

§ 29.335 Refunded service.

(a) Periods of civilian service that were subject to retirement deductions but for which the deductions were refunded to the employee are creditable for Federal Benefit Payments if the re-deposit for the service was paid in full to the District government as of June 30, 1997.

(b) No credit is allowed for Federal Benefit Payments for any period of civilian service that was subject to retirement deductions but for which the deductions were refunded to the employee if the re-deposit for the service was not paid in full to the District government as of June 30, 1997.

CALCULATION OF THE AMOUNT OF
FEDERAL BENEFIT PAYMENTS

§ 29.341 General principle.

Except for disability retirements after June 30, 1997, and certain death benefits based on deaths after June 30, 1997, in which the calculation is not based upon length of service (see § 29.344); for cases in which some service is creditable on or before June 30, 1997, and some service is creditable after June 30, 1997, Federal Benefit Payments are computed under the rules of the applicable plan as though—

(a) The employee were eligible to retire effective July 1, 1997, under the same conditions as the actual retirement (that is, using the annuity computation formula that applies under the plan in effect on June 29, 1997, and the actual retirement age, including any applicable age reduction, based on the age at actual retirement);

(b) The service that became creditable after June 30, 1997, did not exist; and

(c) The average salary is the average salary at separation.

NOTE TO § 29.341: See examples 7B, 9, and 13 of appendix A of this subpart.

§ 29.342 Computed annuity exceeds the statutory maximum.

(a) In cases in which the total computed annuity exceeds the statutory maximum:

(1) Federal Benefit Payments may equal total benefits even if the employee had service after June 30, 1997.

(2) If the employee had sufficient service as of June 30, 1997, to qualify for the maximum annuity under the plan, the Federal Benefit Payment is the maximum annuity under the plan. This will be the entire benefit except for any amount in excess of the normal maximum due to unused sick leave, which is the responsibility of the District. (See example 3, of appendix A of this subpart.)

(b) If the employee did not perform sufficient service as of June 30, 1997, to reach the statutory maximum benefit, but has sufficient service at actual retirement to exceed the statutory maximum, the Federal Benefit Payment is the amount earned through June 30, 1997. The non-Federal-Benefit-Payment portion of the total benefit consists of only the amount by which the total benefit payable exceeds the Federal Benefit Payment.

§ 29.343 Disability benefits.

(a) The general rule that Federal Benefit Payments are calculated under the applicable retirement plan as though the employee were eligible for optional retirement and separated on June 30, 1997, does not apply to disability benefits prior to optional retirement age.

(b) In cases involving disability benefits prior to optional retirement age, no Federal Benefit Payment is payable until the retiree reaches the age of eligibility to receive a deferred annuity (age 55 under the Police and Firefighters Plan and age 62 under the Teachers Plan). When the age for deferred annuity is reached, the Federal Benefit Payment is paid using creditable service accrued as of June 30, 1997, and average salary (computed under the rules for the applicable plan) as of the date of separation. (See examples 6 and 7 of appendix A of this subpart.)

§ 29.344 Survivor benefits.

(a) The general rule that Federal Benefit Payments are calculated under the applicable retirement plan as though the employee were eligible for optional retirement and separated on June 30, 1997, does not apply to death benefits that are not determined by length of service.

§ 29.345

(b) In cases in which the amount of death benefits is not determined by length of service, the amount of Federal Benefit Payments is calculated by multiplying the amount of the total benefit payable by the number of full months of service through June 30, 1997, and then dividing by the number of months of total service at retirement (for elected survivor benefits) or death (for guaranteed-minimum death-in-service survivor benefits). (See example 13 of appendix A of this subpart.)

§ 29.345 Cost-of-living adjustments.

Cost-of-living increases are applied directly to Federal Benefit Payments, rather than computed on the total benefit and then prorated. (See example 14 of appendix A of this subpart.)

§ 29.346 Reduction for survivor benefits.

(a) If a retiree designates a base for a survivor annuity that is greater than or equal to the unreduced Federal Benefit Payment, the applicable plan's annuity reduction formula is applied to the unreduced Federal Benefit Payment to determine the reduced Federal Benefit Payment. (See example 10 of appendix A of this subpart.)

(b) If a retiree designates a base for a survivor annuity that is less than the amount of the Federal Benefit Payment, the entire survivor reduction applies to the Federal Benefit Payment to determine the reduced Federal Benefit Payment.

**APPENDIX A TO SUBPART C OF PART 29—
EXAMPLES**

This appendix contains sample calculations of Federal Benefit Payments in a variety of situations.

OPTIONAL RETIREMENT EXAMPLES

EXAMPLE 1: NO UNUSED SICK LEAVE

A. In this example, an individual covered by the Police and Firefighters Plan hired before 1980 retires in October 1997. At retirement, he is age 51 with 20 years and 3 days of departmental service plus 3 years, 4 months, and 21 days of military service that preceded the departmental service. The Federal Benefit Payment begins at retirement. It is based on the 19 years, 8 months, and 22 days of departmental service and 3 years, 4 months, and 21 days of military service performed as of June 30, 1997. Thus, the Federal

31 CFR Subtitle A (7-1-10 Edition)

Benefit Payment is based on 23 years and 1 month of service, all at the 2.5 percent accrual rate. The total annuity is based on 23 years and 4 months of service, all at the 2.5 percent accrual rate.

**EXAMPLE 1A—POLICE OPTIONAL
[Pre-80 hire]**

Total Annuity Computation

Birth date: 09/10/46
Hire date: 10/09/77
Separation date: 10/11/97
Department service: 20/00/03
Other service: 03/04/21
Sick leave:
.025 service: 23.333333
.03 service:
Average salary: \$45,680.80
Total: \$26,647.12
Total/month: \$2,221.00

Federal Benefit Payment Computation

Birth date: 9/10/46
Hire date: 10/09/77
Freeze date: 06/30/97
Department service: 19/08/22
Other service: 03/04/21
Sick leave:
.025 service: 23.083333
.03 service:
Average salary: \$45,680.80
Total: \$26,361.61
Total/month: \$2,197.00

B. In this example, the individual covered by the Police and Firefighters Plan was hired earlier than in example 1A and thus performed more service as of both June 30, 1997, and retirement in October 1997. At retirement, he is age 51 with 21 years, 11 months and 29 days of departmental service plus 3 years, 4 months, and 21 days of military service that preceded the departmental service. The Federal Benefit Payment begins at retirement. It is based on the 21 years, 8 months, and 18 days of departmental service and 3 years, 4 months, and 21 days of military service performed as of June 30, 1997. Thus, the Federal Benefit Payment is based on 25 years and 1 month of service, 1 year and 8 months at the 3.0 percent accrual rate and 23 years and 5 months at the 2.5 percent accrual rate (including 1 month consisting of 18 days of departmental service and 21 days of other service). The total annuity is based on 25 years and 4 months of service, 1 year and 11 months at the 3.0 percent accrual rate and 23 years and 5 months at the 2.5 percent accrual rate (including 1 month consisting of 29 days of departmental service and 21 days of other service).
