

§ 206.3

related to U.S. savings bonds, notes, and other savings-type securities, and payments of service fees to organizations qualified to issue and/or redeem savings bonds.

Point-of-sale (POS) terminal means an automated credit card or debit card transaction device.

Presumed EFT means that agencies will presume that new payment recipients will elect EFT as the means of payment delivery. Enrollment forms for use in establishing routine payments will be designed with this approach in mind, to obtain the required written consent of the recipient.

Recipient means a person, corporation, or other public or private entity receiving benefit or nonbenefit payments from the Government.

Same-day deposit means a deposit made before the cutoff time on the day on which the funds were received by an agency. For example, if an agency receives funds for deposit at 10 a.m. on Monday and transmits the deposits by 2 p.m. on Monday (the depository's cutoff time), then a same-day deposit has been achieved.

Service means the Financial Management Service, Department of the Treasury.

Treasury Financial Manual (TFM) means the manual issued by the Service containing procedures to be observed by all Government departments and agencies in relation to central accounting, financial reporting, and other Governmentwide fiscal responsibilities of the Department of the Treasury. Volume I, Chapter 6-8000 (I TFM 6-8000) contains agency cash management procedures to be followed pertaining to these regulations.

Copies of the TFM are available free to Government agencies. Others who are interested in ordering a copy may call (202) 208-1819 or write the Directives Management Branch, Financial Management Service, Department of the Treasury, Liberty Center (UCP-741), Washington, DC 20227 for further information.

§ 206.3 Billing policy and procedures.

The billing process is considered an integral part of an effective cash management collection program. In those situations where bills are required and

31 CFR Ch. II (7-1-10 Edition)

the failure to bill would affect the cash flow, bills will be prepared and transmitted within 5 business days after goods have been shipped or released, services have been rendered, or payment is otherwise due. An agency may prepare and transmit bills later than the 5-day timeframe if it can demonstrate that it is cost-effective to do so. In addition, the bill must include the terms and dates of payments, and late payment provisions, if applicable. Terms and dates of payments will be consistent with industry practices. I TFM 6-8000 describes detailed billing policies, procedures, and industry standards for agencies.

§ 206.4 Collection and payment mechanisms.

(a) All funds are to be collected and disbursed by EFT when cost-effective, practicable, and consistent with current statutory authority.

(b) Collections and payments will be made by EFT when cost-effective, practicable, and consistent with current statutory authority. When consistent with these criteria, specific cash flows will utilize EFT as follows:

(1) *Fees/fines*. EFT will be adopted as the presumed method of collecting fees and fines, especially when these collection cash flows are recurring or of large dollar amounts.

(2) *Tax collections*. EFT will be adopted as the primary method for collecting taxes. EFT mechanisms may include ACH credit or debit cards.

(3) *Salary payment*. Presumed EFT will be adopted as the method for paying employees, and entrance enrollment forms for establishing regular payments will be designed to use this approach.

(4) *Vendor and miscellaneous payments*. Each department and agency will exercise its authority under the Federal Acquisition Regulation to require that all contractors are paid by EFT, unless a determination is made that it is not in the best interest of the Federal Government to do so. EFT will be adopted as the standard method of payment for all Federal program payments originated by agencies or their agents.

(5) *Benefit payments*. EFT will be presented to new beneficiaries as the presumed method for receiving benefits.

Fiscal Service, Treasury

§ 206.6

EFT payment methods, such as Electronic Benefit Transfer, will be adopted and implemented to make EFT accessible to all benefit recipients.

(c)(1) Selection of the best collection and payment mechanism is a joint responsibility of an agency and the Service. An agency has responsibility for conducting cash management reviews; gathering volume and dollar data relative to the operation of the systems; and funding any implementation and operational costs above those normally funded by Treasury. The Service is the required approval authority when an agency desires to convert from one collection mechanism to another. The Service's written approval is required prior to an agency entering into new contractual agreements or renewing existing contracts for agency collections or payments systems. Agencies will follow guidelines for the cost-effective usage of collection and payment mechanisms, published in the TFM, Volume I, Part 6-8000, in their selection and recommendation to the Service of an appropriate funds transfer mechanism. The agency will provide the Service with a recommended mechanism for any new or modified cash flows. The Service will review the recommendations, approve a mechanism, and assist with implementation.

(2) If an agency proposes a collection or payment mechanism other than EFT, it may be required to provide a cost-benefit analysis to justify its use. Cost/benefit analyses must include, at a minimum, known or estimated agency personnel costs, costs of procurement, recurring operational costs, equipment and system implementation and maintenance costs, costs to payment recipients, and costs to remitters. Agencies should consult with Treasury to determine the need to include interest costs associated with float in their computations of benefits and costs.

(d) An agency will require the collection of funds by the agency to be made via EFT and the disbursement of funds by the agency to be made via EFT as a provision of new contractual agreements or renewal of existing contracts that impact agency collection or payment mechanisms, when cost-effective,

practicable, and consistent with current statutory authority.

§ 206.5 Collection and deposit procedure exceptions.

(a) The following collection and deposit timeframe requirements are to be followed in exception cases where EFT mechanisms are not utilized:

(1) An agency will achieve same-day deposit of monies. Where same day deposit is not cost-effective or is impracticable, next day deposit of monies must be achieved except in those cases covered by I TFM 6-8000.

(2) Deposits will be made at a time of the day prior to the depository's specified cutoff time, but as late as possible in order to maximize daily deposit amounts.

(3) When cost-beneficial to the Government, an agency may make multiple deposits.

(b) Any additional exceptions to the above policies are listed in I TFM 6-8000.

§ 206.6 Cash management planning and review.

(a) An agency shall periodically perform cash management reviews to identify areas needing improvement.

(b) As part of its cash management review process, an agency is expected to document cash flows in order to provide an overview of its cash management activities and to identify areas that will yield savings after cash management initiatives are implemented. The Service will evaluate an agency's EFT policy and application, to include mitigating circumstances that may prevent the use of EFT, as part of the cash management reviews.

(c) An agency's cash management reviews will provide the basis for identification of improvements and preparation of cash flow reports for submission to the Service as prescribed by I TFM 6-8000. That Chapter provides requirements for an agency in performing periodic cash management reviews, identifying improvements, and preparing cash flow reports. In addition, the Chapter describes the timing and content of periodic reports that must be submitted by an agency to the Service on progress made in implementing
