§ 285.610 What must I include in my SAP?

You must include the following information, as applicable.

(a) For all activities you propose to conduct under your SAP, you must provide the following information:

(5) Uses best available and safest technology;

(6) Uses best management practices; and

(7) Uses properly trained personnel.

(b) You must also demonstrate that your site assessment activities will collect the necessary information and data required for your COP, as provided in § 285.626(a).

§ 285.607 How do I submit my SAP?

You must submit one paper copy and one electronic version of your SAP to MMS at the address listed in §285.110(a).

§§ 285.608–285.609 [Reserved]
(b) You must provide the results of geophysical and geological surveys, hazards surveys, archaeological surveys (if required), and baseline collection studies (e.g., biological) with the supporting data in your SAP:
<table>
<thead>
<tr>
<th></th>
<th></th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>(1) Geotechnical.</td>
<td>The results from the geotechnical survey with supporting data.</td>
<td>A description of all relevant seabed and engineering data and information to allow for the design of the foundation for that facility. You must provide data and information to depths below which the underlying conditions will not influence the integrity or performance of the structure. This could include a series of sampling locations (borings and in situ tests) as well as laboratory testing of soil samples, but may consist of a minimum of one deep boring with samples.</td>
</tr>
<tr>
<td>(2) Shallow hazards.</td>
<td>The results from the shallow hazards survey with supporting data.</td>
<td>A description of information sufficient to determine the presence of the following features and their likely effects on your proposed facility, including: (i) Shallow faults; (ii) Gas seeps or shallow gas; (iii) Slump blocks or slump sediments; (iv) Hydrates; and (v) Ice scour of seabed sediments.</td>
</tr>
<tr>
<td>(3) Archaeological resources.</td>
<td>The results from the archaeological survey with supporting data, if required.</td>
<td>(i) A description of the results and data from the archaeological survey; (ii) A description of the historic and prehistoric archaeological resources, as required by the National Historic Preservation Act (NHPA) of 1966, as amended.</td>
</tr>
<tr>
<td>(4) Geological survey.</td>
<td>The results from the geological survey with supporting data.</td>
<td>A report that describes the results of a geological survey that includes descriptions of: (i) Seismic activity at your proposed site; (ii) Fault zones; (iii) The possibility and effects of seabed subsidence; and (iv) The extent and geometry of faulting attenuation effects of geologic conditions near your site.</td>
</tr>
<tr>
<td>(5) Biological survey.</td>
<td>The results from the biological survey with supporting data.</td>
<td>A description of the results of a biological survey, including descriptions of the presence of live bottom; hard bottoms; topographic features; and surveys of other marine resources such as fish populations (including migratory populations), marine mammals, sea turtles, and sea birds.</td>
</tr>
</tbody>
</table>

(c) If you submit your COP or FERC license application with your SAP then:
(1) You must provide sufficient data and information with your COP or FERC license application for MMS and/or FERC to complete the needed reviews and NEPA analysis.
(2) You may need to revise your COP or FERC license application and MMS...
and/or FERC may need to conduct additional reviews, including NEPA analysis, if new information becomes available after you complete your site assessment activities.

§ 285.611 What information must I submit with my SAP to assist MMS in complying with NEPA and other relevant laws?

(a) You must submit with your SAP detailed information to assist MMS in complying with NEPA and other relevant laws, as appropriate. For a non-competitive commercial lease, you must submit a SAP that describes those resources, conditions, and activities listed in the following table that could be affected by your proposed activities, or that could affect the activities proposed in your SAP.

(b) For competitively issued commercial leases, MMS will have prepared a NEPA document and consistency determination for the lease sale and site assessment activities. However, if you submit a SAP that shows changes in impacts from those identified in the NEPA document or consistency determination prepared for the lease, MMS may determine that your SAP is subject to a new NEPA/CZMA and other relevant Federal reviews. In that case, MMS will notify you of the determination, and you must submit a SAP that describes those resources, conditions, and activities listed in the following table that could be affected by your proposed activities, or that could affect the activities proposed in your SAP, including:
