§ 205.21 When may clearance patterns be used?

(a) A State may develop a clearance pattern for:

1. An individual Federal assistance program;
2. A logical group of Federal assistance programs that have the same disbursement method and type of payee;
3. A bank account;
4. A specific type of payment, such as payroll or vendor payments; or
5. Anything that is agreed upon by us and a State. If a clearance pattern is used for multiple Federal assistance programs, a State must apply the clearance pattern separately to each Federal assistance program when scheduling funds transfers or calculating interest.

(b) As set forth in §205.9, a Treasury-State agreement must include the method a State uses to develop and maintain clearance patterns.

§ 205.22 How are accurate clearance patterns maintained?

(a) If a State has knowledge, at any time, that a clearance pattern no longer reflects a Federal assistance program’s actual clearance activity, or if a Federal assistance program undergoes operational changes that may affect clearance activity, the State must notify us, develop a new clearance pattern, and certify that the new pattern corresponds to the Federal assistance program’s clearance activity. Clearance patterns will remain in effect until a new clearance pattern is certified.

(b) An authorized State official must certify that a clearance pattern corresponds to the clearance activity of the Federal assistance program to which it is applied. An authorized State official must re-certify the accuracy of a clearance pattern at least every five years. If a State develops a clearance pattern for a bank account or a specific type of payment, or on another basis, as set forth in §205.21, we may prescribe other requirements for re-certifying the accuracy of the clearance pattern. A State can begin to use a new clearance pattern on the date the new clearance pattern is certified.

§ 205.23 What requirements apply to estimates?

The following requirements apply when we and a State negotiate a mutually agreed upon funds transfer procedure based on an estimate of the State’s immediate cash needs:

(a) The State must ensure that the estimate reasonably represents the flow of Federal funds under the Federal assistance program or program component to which the estimate applies. The estimate must take into account seasonal or other periodic variations in activity throughout the period for which the Federal funds are available.

(b) As set forth in §§205.9 and 205.10, a Treasury-State agreement must include the method a State uses to develop, maintain, and document the estimate.

§ 205.24 How are accurate estimates maintained?

(a) If a State has knowledge that an estimate does not reasonably correspond to the State’s cash needs for a Federal assistance program or program component, or if a Federal assistance program undergoes operational
changes that may affect cash needs, the State must immediately notify us in writing. We and the State will amend the funding technique provisions in the Treasury-State agreement or take other mutually agreed upon corrective action.

(b) When estimates are properly updated and applied, a State or Federal interest liability may or may not accrue, depending on the terms of the Treasury-State agreement.

(c) We may require a State to justify in writing that it is not feasible to use a more efficient basis for determining the amount of funds to be transferred under the Federal assistance program or program component to which an estimate is applied. We may prescribe requirements for certifying the reasonableness of an estimate.

§ 205.25 How does this part apply to certain Federal assistance programs or funds?

(a) Special rules apply to certain Federal assistance programs or funds described in this section. To the extent the provisions of this section are inconsistent with other provisions of this part, this section applies.

(b) A State’s interest liability on funds withdrawn from its account in the UTF equals the actual interest earned on such funds less the related banking costs. Actual interest earned does not include non-cash bank earnings. If funds withdrawn from the State account in the UTF are commingled with other funds, a proportionate share of interest earnings and banking costs must be allocated to the funds withdrawn from the State account. Interest liabilities on funds withdrawn from a Federal account in the UTF, except the Federal Unemployment Account, are calculated in accordance with §205.19.

(c) Supplemental Security Income. (1) Except as provided in 42 U.S.C. 1382e(d), the Federal government incurs an interest liability from the day State funds are credited to the Federal government’s account to the day a Federal Program Agency pays out the State funds for Federal assistance program purposes. A State incurs an interest liability from the day a Federal Program Agency pays out Federal funds for Federal assistance program purposes to the day State funds are credited to the Federal government’s account.

(2) Interest liability must be calculated on the difference between a State’s monthly Supplemental Security Income payment and the State’s actual liability for the month.

(3) The Federal government will not incur interest liabilities on refunds of State funds under the Supplemental Security Income Program.

(4) Administrative fees charged by the Social Security Administration to States under the Supplemental Security Income program are not subject to this part.

(5) Supplemental State payments made in conjunction with Supplemental Security Income are not subject to this part.

(d) Funds collected under the Child Support Enforcement Program. (1) Funds collected by States from absent parents pursuant to Title IV-D of the Social Security Act are not subject to this part.

(2) Interest earned by States on undistributed collections must be treated as Federal assistance program income under 45 CFR 304.50(b) and is not subject to this part.

(3) Late payment fees collected by States from absent parents are not subject to interest liabilities under this part and are not subject to this part. However, such fees must be treated as Federal assistance program income in accordance with 45 CFR 302.75(b)(6).

(e) A State that earns interest on Special Supplemental Food Program for Women, Infants, and Children rebates is not subject to interest liability if the funds earned are used for Federal assistance program purposes.

(f) Revolving Loan Funds. (1) This part applies to any transfer of funds from the Federal Program Agency to the State for the Revolving Loan Fund.

(2) This part does not apply to interest a State earns on Revolving Loan Funds when Federal Program Agency regulations require that all interest earned on invested funds be used for Federal assistance program purposes.

§ 205.26 What are the requirements for preparing Annual Reports?

(a) A State must submit to us an Annual Report accounting for State and
