

§ 644.137

32 CFR Ch. V (7-1-09 Edition)

will be sent by certified mail, with return receipt requested. Adequate time, in addition to the number of days specified in the lease, will be allowed for delivery to, and receipt by, the lessor. The Division or District Engineer will maintain adequate records to assure prompt service of notice to avoid the lapse of leases.

(2) No lease will be renewed or kept in existence unless it has been administratively determined, through advertising or otherwise, that other suitable property at a lower rental is not obtainable. At all times, and in particular during the lease renewal review period, the Division or District Engineer will take cognizance of the availability of property in the area of the using service that is Government-owned, or property under GSA control.

(s) *Payment of rents.* (1) One of the most important factors involving good relationships between the Government and the lessor is the prompt payment of the rent. Under existing regulations, the rent is paid by the using commands. The Division or District Engineer makes rental payments for leases when the Corps is the using service and for recruiting facilities, since the Chief of Engineers is the Department of Defense Executive Agent for recruiting facilities acquisition. It is therefore appropriate for the Division or District Engineer to inquire periodically of the using commands whether delays in processing payments are encountered. If payments are not being made within seven working days after payment is due, appropriate action will be taken to correct the delay; if no action is taken after a reasonable time allowed for correction of procedures, DAEN-REA-L will be informed fully of the facts and an investigation will be conducted.

(2) Prior to payment, the Division or District Engineer, or his designee, will certify for submission to the Disbursing Officer that the leased property was occupied or available for use. The following certification, contained on Standard Form 1166, Voucher and Schedule for Payments, is used:

I hereby certify that the leases identified hereon were in effect for the month (or other period) indicated, and that the space was oc-

cupied, or available for use, by the Department of the Army.

§ 644.137 Maneuver agreements.

Joint training exercises or maneuvers are conducted by elements of the Department of Defense. Land use requirements vary with the exercise objectives and the force elements which participate. The Corps participates in the planning and acquires rights to use land and other facilities for Department of the Army exercises. The current Memorandum of Understanding by Department of the Army, United States Readiness Command (USCINCRED), and United States Army Forces, Readiness Command (USCINCARRED) on acquisition of maneuver rights for United States Readiness Command (USREDCOM) Joint Training exercises is included as Figure 5-13 in ER 405-1-12. This Memorandum covers timing of requests for preliminary surveys, real estate studies, funding and acquisition of maneuver rights. The Corps also responds to requests from other Department of Defense commands for maneuver rights, and the same procedure is envisioned although no Memoranda of Understanding have been entered into. Upon receipt of a request for real estate services, an estimate of the funds required for the report should be forwarded to the using command.

(a) *Procedures.* The appropriate Division or District Engineer will be responsible for negotiating maneuver agreements and short-term leases and, after the maneuver is completed, will be responsible for negotiating restoration settlements and/or releases, as appropriate. Real estate acquisition will be in the form of agreements with landowners, granting the right to conduct maneuvers at a given time, or periodically. Short-term leases for exclusive use may also be acquired for special areas (such as headquarters areas, radio relay sites, base camp sites, field hospital sites and supply dumps), and buildings needed for warehouses, ordnance shops and similar purposes directly related to the maneuver. Permits will be obtained to cover the use of lands under the jurisdiction of another Government department or agency.

(b) *Claims and restoration.* Notwithstanding the assignment of restoration responsibility, understanding may be reached with the maneuver director at field level whereby the command will assume responsibility for settlement of real estate damages using claim funds. However, in instances where the damage exceeds the monetary claims jurisdiction of the Army Commander pursuant to AR 27-20 and is cognizable as a contractual obligation under the maneuver permit, settlement will be accomplished by the Division or District Engineer either by supplement to the permit or by processing a claim under AR 405-15 (see §552.16 of this chapter) since the Division or District Engineer can usually accomplish settlements more quickly for claims in excess of that amount. Therefore, it should be suggested to the maneuver director that all claims, cognizable as a contractual obligation, in excess of his monetary claims jurisdiction be handled by the Division or District Engineer. Funds appropriated for field exercises and maneuvers are allotted to Army Commanders and include administrative costs. The reporting requirements included in Figure 5-13 in ER 405-1-12 will be established by the Chief of Engineers upon receipt of a specific request from the using command to acquire maneuver rights.

§ 644.138 Family housing leasing program.

Section 515 of Pub. L. 84-161 (69 Stat. 324), as amended by Pub. L. 95-82, approved 1 Aug 1977, authorizes the expenditure of an average of \$280 per month for each military department for housing facilities in the United States (other than Alaska and Hawaii) and in the Commonwealth of Puerto Rico, and an average of \$350 per month for each military department for housing facilities in Alaska, Hawaii and Guam. In both cases the maximum rental rate per unit per month including utilities, operations and maintenance is \$450. These rental figures are subject to change each year in the annual Military Construction Authorization Acts. Updated rental figures should be obtained from the current MCA Act. The Department of Defense allocates to each department of the

military the number of units it can acquire pursuant to the authorization, and each year Division and District Engineers are informed of the unit allocations by the Chief of Engineers.

(a) *Leasing requests.* The Departments of the Army and Air Force direct their requests for the leasing of family housing units to the Division or District Engineer. Each military element involved has the responsibility of maintaining the national rental average. Each command prescribes the procedures to be followed in acquiring family housing units. Such procedures which include size of accommodations and maximum rental rate will be followed by the Division or District Engineer.

(b) *Use of available housing.* Priority shall be given to the leasing of adequate Federal Housing Administration (FHA) and Veterans Administration (VA) held units to the extent that such units may be available at locations which are granted lease allocations. FHA Form 2372A, as modified, will be used in leasing FHA housing for use as public quarters by military personnel. A similar form, modified as needed, will be used for VA held housing units.

(c) *Nondiscrimination provision.* All leases for family housing units which are executed on behalf of the United States shall contain the following nondiscrimination clause:

It is understood and agreed that the Government will assign the demised premises to military personnel in accordance with Executive Order 11063, dated 20 November 1962, which provides that housing and related facilities shall be available without discrimination among tenants because of race, color, creed, sex or national origin.

(d) *Pest control.* In agreement with the lessor, whenever possible, the lessor will affirmatively assume responsibility for pest control in family housing units. The following clause will be included in family housing leases:

It is understood and agreed that the lessor will be responsible to provide pest control measures and pesticides, which conform to local health department regulations, to keep the premises free from pests and in a tenantable condition.

It is intended that the occupant will maintain the leased premises in a clean and sanitary condition in conformance
