§ 20.190

(d) By the use of essential oils and chemicals used in the manufacture of each liquid article, the user shall ensure that the finished article cannot be reclaimed or diverted to beverage use or internal human use.

(e) Each finished article shall conform to the sample, if any, and formula for that article approved in accordance with subpart F of this part.

§ 20.190 Diversion of articles for internal human use or beverage use.

An appropriate TTB officer who has reason to believe that the spirits in any article are being reclaimed or diverted to beverage or internal human use may direct the permittee to modify an approved formula to prevent the reclamation or diversion. The appropriate TTB officer may require the permittee to discontinue the use of the formula until it has been modified and again approved.

§ 20.191 Bulk articles.

Users who convey articles in containers exceeding one gallon may provide the recipient with a photocopy of subpart G of this part to ensure compliance with requirements relating to articles. Copies of subpart G are printed as TTB Publication 5150.5 and are available as provided in § 20.21(b).

§ 20.192 Manufacturing record.

For each manufacturing process in which specially denatured spirits are used, the user shall record:

(a) Quantity and formula number of new or recovered specially denatured spirits used;

(b) Names and quantities of ingredients used; and

(c) Name, trade name or brand name and alcoholic content of each article or intermediate product manufactured, as applicable.
