by the end of the project period; facility operating expenses may not be used to meet the match requirement for the construction project supported. A certification to that effect will be required of each recipient of grant funds.

(h) Innovative boot camp programs. Jurisdictions are encouraged to explore the development of “innovative” boot camp programs which incorporate principles based on the accumulation of research and practical experience, and reflect sound and effective correctional practice.

Subpart C—Correctional Facilities on Tribal Lands

SOURCE: 61 FR 49970, Sept. 24, 1996, unless otherwise noted.

§ 91.21 Purpose.

This part sets forth requirements and procedures to award grants to Indian Tribes for purposes of constructing jails on tribal lands for the incarceration of offenders subject to tribal jurisdiction.

§ 91.22 Definitions.

(b) Assistant Attorney General means the Assistant Attorney General for the Office of Justice Programs.

(c) Tribal lands means:

(1) All land within the limits of any Indian reservation under the jurisdiction of the United States Government, notwithstanding the issuance of any patent, and including rights-of-way running through the reservation;

(2) All dependent Indian communities within the borders of the United States whether within the original or subsequently acquired territory thereof, and whether within or without the limits of a State; and

(3) All Indian allotments, the Indian titles to which have not been extinguished, including rights-of-way running through the same.

(d) Indian Tribe means an eligible Native American tribe as defined by the Indian Self Determination Act, 25 U.S.C. 450b(e).

(e) Construction means the erection, acquisition, renovation, repair, remodeling, or expansion of new or existing buildings or other physical facilities, and the acquisition or installation of fixed furnishings and equipment. It includes facility planning (including environmental impact analysis), pre-architectural programming, architectural design, preservation, construction, administration, construction management, or project management costs. Construction does not include the purchase of land.

§ 91.23 Grant authority.

(a) The Assistant Attorney General may make grants to Indian tribes for programs that involve constructing jails on tribal lands for the incarceration of offenders subject to tribal jurisdiction.

(b) Applications for grants under this program shall be made at such times and in such form as may be specified by the Assistant Attorney General. Applications will be evaluated according to the statutory requirements of the Act and programmatic goals.

(c) Grantees must comply with all statutory and program requirements applicable to grants under this program.

(d) The funds provided under this part shall be administered in compliance with the standards set forth in part 38 (Equal Treatment for Faith-based Organizations) of this chapter.

§ 91.24 Grant distribution.

(a) From the amounts appropriated under section 20108 of the Act to carry out sections 20103 and 20104 of the Act,
§ 91.50 Purpose.

The purpose of this subpart is to inform grant recipients under the Violent Offender Incarceration and Truth-in-Sentencing Incentive (VOI/TIS) Formula Grant Program of OJP's procedures for complying with the National Environmental Policy Act (NEPA), 42 U.S.C. 4321 et seq., and related environmental impact review requirements.

§ 91.51 Policy.

(a) NEPA Policy. NEPA policy requires that Federal agencies, to the fullest extent possible:

(1) Implement procedures to make the NEPA process more useful to decision-makers and the public; reduce paperwork and the accumulation of extraneous background data; and emphasize real environmental issues and alternatives. Environmental impact statements shall be concise, clear, and to the point, and shall be supported by evidence that agencies have made the necessary environmental analyses.

(2) Integrate the requirements of NEPA with other planning and environmental review procedures required by law and by agency practice so that all such procedures run concurrently rather than consecutively.

(3) Encourage and facilitate public involvement in decisions which affect the quality of the human environment.

(4) Use the NEPA process to identify and assess reasonable alternatives to proposed actions that will avoid or minimize adverse effects of these actions upon the quality of the human environment.

(5) Use all practicable means to restore and enhance the quality of the human environment and avoid or minimize any possible adverse effects of the actions upon the quality of the human environment.

(b) OJP's policy to minimize harm to the environment. It is OJP's policy to minimize harm to the environment. Consequently, OJP can reject proposals or prohibit a State from using formula grant funds for a project that would have a substantial adverse impact on the human environment. Additionally, federal law prohibits the implementation of a project that jeopardizes the continued existence of an endangered species or that violates certain regulations related to water quality. Generally, though, where an EA or EIS reveals that a project will have adverse environmental impacts, OJP will work with the State grantee to identify ways to modify the project to mitigate any adverse impacts, or will encourage the State to consider an alternative site.

(c) Mitigation. OJP may require the following mitigation measures to reduce or eliminate a project's adverse environmental impacts:

(1) Avoiding the impact altogether by not taking certain action or part of an action.

(2) Minimizing impacts by limiting the degree or magnitude of the action and its implementation.

(3) Rectifying the impact by repairing, rehabilitating, or restoring the affected environment.

(4) Reducing or eliminating the impact over time by preservation and maintenance operations during the life of the action.

(5) Compensating for the impact by replacing or providing substitute resources or environments.

(d) Use of grant funds. In accordance with OJP's general policy of providing the States with the maximum amount of control and flexibility over the use
