

(2) The regulatory authority will process your application and may issue the permit before you obtain all necessary authorizations and certifications under the Clean Water Act, 33 U.S.C. 1251 *et seq.*, provided your application meets all applicable requirements of subchapter G of this chapter. However, issuance of a permit does not authorize you to initiate any activities for which Clean Water Act authorization or certification is required. Information submitted and analyses conducted under subchapter G of this chapter may inform the agency responsible for authorizations and certifications under sections 401, 402, and 404 of the Clean Water Act, 33 U.S.C. 1341, 1342, and 1344, but they are not a substitute for the reviews, authorizations, and certifications required under those sections of the Clean Water Act.

[73 FR 75881, Dec. 12, 2008]

§ 784.29 Diversions.

Each application shall contain descriptions, including maps and cross sections, of stream channel diversions and other diversions to be constructed within the proposed permit area to achieve compliance with §817.43 of this chapter.

[44 FR 15366, Mar. 13, 1979. Redesignated and amended at 48 FR 43989, Sept. 26, 1983]

§ 784.30 Support facilities.

Each applicant for an underground coal mining and reclamation permit shall submit a description, plans, and drawings for each support facility to be constructed, used, or maintained within the proposed permit area. The plans and drawings shall include a map, appropriate cross sections, design drawings, and specifications sufficient to demonstrate compliance with §817.181 of this chapter for each facility.

[53 FR 45211, Nov. 8, 1988]

§ 784.200 Interpretive rules related to General Performance Standards.

The following interpretation of rules promulgated in part 784 of this chapter have been adopted by the Office of Surface Mining Reclamation and Enforcement.

(a) *Interpretation of §784.15: Reclamation plan: Postmining land uses.* (1) The

requirements of §784.15(a)(2), for approval of an alternative postmining land use, may be met by requesting approval through the permit revision procedures of §774.13 rather than requesting such approval in the original permit application. The original permit application, however, must demonstrate that the land will be returned to its premining land use capability as required by §817.133(a). An application for a permit revision of this type, (i) must be submitted in accordance with the filing deadlines of §774.13, (ii) shall constitute a significant alteration from the mining operations contemplated by the original permit, and (iii) shall be subject to the requirements of 30 CFR parts 773 and 775.

(b) [Reserved]

[45 FR 64908, Oct. 1, 1980, as amended at 48 FR 44780, Sept. 30, 1983]

PART 785—REQUIREMENTS FOR PERMITS FOR SPECIAL CATEGORIES OF MINING

Sec.

785.1 Scope.

785.2 Objective.

785.10 Information collection.

785.11 Anthracite surface coal mining and reclamation operations.

785.12 Special bituminous surface coal mining and reclamation operations.

785.13 Experimental practices mining.

785.14 Mountaintop removal mining.

785.15 Steep slope mining.

785.16 Permits incorporating variances from approximate original contour restoration requirements for steep slope mining.

785.17 Prime farmlands.

785.18 Variances for delay in contemporaneous reclamation requirement in combined surface and underground mining activities.

785.19 Surface coal mining and reclamation operations on areas or adjacent to areas including alluvial valley floors in the arid and semi-arid areas west of the 100th meridian.

785.20 Augering.

785.21 Coal preparation plants not located within the permit area of a mine.

785.22 In situ processing activities.

785.25 Lands eligible for re-mining.
