

### **Title 3—The President**

You are hereby authorized and directed to transmit this determination to the Congress, accompanied by a report in accordance with section 7(a) of the Act, and to publish the determination in the *Federal Register*.

This suspension shall take effect after transmission of this determination and report to the Congress.

BARACK OBAMA

THE WHITE HOUSE,  
*Washington, December 3, 2009.*

#### **Memorandum of December 9, 2009**

### **Medicare Demonstration To Test Medical Homes in Federally Qualified Health Centers**

*Memorandum for the Secretary of Health and Human Services*

My Administration is committed to building a high-quality, efficient health care system and improving access to health care for all Americans. Health centers are a vital part of the health care delivery system. For more than 40 years, health centers have served populations with limited access to health care, treating all patients regardless of ability to pay. These include low-income populations, the uninsured, individuals with limited English proficiency, migrant and seasonal farm workers, individuals and families experiencing homelessness, and individuals living in public housing. There are over 1,100 health centers across the country, delivering care at over 7,500 sites. These centers served more than 17 million patients in 2008 and are estimated to serve more than 20 million patients in 2010.

The American Recovery and Reinvestment Act of 2009 (Recovery Act) provided \$2 billion for health centers, including \$500 million to expand health centers' services to over 2 million new patients by opening new health center sites, adding new providers, and improving hours of operations. An additional \$1.5 billion is supporting much-needed capital improvements, including funding to buy equipment, modernize clinic facilities, expand into new facilities, and adopt or expand the use of health information technology and electronic health records.

One of the key benefits health centers provide to the communities they serve is quality primary health care services. Health centers use interdisciplinary teams to treat the "whole patient" and focus on chronic disease management to reduce the use of costlier providers of care, such as emergency rooms and hospitals.

Federally qualified health centers provide an excellent environment to demonstrate the further improvements to health care that may be offered by the medical homes approach. In general, this approach emphasizes the patient's relationship with a primary care provider who coordinates the patient's care and serves as the patient's principal point of contact for care. The medical homes approach also emphasizes activities related to quality improvement, access to care, communication with patients, and care management and coordination. These activities are expected to improve the quality and efficiency of care and to help avoid preventable emergency and

### Other Presidential Documents

inpatient hospital care. Demonstration programs establishing the medical homes approach have been recommended by the Medicare Payment Advisory Commission, an independent advisory body to the Congress.

Therefore, I direct you to implement a Medicare Federally Qualified Health Center Advanced Primary Care Practice demonstration, pursuant to your statutory authority to conduct experiments and demonstrations on changes in payments and services that may improve the quality and efficiency of services to beneficiaries. Health centers participating in this demonstration must have shown their ability to provide comprehensive, coordinated, integrated, and accessible health care.

This memorandum is not intended to, and does not, create any right or benefit, substantive or procedural, enforceable at law or in equity by any party against the United States, its departments, agencies, or entities, its officers, employees, or agents, or any other person.

You are authorized and directed to publish this memorandum in the *Federal Register*.

BARACK OBAMA

#### Memorandum of December 15, 2009

### Directing Certain Actions With Respect to Acquisition and Use of Thomson Correctional Center To Facilitate Closure of Detention Facilities at Guantanamo Bay Naval Base

*Memorandum for the Secretary of Defense [and] the Attorney General*

By the authority vested in me as President and as Commander in Chief of the Armed Forces of the United States by the Constitution and the laws of the United States of America, including the Authorization for Use of Military Force (Public Law 107-40, 115 Stat. 224), and in order to facilitate the closure of detention facilities at the Guantanamo Bay Naval Base, I hereby direct that the following actions be taken as expeditiously as possible with respect to the facility known as the Thomson Correctional Center (TCC) in Thomson, Illinois:

1. The Attorney General shall acquire and activate the TCC as a United States Penitentiary, which the Attorney General has determined would reduce the Bureau of Prisons' shortage of high security, maximum custody cell space and could be used for other appropriate inmate or detainee management purposes. The Attorney General shall also provide to the Department of Defense a sufficient portion of the TCC to serve as a detention facility to be operated by the Department of Defense in order to accommodate the relocation of detainees by the Secretary of Defense in accordance with paragraph 2 of this memorandum.
