

## § 37.570

### ACCOUNTING, PAYMENTS, AND RECOVERY OF FUNDS

#### **§ 37.570 What must I do if a CAS-covered participant accounts differently for its own and the Federal Government shares of project costs?**

(a) If a participant has Federal procurement contracts that are subject to the Cost Accounting Standards (CAS) in part 30 of the Federal Acquisition Regulation (FAR) and the associated FAR Appendix (48 CFR part 30 and 48 CFR 9903.201-1, respectively), you must alert the participant during the pre-award negotiations to the potential for a CAS violation, as well as the cognizant administrative contracting officer (ACO) for the participant's procurement contracts, if you learn that the participant plans to account differently for its own share and the Federal Government's share of project costs under the TIA. This may arise, for example, if a for-profit firm or other organization subject to the FAR cost principles in 48 CFR parts 31 and 231 proposes to charge:

(1) Its share of project costs as independent research and development (IR&D) costs to enable recovery of the costs through Federal Government procurement contracts, as allowed under the FAR cost principles; and

(2) The Federal Government's share to the project, rather than as IR&D costs.

(b) The reason for alerting the participant and the ACO is that the inconsistent charging of the two shares could cause a noncompliance with Cost Accounting Standard (CAS) 402. Non-compliance with CAS 402 is a potential issue only for a participant that has CAS-covered Federal procurement contracts (note that CAS requirements do not apply to a for-profit participant's TIAs).

(c) For for-profit participants with CAS-covered procurement contracts, the cognizant ACO in most cases will be an individual within the Defense Contract Management Agency (DCMA). You can identify a cognizant ACO at the DCMA by querying the contract administration team locator that matches contractors with their ACOs (currently on the World Wide Web at <http://alerts.dcmdw.dema.mil/support>, a

## 32 CFR Ch. I (7-1-10 Edition)

site that also can be accessed through the DCMA home page at <http://www.dema.mil>).

#### **§ 37.575 What are my responsibilities for determining milestone payment amounts?**

(a) If you select the milestone payment method (*see* § 37.805), you must assess the reasonableness of the estimated amount for reaching each milestone. This assessment enables you to set the amount of each milestone payment to approximate the Federal share of the anticipated resource needs for carrying out that phase of the research effort.

(b) The Federal share at each milestone need not be the same as the Federal share of the total project. For example, you might deliberately set payment amounts with a larger Federal share for early milestones if a project involves a start-up company with limited resources.

(c) For an expenditure-based TIA, if you have minimum percentages that you want the recipient's cost sharing to be at the milestones, you should indicate those percentages in the agreement or in separate instructions to the post-award administrative agreements officer. That will help the administrative agreements officer decide when a project's expenditures have fallen too far below the original projections, requiring adjustments of future milestone payment amounts (*see* § 37.1105(c)).

(d) For fixed-support TIAs, the milestone payments should be associated with the well-defined, observable and verifiable technical outcomes (*e.g.*, demonstrations, tests, or data analysis) that you establish for the project in accordance with §§ 37.305(a) and 37.560(a).

#### **§ 37.580 What is recovery of funds and when should I consider including it in my TIA?**

(a) Recovery of funds refers to the use of the authority in 10 U.S.C. 2371 to include a provision in certain types of agreements, including TIAs, that require a recipient to make payments to the Department of Defense or another Federal agency as a condition of the agreement. Recovery of funds is a good
