employees bonded automatically, in a blanket penalty which takes two forms—an aggregate penalty bond and a multiple penalty bond which are described below:

(1) The aggregate penalty blanket bond such as the Commercial Blanket Bond; the amount of the bond is available for dishonesty losses caused by persons covered thereunder or losses in which such person is concerned or implicated. Payment of loss on account of any such person does not reduce the amount of coverage available for losses other than those caused by such person or in which he was concerned or implicated.

(2) The multiple penalty bond such as the Blanket Position Bond giving separate coverage on each person for a uniform amount—the net effect being the same as though a separate bond were issued on each person covered thereunder and all of such bonds being for a uniform amount.

NOTE: For the purpose of section 13, blanket bonds which are either aggregate penalty or multiple penalty in form shall be permissible if they otherwise meet the requirements of the Act and the regulations in this part.

Bonding, to the extent required, of persons indirectly employed, or otherwise delegated, to perform functions for the plan which are normally performed by "administrators, officers, or employees" as described in §2580.412–3(d) may be accomplished either by including them under individual or schedule bonds or other forms of bonds meeting the requirements of the Act, or naming them in what is known under general trade usage as an "Agents Rider" attached to a Blanket Bond.

Subpart C—Amount of the Bond

§2580.412–11 Statutory provision.

Section 13 requires that the amount of the bond be fixed at the beginning of each calendar, policy or other fiscal year, as the case may be, which constitutes the reporting year of the plan for purposes of the reporting provisions of the Act. The amount of the bond shall be not less than 10 per centum of the amount of funds handled, except that any such bond shall be in at least the amount of $1,000 and no such bond shall be required in an amount in excess of $500,000: Provided, That the Secretary, after due notice and opportunity for hearing to all interested parties, and after consideration of the record, may prescribe an amount in excess of $500,000, which in no event shall exceed 10 per centum of the funds handled. For purposes of fixing the amount of such bond, the amount of funds handled shall be determined by the funds handled by the person, group, or class to be covered by such bond and by their predecessor or predecessors, if any, during the preceding reporting year, or if the plan has no preceding reporting year, the amount of funds to be handled during the current reporting year by such person, group, or class, estimated as provided in the regulations in this part. With respect to persons required to be bonded, section 13 shall be deemed to require the bond to insure from the first dollar of loss up to the requisite bond amount and not to permit the use of deductible or similar features whereby a portion of the risk within such requisite bond amount is assumed by the insured. Any request for variance from these requirements shall be made pursuant to the provisions of section 13(e) of the Act.

§2580.412–12 Relationship of determining the amount of the bond to "handling".

A determination of whether persons falling within the definition of administrator, officer or employee are required to be bonded depends on whether they "handle" funds or other property. Determining the amount of the bond is an aspect of the same process in that it requires a determination of what funds or other property are being handled or what amounts of funds or other property are subject to risk of loss with respect to the duties or powers of an administrator, officer or employee of a covered plan. Once this calculation is made, the required amount for which that person must be covered by a bond, either by himself or as a part of a group or class being bonded under a blanket or schedule bond, is not less than 10 percent of the amount "handled" or $1,000, whichever is the greater amount, except that no such bond shall be required in an amount
§ 2580.412–13 Greater than $500,000 by virtue of these regulations. (See § 2580.412–17.)

§ 2580.412–13 The meaning of “funds” in determining the amount of the bond.

The amount of the bond depends on the amount of “funds” “handled”, and shall be sufficient to provide bonding protection against risk of loss through fraud or dishonesty for all plan funds, including other property similar to funds or in the nature of funds. As such, the term “funds” shall be deemed to include and be equivalent to “funds and other property” of the plan as described in § 2580.412–4. With respect to any item of “funds or other property” which does not have a cash or readily ascertainable market value, the value of such property may be estimated on such basis as will reasonably reflect the loss the plan might suffer if it were mishandled.

§ 2580.412–14 Determining the amount of funds “handled” during the preceding reporting year.

(a) The amount of funds “handled” by each person falling within the definition of administrator, officer, or employee (or his predecessors) during the preceding reporting year shall be the total of funds subject to risk of loss, within the meaning of the definition of “handling” (see § 2580.412–6), through acts of fraud or dishonesty, directly or in connivance with others, by such person or his predecessors during the preceding reporting year. The relationship of the determination of the amount of funds “handled” to the determination of who is “handling” can best be illustrated by a situation that commonly arises with respect to executive personnel of a plan, where a bank or corporate trustee has the responsibility for the receipt, safekeeping, physical handling and investment of a plan's assets and the basic function of the executive personnel is to authorize payments to beneficiaries and payments for services to the corporate trustee, the actuary and the employees of the plan itself. Normally, in any given year, only a small portion of the plan's total assets is disbursed, and the question arises as to whether an administrator or executive personnel are “handling” only the amounts actually disbursed each year or whether they are “handling” the total amounts of the assets. The answer to this question depends on the same basic criterion that governs all questions of “handling”, namely, the possibility of loss. If the authorized duties of the persons in question are strictly limited to disbursements of benefits and payments for services, and the fiscal controls and practical realities of the situation are such that these persons cannot gain access to funds which they are not legitimately allowed to disburse, the amount on which the bond is based may be limited to the amount actually disbursed in the reporting year. This would depend, in part, on the extent to which the bank or corporate trustee which has physical possession of the funds also has final responsibility for questioning and limiting disbursements from the plan, and on whether this responsibility is embodied in the original plan instruments. On the other hand, where insufficient fiscal controls exist so that the persons involved have free access to, or can obtain control of, the total amount of the fund, the bond shall reflect this fact and the amount “handled” shall be based on the total amount of the fund. This would generally occur with respect to persons such as the “administrator”, regardless of what functions are performed by a bank or corporate trustee, since the “administrator” by definition retains ultimate power to revoke any arrangement with a bank or corporate trustee. In such case, the “administrator” would have the power to commit the total amount of funds involved to his control, unless the plan itself or other specific agreement (1) prevents the “administrator” from so doing or (2) requires that revocation cannot be had unless a new agreement providing for similar controls and limitations on the “handling” of funds is simultaneously entered into.

(b) Where the circumstances of “handling” are such that the total amount of a given account or fund is subject to “handling”, the amount “handled” shall include the total of all such funds on hand at the beginning of the reporting year, plus any items received during the year for any reason.
