somewhere other than in the PBGC’s own regulations (e.g., requirements under the Internal Revenue Code (Title 26, USC)). In meeting those requirements, you should follow any applicable computation-of-time rules under those other requirements. (Subpart A tells you what filing methods you may use for filings with us. Subpart B tells you what methods you may use to issue a notice or otherwise provide information to any person other than us. Subpart C tells you how we determine your filing or issuance date. Subpart E tells you how to maintain required records in electronic form.)

§ 4000.42 What definitions do I need to know for these rules?

You need to know two definitions from § 4001.2 of this chapter: PBGC and person. You also need to know the following definitions:

Business day means a day other than a Saturday, Sunday, or Federal holiday.

We means the PBGC.

You means the person responsible, under our regulations, for the filing or issuance to which these rules apply.

§ 4000.43 How do I compute a time period?

(a) In general. If you are computing a time period to which this part applies, whether you are counting forwards or backwards, the day after (or before) the act, event, or default that begins the period is day one, the next day is day two, and so on. Count all days, including weekends and Federal holidays. However, if the last day you count is a weekend or Federal holiday, extend or shorten the period (whichever benefits you in complying with the time requirement) to the next regular business day. The examples in paragraph (d) of this section illustrate these rules.

(b) When date is designated. In some cases, our regulations designate a specific day as the end of a time period, such as “the last day” of a plan year or “the fifteenth day” of a calendar month. In these cases, you simply use the designated day, together with the weekend and holiday rule of paragraph (a) of this section.

(c) When counting months. If a time period is measured in months, first identify the date (day, month, and year) of the act, event, or default that begins the period. The corresponding day of the following (or preceding) month is one month later (or earlier), and so on. For example, two months after July 15 is September 15. If the period ends on a weekend or Federal holiday, follow the weekend and holiday rule of paragraph (a) of this section. There are two special rules for determining what the corresponding day is when you start counting on a day that is at or near the end of a calendar month:

(1) Special “last-day” rule. If you start counting on the last day of a calendar month, the corresponding day of any calendar month is the last day of that calendar month. For example, a three-month period measured from November 30 ends (if counting forward) on the last day of February (the 28th or 29th) or (if counting backward) on the last day of August (the 31st).

(2) Special February rule. If you start counting on the 29th or 30th of a calendar month, the corresponding day of February is the last day of February. For example, a one-month period measured from January 29 ends on the last day of February (the 28th or 29th).

(d) Examples—(1) Counting backwards. Suppose you are required to file an advance notice of reportable event for a transaction that is effective December 31. Under our regulations, the notice is due at least 30 days before the effective date of the event. To determine your deadline, count December 30 as day 1, December 29 as day 2, December 28 as day 3, and so on. Therefore, December 1 is day 30. Assuming that day is not a weekend or holiday, your notice is timely if you file it on or before December 1.

(2) Weekend or holiday rule. Suppose you are filing a notice of intent to terminate. The notice must be issued at least 60 days and no more than 90 days before the proposed termination date. Suppose the 60th day before the proposed termination date is a Saturday. Your notice is timely if you issue it on the following Monday even though that is only 58 days before the proposed termination date. Similarly, if the 90th day before the proposed termination date is Wednesday, July 4 (a Federal
holiday), your notice is timely if you issue it on Tuesday, July 3, even though that is 91 days before the proposed termination date.

(3) Counting months. Suppose you are required to issue a Participant Notice two months after December 31. The deadline for the Participant Notice is the last day of February (the 28th or 29th). If the last day of February is a weekend or Federal holiday, your deadline is extended until the next day that is not a weekend or Federal holiday.

Subpart E—Electronic Means of Record Retention

§ 4000.51 What are these record retention rules about?

The rules in this subpart E of part 4000 tell you what methods you may use to meet any record retention requirement under our regulations if you choose to use electronic means. The rules for who must retain the records, how long the records must be maintained, and how records must be made available to us are contained in the specific part where the record retention requirement is found. (Subpart A tells you what filing methods you may use for filings with us and how we determine your filing date. Subpart B tells you what methods you may use to issue a notice or otherwise provide information to any person other than us. Subpart C tells you how we determine your filing or issuance date. Subpart D tells you how to compute various periods of time.)

§ 4000.52 What definitions do I need to know for these rules?

You need to know two definitions from § 4001.2 of this chapter: PBGC and person. You also need to know the following definitions:

We means the PBGC.

You means the person subject to the record retention requirement.

§ 4000.53 May I use electronic media to satisfy PBGC’s record retention requirements?

General requirements. You may use electronic media to satisfy the record maintenance and retention requirements of this chapter if:

(a) The electronic recordkeeping system has reasonable controls to ensure the integrity, accuracy, authenticity and reliability of the records kept in electronic form;

(b) The electronic records are maintained in reasonable order and in a safe and accessible place, and in such manner as they may be readily inspected or examined (for example, the recordkeeping system should be capable of indexing, retaining, preserving, retrieving and reproducing the electronic records);

(c) The electronic records are readily convertible into legible and readable paper copy as may be needed to satisfy reporting and disclosure requirements or any other obligation under section 302(f)(4), section 307(e), or Title IV of ERISA;

(d) The electronic recordkeeping system is not subject, in whole or in part, to any agreement or restriction that would, directly or indirectly, compromise or limit a person’s ability to comply with any reporting and disclosure requirement or any other obligation under section 302(f)(4), section 307(e), or Title IV of ERISA;

(e) Adequate records management practices are established and implemented (for example, following procedures for labeling of electronically maintained or retained records, providing a secure storage environment, creating back-up electronic copies and selecting an off-site storage location, observing a quality assurance program evidenced by regular evaluations of the electronic recordkeeping system including periodic checks of electronically maintained or retained records; and retaining paper copies of records that cannot be clearly, accurately or completely transferred to an electronic recordkeeping system); and

(f) All electronic records exhibit a high degree of legibility and readability when displayed on a video display terminal or other method of electronic transmission and when reproduced in paper form. The term “legibility” means the observer must be able to identify all letters and numerals positively and quickly to the exclusion of all other letters or numerals. The term “readability” means that the observer must be able to recognize a
