in the form of an "amended return" if necessary. For the adjustments to basis as a result of such disallowance, see section 1016(a)(11) and the regulations thereunder.

§ 1.269-1 Meaning and use of terms.

As used in section 269 and §§1.269-2 through 1.269-7:

(a) *Allowance.* The term *allowance* refers to anything in the internal revenue laws which has the effect of diminishing tax liability. The term includes, among other things, a deduction, a credit, an adjustment, an exemption, or an exclusion.

(b) *Evasion or avoidance.* The phrase *evasion or avoidance* is not limited to cases involving criminal penalties, or civil penalties for fraud.

(c) *Control.* The term *control* means the ownership of stock possessing at least 50 percent of the total combined voting power of all classes of stock entitled to vote, or at least 50 percent of the total value of shares of all classes of stock of the corporation. For control to be "acquired on or after October 8, 1940", it is not necessary that all of such stock be acquired on or after October 8, 1940. Thus, if A, on October 7, 1940, and at all times thereafter, owns 40 percent of the stock of X Corporation and acquires on October 8, 1940, an additional 10 percent of such stock, an acquisition within the meaning of such phrase is made by A on October 8, 1940. Similarly, if B, on October 7, 1940, owns certain assets and transfers on October 8, 1940, such assets to a newly organized Y Corporation in exchange for all the stock of Y Corporation, an acquisition within the meaning of such phrase is made by B on October 8, 1940. If, under
