

## § 1953.2

### § 1953.2 Definitions.

(a) *OSHA* means the Assistant Secretary of Labor for Occupational Safety and Health, or any representative authorized to perform any of the functions discussed in this part, as set out in implementing Instructions.

(b) *State* means an authorized representative of the agency designated to administer a State plan under § 1902.3(b) of this chapter.

(c) *Plan change* means any modification made by a State to its approved occupational safety and health State plan which has an impact on the plan's effectiveness.

(d) *Plan supplement* means all documents necessary to accomplish, implement, describe and evaluate the effectiveness of a change to a State plan which differs from the parallel Federal legislation, regulation, policy or procedure. (This would include a copy of the complete legislation, regulation, policy or procedure adopted; an identification of each of the differences; and an explanation of how each provision is at least as effective as the comparable Federal provision.)

(e) *Identical plan change* means one in which the State adopts the same program provisions and documentation as the Federal program with the only differences being those modifications necessary to reflect a State's unique structure (e.g., organizational responsibility within a State and corresponding titles or internal State numbering system). *Different plan change* means one in which the State adopts program provisions and documentation that are not identical as defined in this paragraph.

(g) *Developmental change* is a change made to a State plan which documents the completion of a program component which was not fully developed at the time of initial plan approval.

(h) *Federal program change* is a change made to a State plan when OSHA determines that an alteration in the Federal program could render a State program less effective than OSHA's if it is not similarly modified.

(i) *Evaluation change* is a change made to a State plan when evaluations of a State program show that some substantive aspect of a State plan has an adverse impact on the implementa-

## 29 CFR Ch. XVII (7-1-10 Edition)

tion of the State's program and needs revision.

(j) *State-initiated change* is a change made to a State plan which is undertaken at a State's option and is not necessitated by Federal requirements.

### § 1953.3 General policies and procedures.

(a) *Effectiveness of State plan changes under State law.* Federal OSHA approval of a State plan under section 18(b) of the OSH Act in effect removes the barrier of Federal preemption, and permits the State to adopt and enforce State standards and other requirements regarding occupational safety or health issues regulated by OSHA. A State with an approved plan may modify or supplement the requirements contained in its plan, and may implement such requirements under State law, without prior approval of the plan change by Federal OSHA. Changes to approved State plans are subject to subsequent OSHA review. If OSHA finds reason to reject a State plan change, and this determination is upheld after an adjudicatory proceeding, the plan change would then be excluded from the State's Federally-approved plan.

(b) *Required State plan notifications and supplements.* Whenever a State makes a change to its legislation, regulations, standards, or major changes to policies or procedures, which affect the operation of the State plan, the State shall provide written notification to OSHA. When the change differs from a corresponding Federal program component, the State shall submit a formal, written plan supplement. When the State adopts a provision which is identical to a corresponding Federal provision, written notification, but no formal plan supplement, is required. However, the State is expected to maintain the necessary underlying State document (e.g., legislation or standard) and to make it available for review upon request. All plan change supplements or required documentation must be submitted within 60 days of adoption of the change. Submission of all notifications and supplements may be in electronic format.

(c) *Plan supplement availability.* Copies of all principal documents comprising
