§ 637.1 Evidence.

637.17 Police Intelligence.

637.18 Electronic equipment procedures.

637.19 Overseas MP desk.

637.20 Security surveillance systems.

637.21 Recording interviews and interrogations.

Subpart B [Reserved]

SOURCE: 70 FR 36029, June 22, 2005, unless otherwise noted.

Subpart A—Investigations

§ 637.1 General.

(a) Military Police Investigators (MPI) and Department of the Army Civilian (DAC) detectives/investigators fulfill a special need for an investigative element within the military police to investigate many incidents, complaints, and matters not within U.S. Army Criminal Investigation Command (USACIDC) jurisdiction, but which cannot be resolved immediately through routine military police operations. Investigative personnel are assets of the installation or activity commander, under the supervision of the local provost marshal, USACIDC elements will provide investigative assistance in the form of professional expertise, laboratory examinations, polygraph examinations, or any other assistance requested which does not distract from the USACIDC mission of investigating serious crimes. A spirit of cooperation and close working relationship is essential between USACIDC and the provost marshal office in order to accomplish the mission and project a professional police image.

(b) Creation of a formalized investigation program does not constitute the establishment of a dual "detective" force. The separation of investigative responsibilities is very distinct. The MPI Program is neither a career program nor a separate Military Occupational Specialty (MOS). Individuals in the MPI Program are specially selected, trained, and experienced military or civilian men and women performing traditional military police functions. Military personnel are identified by their additional skill identifiers (ASI V5) and may be employed in any assignment appropriate to their grade and MOS.

(c) The provost marshal may authorize wearing of civilian clothing for the MPI investigative mission.

(d) MPI and DAC detective/investigator personnel must be familiar with and meet the requirements of Army Regulation (AR) 190–14 (Carrying of Firearms and Use of Force for Law Enforcement and Security Duties).

§ 637.2 Use of MPI and DAC Detectives/Investigators.

Only those matters requiring investigative development will be referred to the MPI for investigation. Provost marshals will develop procedures to determine which incidents will be referred to the MPI for completion and which will be retained and completed by uniformed MP personnel. Except as otherwise provided, MPI and DAC detectives/investigators will normally be employed in the following investigations:

(a) Offenses for which the maximum punishment listed in the Table of Maximum Punishment, Manual for Courts-Martial, United States, 2002 is confinement for 1 year or less. Provisions of the Federal Assimilative Crimes Act will also be considered when assigning cases to MPI. The same punishment criteria apply.

(b) Property-related offenses when the value is less than $1,000 provided the property is not of a sensitive nature, such as government firearms, ammunition, night vision devices, or controlled substances.

(c) Offenses involving use and/or possession of non-narcotic controlled substances when the amounts are indicative of personal use only. Military police will coordinate with the local USACIDC element in making determinations of "personal use". MPI and DAC detectives/investigators may be employed in joint MPI/USACIDC drug suppression teams; however, the conduct of such operations and activities remain the responsibility of USACIDC. When employed under USACIDC supervision, MPI and DAC detectives/investigators may also be utilized to make controlled buys of suspected controlled substances.
(d) Activities required for the security and protection of persons and property under Army control, to include support of Armed Forces Disciplinary Control Boards as prescribed in AR 190–24. If MPI detect a crime-conducive condition during the course of an investigation, the appropriate physical security activity will be promptly notified. Crime-conducive conditions will also be identified in military police reports.

(e) Allegations against MP personnel, when not within the investigative responsibilities of USACIDC.

(f) Offenses committed by juveniles, when not within the investigative responsibilities of USACIDC.

(g) Gang or hate crime related activity, when not within the investigative responsibilities of USACIDC.

§ 637.3 Installation Commander.

The installation commander, whose responsibilities include ensuring good order and discipline on his installation, has authority to order the initiation of a criminal investigation upon receipt of information of activity of a criminal nature occurring on the installation.

§ 637.4 Military Police and the USACIDC.

(a) The military police or the USACIDC are authorized to investigate allegations of criminal activity occurring on the installation. Nothing in this paragraph is intended to conflict with or otherwise undermine the delineation of investigative responsibilities between the military police and the USACIDC as set forth in AR 195–2.

(b) When investigative responsibility is not clearly defined, and the matter cannot be resolved between military police investigations supervisors and USACIDC duty personnel, or between military police investigations supervisors and unit commanders, the provost marshal will be informed and will resolve the matter with the appropriate USACIDC activity commander/ Special Agent in Charge (SAC) or unit commander.

(c) The control and processing of a crime scene and the collection and preservation of the evidence are the exclusive responsibilities of the investigator or supervisor in charge of the crime scene when the military police have investigative responsibility. To prevent the possible loss or destruction of evidence, the investigator or supervisor in charge of the crime scene is authorized to exclude all personnel from the scene. The exercise of this authority in a particular case may be subject to the requirement to preserve human life and the requirement for continuing necessary operations and security. These should be determined in conjunction with the appropriate commander and, where applicable, local host country law enforcement authorities.

(d) Unit commanders should consult with the installation provost marshal concerning all serious incidents. Examples of incidents appropriate for investigation at the unit level include simple assaults not requiring hospitalization and not involving a firearm, or wrongful damage to property of a value under $1,000. Other incidents should be immediately referred to the installation provost marshal.

(e) The military police desk is the official point of contact for initial complaints and reports of offenses. The provisions of AR 190–45 are to be followed for all military police records, reports, and reporting.

(1) When incidents are reported directly to a USACIDC field element, USACIDC may either direct the reporting person to the MP desk or report the incident to the MP desk themselves.

(2) Upon receipt of the complaint or report of offense, the MP desk will dispatch an available patrol to the scene of the incident. The patrol will take appropriate measures to include locating the complainant, witnesses, suspects, and victims, apprehending offenders, securing the crime scene, rendering emergency assistance, determining and reporting to the MP desk, by the most expeditious means possible, the appropriate activity having investigative responsibility.

(f) In those cases in which the USACIDC has an ongoing investigation (typically fraud and narcotics matters), they may delay notification to the military police to avoid compromising their investigation.

(g) Procedures will be developed to ensure mutual cooperation and support
