(32 U.S.C. 318-320 and 502-505)

§ 564.38 For whom authorized.

(a) In line of duty. Medical care is authorized for members who incur a disease or injury in line of duty under the following circumstances:

(1) When a disease is contracted or injury is incurred while enroute to, from, or during any type of training or duty under sections 503, 504, 505, and for Guardmembers on orders for over 30 days performing duty under section 502f of title 32, U.S.C. Such training includes, but is not limited to annual training, maneuvers and field exercises, service schools, small arms meets, and FTTD under aforementioned sections.

(2) When an injury is incurred while engaged in any type of training under section 502 of title 32, U.S.C. Such training includes, but is not limited to, unit training assembly, multiple unit training assembly, and training in aerial flight, other than FTTD under 502f.

(3) While not on duty and while voluntarily participating in aerial flights in Government-owned aircraft under proper authority and incident to training. Guardmembers are authorized medical and dental care required as the

result of an injury incurred in line of duty.

(4) Medical care is not authorized at Army expense for members who incur an injury while enroute to or from any type of training under section 502, except for Guardmembers ordered to perform duty for over 30 days under section 502f of title 32, U.S.C. Line of duty investigations and authorization for any medical treatment for conditions incurred while the members were performing Reserve Enlistment Program of 1963 (REP 63) training in a Federal status, or training under title 10, U.S.C. are the responsibility of the Army Area commander under whose jurisdiction the member was training, even though the individual may have returned to his/her National Guard status.

(b) Not in line of duty. Members who incur an injury or contract a disease during any type of training or duty under sections 502f, 503, 504, or 505 of title 32, U.S.C., when it is determined to be not in line of duty, may be furnished medical care at Army expense during the period of training.

(c) Armory drill status. Members who incur an injury while in an armory drill status under section 502 of title 32, U.S.C., when it is determined to be not in line of duty, may not be furnished medical care at Army expense.

(32 U.S.C. 318-320 and 502-505)

§ 564.39 Medical care benefits.

(a) A member of the ARNG who incurs a disease or injury under the conditions enumerated herein is entitled to medical care, in a hospital or at his/her home, appropriate for the treatment of his/her disease or injury until the resulting disability cannot be materially improved by further medical care.

(b) If it is determined that the disease or injury was directly related to authorized activities surrounding the care of the original disease or injury, medical care may be continued in the same manner as if it had occurred during the training period.

(c) When members who incur a disease or an injury during a period of training or duty under title 32, U.S.C. 503, 504, 505, or 502f are admitted to an Army medical treatment facility, and

it appears that a finding of "not in line of duty" may be appropriate, a formal line of duty investigation should be promptly conducted, and a copy of the report furnished the treatment facility. If these findings result in a "not in line of duty" determination prior to the date the training is terminated, every effort should be made to assist the hospital concerned in disposing of the patient from the hospital by the date the training is terminated or as soon thereafter as he/she becomes transportable. Medical care furnished such member after the termination of the period of training is not authorized at Army expense unless the "not in line of duty" determination is ultimately reversed. The individual may be furnished medical care at Army expense from the date the training is terminated to the date the member receives notification of this action. Medical care received subsequent to the member's receipt of such notification is not authorized at Army expense. In the event a line of duty investigation has not been made by the date the training is terminated, every effort will be made to arrive at a determination as soon thereafter as possible.

(32 U.S.C. 318-320 and 502-505)

§ 564.40 Procedures for obtaining medical care.

(a) When a member of the ARNG incurs a disease or an injury, while performing training duty under sections 502-505 of title 32, U.S.C., he/she will, without delay, report the fact to his/her unit commander. Each member will be informed that it is his/her responsibility to comply with these instructions, and that failure to promptly report the occurrence of a disease or injury may result in the loss of medical benefits.

(b) Authorization for care in civilian facility. (1) An individual who desires medical or dental care in civilian medical treatment facilities at Federal expense is not authorized such care without written or verbal authorization by the Chief, National Guard Bureau or his/her designee, except in an emergency.

(2) When medical care is obtained without prior authorization, the details will be submitted to NGB-ARS as
