§ 1956.55 [Reserved]

Subpart G—New Jersey

Source: 66 FR 2272, Jan. 11, 2001, unless otherwise noted.

§ 1956.60 Description of the plan as initially approved.

(a) Authority and scope. The New Jersey State Plan for Public Employee Occupational Safety and Health received initial OSHA approval on January 11, 2001. The plan designates the New Jersey Department of Labor as the State agency responsible for administering the plan throughout the State. The plan includes enabling legislation, Public Employees Occupational Safety and Health Act of 1995 (N.J.S.A. 34:6A–25 et seq.), enacted in 1984, and amended on July 25, 1995. Under this legislation, the State Commissioner of Labor has full authority to enforce and administer all laws and rules protecting the safety and health of all employees of the State and its political subdivisions under the Public Employee Occupational Safety and Health program (PEOSH). The Commissioner of Health and Senior Services has authority for occupational health matters including the authority to conduct health inspections, investigations and related activities. However, all standards adoption and enforcement authority for both occupational safety and health remain the responsibility of the New Jersey Department of Labor.

(b) Standards. New Jersey has adopted State standards identical to OSHA occupational safety and health standards promulgated as of December 7, 1998, with differences only in its hazard communication and fire protection standards. The State plan includes a commitment to bring those two (2) standards into conformance with OSHA requirements and to update all standards within one year after plan approval. The State plan also provides that future OSHA standards and revisions will be adopted by the State within six (6) months of Federal promulgation, in accordance with 29 CFR 1953.21. Any emergency temporary standards will be adopted within 30 days of Federal adoption. The State will adopt Federal OSHA standards in accordance with the provisions of New Jersey statute, N.J.S.A. 52:14B–5; Federal standards shall be deemed to be duly adopted as State regulations upon publication by the Commissioner of Labor. The plan also provides for the adoption of alternative or different occupational safety and health standards by the Commissioner of Labor in consultation with the Commissioner of Health and Senior Services, the Commissioner of Community Affairs, and the Public Employee Occupational Safety and Health Advisory Board, where no Federal standards are applicable to the conditions or circumstances or where standards more stringent than the Federal are deemed advisable.

(c) Variances. The plan includes provisions for the granting of permanent and temporary variances from State
