§ 75.214 Supplemental support materials, equipment and tools.
(a) A supply of supplementary roof support materials and the tools and equipment necessary to install the materials shall be available at a readily accessible location on each working section or within four crosscuts of each working section.
(b) The quantity of support materials and tools and equipment maintained available in accordance with this section shall be sufficient to support the roof if adverse roof conditions are encountered, or in the event of an accident involving a fall.

§ 75.215 Longwall mining systems.
For each longwall mining section, the roof control plan shall specify—
(a) The methods that will be used to maintain a safe travelway out of the section through the tailgate side of the longwall; and
(b) The procedures that will be followed if a ground failure prevents travel out of the section through the tailgate side of the longwall.

§ 75.221 Roof control plan information.
(a) The following information shall be included in each roof control plan:
(1) The name and address of the company.
(2) The name, address, mine identification number and location of the mine.
