

## § 250.203

those involved with national security or defense; and

(e) Does not cause undue or serious harm or damage to the human, marine, or coastal environment.

### § 250.203 Where can wells be located under an EP, DPP, or DOCD?

The Regional Supervisor reviews and approves proposed well location and spacing under an EP, DPP, or DOCD. In deciding whether to approve a proposed well location and spacing, the Regional Supervisor will consider factors including, but not limited to, the following:

- (a) Protecting correlative rights;
- (b) Protecting Federal royalty interests;
- (c) Recovering optimum resources;
- (d) Number of wells that can be economically drilled for proper reservoir management;
- (e) Location of drilling units and platforms;
- (f) Extent and thickness of the reservoir;
- (g) Geologic and other reservoir characteristics;
- (h) Minimizing environmental risk;
- (i) Preventing unreasonable interference with other uses of the OCS; and
- (j) Drilling of unnecessary wells.

### § 250.204 How must I protect the rights of the Federal government?

(a) To protect the rights of the Federal government, you must either:

(1) Drill and produce the wells that the Regional Supervisor determines are necessary to protect the Federal government from loss due to production on other leases or units or from adjacent lands under the jurisdiction of other entities (e.g., State and foreign governments); or

(2) Pay a sum that the Regional Supervisor determines as adequate to compensate the Federal government for your failure to drill and produce any well.

(b) Payment under paragraph (a)(2) of this section may constitute production in paying quantities for the purpose of extending the lease term.

(c) You must complete and produce any penetrated hydrocarbon-bearing zone that the Regional Supervisor determines is necessary to conform to sound conservation practices.

## 30 CFR Ch. II (7–1–10 Edition)

### § 250.205 Are there special requirements if my well affects an adjacent property?

For wells that could intersect or drain an adjacent property, the Regional Supervisor may require special measures to protect the rights of the Federal government and objecting lessees or operators of adjacent leases or units.

### § 250.206 How do I submit the EP, DPP, or DOCD?

(a) *Number of copies.* When you submit an EP, DPP, or DOCD to MMS, you must provide:

(1) Four copies that contain all required information (proprietary copies);

(2) Eight copies for public distribution (public information copies) that omit information that you assert is exempt from disclosure under the Freedom of Information Act (FOIA) (5 U.S.C. 552) and the implementing regulations (43 CFR part 2); and

(3) Any additional copies that may be necessary to facilitate review of the EP, DPP, or DOCD by certain affected States and other reviewing entities.

(b) *Electronic submission.* You may submit part or all of your EP, DPP, or DOCD and its accompanying information electronically. If you prefer to submit your EP, DPP, or DOCD electronically, ask the Regional Supervisor for further guidance.

(c) *Withdrawal after submission.* You may withdraw your proposed EP, DPP, or DOCD at any time for any reason. Notify the appropriate MMS OCS Region if you do.

## ANCILLARY ACTIVITIES

### § 250.207 What ancillary activities may I conduct?

Before or after you submit an EP, DPP, or DOCD to MMS, you may elect, the regulations in this part may require, or the Regional Supervisor may direct you to conduct ancillary activities. Ancillary activities include:

(a) Geological and geophysical (G&G) explorations and development G&G activities;

## Minerals Management Service, Interior

## § 250.211

(b) Geological and high-resolution geophysical, geotechnical, archaeological, biological, physical oceanographic, meteorological, socioeconomic, or other surveys; or

(c) Studies that model potential oil and hazardous substance spills, drilling muds and cuttings discharges, projected air emissions, or potential hydrogen sulfide (H<sub>2</sub>S) releases.

### § 250.208 If I conduct ancillary activities, what notices must I provide?

At least 30 calendar days before you conduct any G&G exploration or development G&G activity (see § 250.207(a)), you must notify the Regional Supervisor in writing.

(a) When you prepare the notice, you must:

- (1) Sign and date the notice;
- (2) Provide the names of the vessel, its operator, and the person(s) in charge; the specific type(s) of operations you will conduct; and the instrumentation/techniques and vessel navigation system you will use;
- (3) Provide expected start and completion dates and the location of the activity; and
- (4) Describe the potential adverse environmental effects of the proposed activity and any mitigation to eliminate or minimize these effects on the marine, coastal, and human environment.

(b) The Regional Supervisor may require you to:

- (1) Give written notice to MMS at least 15 calendar days before you conduct any other ancillary activity (see § 250.207(b) and (c)) in addition to those listed in § 250.207(a); and
- (2) Notify other users of the OCS before you conduct any ancillary activity.

### § 250.209 What is the MMS review process for the notice?

The Regional Supervisor will review any notice required under § 250.208(a) and (b)(1) to ensure that your ancillary activity complies with the performance standards listed in § 250.202(a), (b), (d), and (e). The Regional Supervisor may notify you that your ancillary activity does not comply with those standards. In such a case, the Regional Supervisor will require you to submit an EP, DPP, or DOCD and you may not start your

ancillary activity until the Regional Supervisor approves the EP, DPP, or DOCD.

### § 250.210 If I conduct ancillary activities, what reporting and data/information retention requirements must I satisfy?

(a) *Reporting.* The Regional Supervisor may require you to prepare and submit reports that summarize and analyze data or information obtained or derived from your ancillary activities. When applicable, MMS will protect and disclose the data and information in these reports in accordance with § 250.197(b).

(b) *Data and information retention.* You must retain copies of all original data and information, including navigation data, obtained or derived from your G&G explorations and development G&G activities (see § 250.207(a)), including any such data and information you obtained from previous leaseholders or unit operators. You must submit such data and information to MMS for inspection and possible retention upon request at any time before lease or unit termination. When applicable, MMS will protect and disclose such submitted data and information in accordance with § 250.197(b).

[70 FR 51501, Aug. 30, 2005, as amended at 72 FR 25200, May 4, 2007]

## CONTENTS OF EXPLORATION PLANS (EP)

### § 250.211 What must the EP include?

Your EP must include the following:

(a) *Description, objectives, and schedule.* A description, discussion of the objectives, and tentative schedule (from start to completion) of the exploration activities that you propose to undertake. Examples of exploration activities include exploration drilling, well test flaring, installing a well protection structure, and temporary well abandonment.

(b) *Location.* A map showing the surface location and water depth of each proposed well and the locations of all associated drilling unit anchors.

(c) *Drilling unit.* A description of the drilling unit and associated equipment you will use to conduct your proposed exploration activities, including a brief description of its important safety and
