Subpart A—General Information

§ 356.0 What authority does the Treasury have to sell and issue securities?

Chapter 31 of Title 31 of the United States Code authorizes the Secretary of the Treasury to issue United States obligations, and to offer them for sale with the terms and conditions that the Secretary prescribes.

§ 356.1 To which securities does this circular apply?

The provisions in this part, including the appendices, and each individual auction announcement govern the sale and issuance of marketable Treasury securities issued on or after March 1, 1993. This part also governs all securities eligible for the STRIPS (Separate Trading of Registered Interest and Principal of Securities) Program (See § 356.31.). In addition, these provisions and the auction announcements govern any other types of securities we may issue under this part.

31 CFR Ch. II (7–1–10 Edition)

§ 356.2 What definitions do I need to know to understand this part?

Accrued interest means an amount that bidders must pay to us for interest income as part of the settlement amount. Accrued interest compensates us up front for interest that bidders will be paid but did not earn because it is attributable to a period of time prior to the issue date. (See appendix B, section I, paragraph C of this part for additional explanation and examples.)

Adjusted value means, for an interest component stripped from an inflation-protected security, an amount derived by:

(1) Multiplying the semiannual interest rate by the par amount, and then

(2) Multiplying this value by: 100 divided by the Reference CPI of the original issue date (or dated date, when the dated date is different from the original issue date). (See appendix B, section IV of this part for an example of how to calculate the adjusted value.)

Auction means a bidding process by which we sell marketable Treasury securities to the public.

Autocharge agreement means an agreement in a format acceptable to Treasury between a submitter or clearing corporation and a depository institution that authorizes us to:

(1) Deliver awarded securities to the book-entry securities account of a designated depository institution in the commercial book-entry system, and

(2) Charge a funds account of a designated depository institution for the settlement amount of the securities.

Bid means an offer to purchase a stated par amount of securities, either competitively or noncompetitively, in an auction.

Bid-to-cover ratio means the total par amount of securities bid for in an auction divided by the total par amount of securities awarded. It excludes bids by, and awards to, the Federal Reserve for its own account.

Bidder, as further defined in appendix A, means a person or an entity that offers to purchase Treasury securities in an auction either directly or through a depository institution or dealer. We may consider two or more persons or entities to be one bidder based on their relationship or their actions in participating in an auction. We consider a
