workweek is a fixed and regularly recurring interval of seven consecutive 24-hour periods. It may begin at any hour of any day set by the employer and need not coincide with the calendar week. Once the workweek has been set it commences each succeeding week on the same day and at the same hour. Changing the workweek for the purpose of escaping the requirements of the Act is not permitted.

§ 780.722 Exempt workweeks.

An employee performing work for an establishment commonly recognized as a country elevator is exempt under section 13(b)(14) in any workweek when he is, for the entire workweek, employed “by” such establishment, if no more than five employees are “employed in the establishment in such operations”, and if the “area of production” requirement is met.

§ 780.723 Exempt and nonexempt employment.

Under section 13(b)(14), where an employee, for part of his workweek, is employed “by” an “exempt” establishment (one commonly recognized as a country elevator which has five employees or less employed in the establishment in such operations in that workweek) and the employee is, in his employment by the establishment, employed “within the area of production” as defined by the regulations, but in the remainder of the workweek is employed by his employer in an establishment or in activities not within this or another exemption provided by the Act, in the course of which he performs any work to which the Act applies, the employee is, not exempt for any part of that workweek (see Mitchell v. Hunt, 263 F. 2d 913; Walalua v. Maneja, 77 F. Supp. 480; Walling v. Peacock Corp., 58 F. Supp. 880; McComb v. Puerto Rico Tobacco Marketing Co-op. Ass’n, 181 F. 2d 697).

§ 780.724 Work exempt under another section of the Act.

Where an employee’s employment during part of his workweek would qualify for exemption under section 13(b)(14) if it continued throughout the workweek, and the remainder of his workweek is spent in employment which, if it continued throughout the workweek, would qualify for exemption under another section or sections of the Act, the exemptions may be combined (see Remington v. Shaw (W.D. Mich.) 2 WH Cases 262). The employee, however, qualifies for exemption only to the extent of the exemption which is more limited in scope (see Mitchell v. Hunt, 263 F. 2d 913). For example, if part of the work is exempt from both minimum wage and overtime compensation under one section of the Act and the rest is exempt only from the overtime pay provisions under another section, the employee is exempt that week from the overtime provisions, but not from the minimum wage requirements. In this connection, attention is directed to another exemption in the Act which relates to work in grain elevators, which may apply in appropriate circumstances, either in combination with section 13(b)(14) or to employees for whom the requirements of section 13(b)(14) cannot be met. This other exemption is that provided by section 7(c), Section 7(c), which is discussed in part 526 of this chapter, provides a limited overtime exemption for employees employed in the seasonal industry of storing grain in country grain elevators, public terminal and sub-terminal elevators, wheat flour mills, nonelevator bulk storing establishments and flat warehouses, §526.10(b)(14) of this chapter.

Subpart I—Employment in Ginning of Cotton and Processing of Sugar Beets, Sugar-Beet Molasses, Sugarcane, or Maple Sap into Sugar or Syrup; Exemption from Overtime Pay Requirements Under Section 13(b)(15)

INTRODUCTORY

§ 780.800 Scope and significance of interpretative bulletin.

Subpart A of this part 780 and this subpart I constitute the official interpretative bulletin of the Department of Labor with respect to the meaning and application of section 13(b)(15) of the Fair Labor Standards Act of 1938, as
§ 780.805 Amendments. This section provides an exemption from the overtime pay provisions of the Act for two industries (a) for employees engaged in ginning of cotton for market in any place of employment located in a county where cotton is grown in commercial quantities and (b) for employees engaged in the processing of sugar beets, sugar-beet molasses, sugarcane or maple sap, into sugar (other than refined sugar) or syrup. The limited overtime exemptions provided for cotton ginning and for sugar processing under sections 7(c) and 7(d) (see part 526 of this chapter) are not discussed in this subpart.

§ 780.801 Statutory provisions.

Section 13(b)(15) of the Fair Labor Standards Act exempts from the overtime requirements of section 7:

Any employee engaged in ginning of cotton for market in any place of employment located in a county where cotton is grown in commercial quantities, or in the processing of sugar beets, sugar-beet molasses, sugarcane, or maple sap, into sugar (other than refined sugar) or syrup.

Section 13(b)(15) supplants two exemptions that were contained in the Act prior to the Fair Labor Standards Amendments of 1966. The first is former section 13(a)(18), having identical language, which provided a complete exemption for those employed in the ginning of cotton. The second is the former section 7(c) which provided an overtime exemption for the employees of an employer engaged in sugar processing operations resulting in unrefined sugar or syrup.

§ 780.802 What determines application of the exemption.

It is apparent from the language of section 13(b)(15) that the application of this exemption depends upon the nature and purpose of the work performed by the individual employee for whom exemption is sought, and in the case of ginning of cotton on the location of the place of employment where the work is done and other factors as well. It does not depend upon the character of the business of the employer. A determination of whether an employee is exempt therefore requires an examination of that employee’s duties. Some employees of the employer may be exempt while others may not.

§ 780.803 Basic conditions of exemption; first part, ginning of cotton.

Under the first part of section 13(b)(15) of the Act, the ginning of cotton, all the following conditions must be met in order for the exemption to apply to an employee:

(a) He must be “engaged in ginning.”
(b) The commodity ginned must be cotton.
(c) The ginning of the cotton must be “for market.”
(d) The place of employment in which this work is done must be “located in a county where cotton is grown in commercial quantities.” The following sections discuss the meaning and application of these requirements.

§ 780.804 “Ginning” of cotton.

The term “ginning” refers to operations performed on “seed cotton” to separate the seeds from the spinnable fibers. (Moore v. Farmer’s Manufacturing and Ginning Co., 51 Ariz., 378, 77 F. 2d 209; Frazier v. Stone, 171 Miss. 56, 156 So. 596). “Seed cotton” is cotton in its natural state (Burchfield v. Tanner, 142 Tex. 404, 178 S.W. 2d 681, 683) and the ginning to which section 13(b)(15) refers is the “first processing” of this agricultural commodity (107 Cong. Rec. (daily ed.) p. 5987), which converts it into the marketable product commonly known as “lint cotton” (Wirtz v. Southern Pickery Inc. (W.D. Tenn.) 278 F. Supp. 729; Mangan v. State, 76 Ala. 60, 66) by removing the seed from the lint and then pressing and wrapping the lint into bales.

§ 780.805 Ginning of “cotton.”

Only the ginning of “cotton” is within the first part of the exemption. An employee engaged in ginning of moss, for example, would not be exempt. The reconditioning of cotton waste resulting from spinning or oil mill operations is not included, since such waste is not the agricultural commodity in its natural state for whose first processing the exemption was provided. (See 107 Cong. Rec. (daily ed.) p. 5987.) The “cotton,” “seed cotton,” and “lint
