(b) On receipt of DD Form 1408 or other military law enforcement report of a moving violation, the unit commander, designated supervisor, or person otherwise designated by the installation commander will conduct an inquiry. The commander will take or recommend proper disciplinary or administrative action. If a case involves judicial or nonjudicial actions, the final report of action taken will not be forwarded until final adjudication.

(c) On receipt of the report of action taken (including action by a U.S. Magistrate Court on DD Form 1805), the installation law enforcement officer will assess the number of points appropriate for the offense, and record the traffic points or the suspension or revocation of driving privileges on the person’s driving record. Except as specified otherwise in this part and other Service/DLA regulations, points will not be assessed or driving privileges suspended or revoked when the report of action taken indicates that neither disciplinary nor administrative action was taken.

(d) Installation commanders may require the following driver improvement measures as appropriate:

1. Advisory letter through the unit commander or supervisor to any person who has acquired six traffic points within a 6-month period.
2. Counseling or driver improvement interview, by the unit commander, of any person who has acquired more than six but less than 12 traffic points within a 6-month period. This counseling or interview should produce recommendations to improve driver performance.
3. Referral for medical evaluation when a driver, based on reasonable belief, appears to have mental or physical limits that have had or may have an adverse affect on driving performance.
4. Attendance at remedial driver training to improve driving performance.
5. Referral to an alcohol or drug treatment or rehabilitation facility for evaluation, counseling, or treatment. This action is required for active military personnel in all cases in which alcohol or other drugs are a contributing factor to a traffic citation, incident, or accident.

(e) An individual’s driving privileges may be suspended or revoked as provided by this part regardless of whether these improvement measures are accomplished.

(f) Persons whose driving privileges are suspended or revoked (for one violation or an accumulation of 12 traffic points within 12 consecutive months, or 18 traffic points within 24 consecutive months) will be notified in writing through official channels (§634.11). Except for the mandatory minimum or maximum suspension or revocation periods prescribed by table 5–1 of this part, the installation commander will establish periods of suspension or revocation. Any revocation based on traffic points must be no less than 6 months. A longer period may be imposed on the basis of a person’s overall driving record considering the frequency, flagrancy, severity of moving violations, and the response to previous driver improvement measures. In all cases, military members must successfully complete a prescribed course in remedial driver training before driving privileges are reinstated.

(g) Points assessed against a person will remain in effect for point accumulation purposes for 24 consecutive months. The review of driver records to delete traffic points should be done routinely during records update while recording new offenses and forwarding records to new duty stations. Completion of a revocation based on points requires removal from the driver record of all points assessed before the revocation.

(h) Removal of points does not authorize removal of driving record entries for moving violations, chargeable accidents, suspensions, or revocations. Record entries will remain posted on individual driving records for the following periods of time:

1. Chargeable nonfatal traffic accidents or moving violations—3 years.
2. Nonmandatory suspensions or revocations—5 years.
3. Mandatory revocations—7 years.

§ 634.47 Disposition of driving records.

Procedures will be established to ensure prompt notice to the installation law enforcement officer when a person...
§ 634.48

assigned to or employed on the installation is being transferred to another installation, being released from military service, or ending employment.

(a) If persons being transferred to a new installation have valid points or other entries on the driving records, the law enforcement officer will forward the records to the law enforcement officer of the gaining installation. Gaining installation law enforcement officers must coordinate with applicable commanders and continue any existing suspension or revocation based on intoxicated driving or accumulation of traffic points. Traffic points for persons being transferred will continue to accumulate as specified in §634.46 (g).

(b) Driving records of military personnel being discharged or released from active duty will be retained on file for 2 years and then destroyed. In cases of immediate reenlistment, change of officer component or military or civilian retirement when vehicle registration is continued, the record will remain active.

(c) Driving records of civilian personnel terminating employment will be retained on file for 2 years and then destroyed.

(d) Driving records of military family members containing point assessments or other entries will be forwarded to the sponsor’s gaining installation in the same manner as for service members. At the new installation, records will be analyzed and made available temporarily to the sponsor’s unit commander or supervisor for review.

(e) Driving records of retirees electing to retain installation driving privileges will be retained. Points accumulated or entries on the driver record regarding suspensions, revocations, moving violations, or chargeable accidents will not be deleted from driver records except per §634.46 (g) and (h).

(f) Army users will comply with paragraphs (a) and (d) of this section by mailing the individual’s DA Form 3626 to the gaining installation provost marshal.

Subpart F—Impounding Privately Owned Vehicles

§ 634.48 General.

This subpart provides the standards and procedures for law enforcement personnel when towing, inventorying, searching, impounding, and disposing of POVs. This policy is based on:

(a) The interests of the Services and DLA in crime prevention, traffic safety, and the orderly flow of vehicle traffic movement.

(b) The vehicle owner’s constitutional rights to due process, freedom from unreasonable search and seizure, and freedom from deprivation of private property.

§ 634.49 Standards for impoundment.

(a) POVs should not be impounded unless the vehicles clearly interfere with ongoing operations or movement of traffic, threaten public safety or convenience, are involved in criminal activity, contain evidence of criminal activity, or are stolen or abandoned.

(b) The impoundment of a POV would be inappropriate when reasonable alternatives to impoundment exist.

1. Attempts should be made to locate the owner of the POV and have the vehicle removed.

2. The vehicle may be moved a short distance to a legal parking area and temporarily secured until the owner is found.

3. Another responsible person may be allowed to drive or tow the POV with permission from the owner, operator, or person empowered to control the vehicle. In this case, the owner, operator, or person empowered to control the vehicle will be notified that law enforcement personnel are not responsible for safeguarding the POV.

(c) Impounding of POVs is justified when any of the following conditions exist:

1. The POV is illegally parked—
   (i) On a street or bridge, in a tunnel, or is double parked, and interferes with the orderly flow of traffic.
   (ii) On a sidewalk, within an intersection, on a cross-walk, on a railroad track, in a fire lane, or is blocking a driveway, so that the vehicle interferes
