

Department of the Navy, DoD

§ 728.44

departments; and military personnel on duty in the United States at the invitation of the Secretary of Defense or one of the military departments. For the purpose of § 728.43, members of foreign Security Assistance Training Programs (SATP) and Foreign Military Sales (FMS) are not included (see § 728.44).

(3) Foreign military personnel accredited to joint United States defense boards or commissions when stationed in the United States.

(4) Foreign military personnel covered in agreements entered into by the Secretary of State, Secretary of Defense, or one of the military departments to include, but not limited to, United Nations forces personnel of foreign governments exclusive of NATO nations.

(b) *Care authorized in the United States.* Military personnel of foreign nations not covered in § 728.42 and their dependents residing in the United States with the sponsor may be routinely provided only outpatient medical care in naval MTFs on a reimbursable basis. *Provided*, the sponsor is in the United States in a status officially recognized by an agency of the Department of Defense. Dental care and hospitalization for such members and their dependents are limited to emergencies. All outpatient care and hospitalization in emergencies are subject to reimbursement as outlined in § 728.46.

(c) *Application for care.* All personnel covered by § 728.43 will present orders or other official U.S. identification verifying their status when applying for care.

(d) *Disposition.* When it becomes necessary to return individuals covered by § 728.43 to their home country for medical reasons, make immediate notification to the sponsoring unit of the patient or patient's sponsor with a copy to the Chief of Naval Operations (OP-61). Include all pertinent information regarding the physical and mental condition of the individual concerned and full identification, diagnosis, prognosis, estimated period of hospitalization, and recommended disposition. Additionally, the provisions of § 728.42(d) (1) and (2) apply.

(e) *Care authorized outside the 48 contiguous United States.* Major overseas commanders may authorize care in naval MTFs subject to the availability of space, facilities, and the capabilities of the professional staff in emergency situations only. *Provided*, the required care cannot reasonably be obtained in medical facilities of the host country or in facilities of the patient's own country, or if such facilities are inadequate. Provide hospitalization only for acute medical and surgical conditions, exclusive of nervous, mental, or contagious diseases or those requiring domiciliary care. Administer dental treatment only as an adjunct to authorized inpatient care. Do not include dental prostheses or orthodontia.

§ 728.44 Members of security assistance training programs, foreign military sales, and their ITO authorized dependents.

(a) *Policies—(1) Invitational travel orders screening.* Prior to determining the levels of care authorized or the government or person responsible for payment for care rendered, carefully screen ITOs to detect variations applicable to certain foreign countries. For example, unless orders state differently, Kuwait has a civilian health plan to cover medical expenses of their trainees; trainees from the Federal Republic of Germany are personally responsible for reimbursing for inpatient care provided to their dependents; and all inpatient medical services for trainees from France and their dependents are to be borne by the individual trainee.

(2) *Elective and definitive surgery.* The overall policy with respect to elective and definitive surgery for Security Assistance Training Program (SATP), Foreign Military Sales (FMS) personnel and their dependents is that conservatism will at all times prevail, except bona fide emergency situations which might threaten the life or health of an individual. Generally, elective care is not authorized nor should be started. However, when a commanding officer of a naval MTF considers such care necessary to the early resumption and completion of training, submit the complete facts to the Chief of Naval

Operations (OP-63) for approval. Include the patient's name (sponsor's also if patient is an ITO authorized dependent), grade or rate, country of origin, diagnosis, type of elective care being sought, and prognosis.

(3) *Prior to entering training.* Upon arrival of an SATP or FMS trainee in the United States or at an overseas training site, it is discovered that the trainee cannot qualify for training by reason of a physical or mental condition which will require a significant amount of treatment before entering or completing training, return such trainees to their home country immediately or as soon thereafter as travel permits.

(4) *After entering training.* When trainees require hospitalization or are disabled after entering a course of training, return them to their home country as soon as practicable when, in the opinion of the commanding officer of the medical facility, hospitalization or disability will prevent training for a period in excess of 30 days. Forward a copy of the patient's clinical records with the patient. When a trainee is accepted for treatment that is not expected to exceed 30 days, notify the commanding officer of the training activity. Further, when a trainee is scheduled for consecutive training sessions convening prior to the expected date of release from a naval MTF, make the next scheduled training activity an information addressee. Upon release from the MTF, direct such trainees to resume training.

(b) *Care authorized.* Generally, all SATP and FMS personnel and their ITO authorized dependents are entitled to care to the same extent. However, certain agreements require that they be charged differently and that certain exclusions apply.

(1) *NATO members and their ITO authorized dependents—(i) Foreign military sales (FMS).* Subject to reimbursement per § 728.46, FMS personnel of NATO nations who are in the United States or at U.S. Armed Forces installations outside the United States and their accompanying ITO authorized dependents will be provided medical and dental care in naval MTFs to the same extent and under the same conditions as comparable United States military per-

sonnel and their dependents except that:

(A) Dependent dental care is not authorized.

(B) Dependents are not authorized cooperative care under CHAMPUS.

(ii) *International military education and training (IMET).* Subject to reimbursement for inpatient care at the appropriate IMET rate for members or at the full reimbursement rate for dependents, IMET personnel of NATO nations who are in the United States or at U.S. Armed Forces installations outside the United States and accompanying dependents will be provided medical and dental care in naval MTFs to the same extent and under the same conditions as comparable United States military personnel and their dependents except that:

(A) Dependent dental care is not authorized.

(B) Dependents are not authorized cooperative care under CHAMPUS.

(2) *Other foreign members and ITO authorized dependents—(i) Foreign military sales.* Subject to reimbursement by the trainee or the trainee's government for both inpatient and outpatient care at the full reimbursement rate, FMS personnel of non-NATO nations and ITO authorized accompanying dependents may be provided medical and dental care on a space available basis when facilities and staffing permit except that:

(A) Prosthetic devices, hearing aids, orthopedic footwear, and similar adjuncts are not authorized.

(B) Spectacles may be furnished when required to enable trainees to perform their assigned duties, *Provided* the required spectacles are not available through civilian sources.

(C) Dental care is limited to emergency situations for the military member and is not authorized for dependents.

(D) Dependents are not authorized cooperative care under CHAMPUS.

(ii) *International military education and training.* Subject to reimbursement for both inpatient and outpatient care at the appropriate rates for members and dependents, IMET personnel of non-NATO nations may be provided medical and dental care on a space available basis when facilities and staffing permit except that:

Department of the Navy, DoD

§ 728.46

(A) Prosthetic devices, hearing aids, orthopedic footwear, and similar adjuncts are not authorized.

(B) spectacles may be furnished when required to enable trainees to perform their assigned duties, *Provided* the required spectacles are not available through civilian sources.

(C) Dental care is limited to emergency situations for military members and is not authorized for dependents.

(D) Dependents are not authorized cooperative care under CHAMPUS.

(c) *Application for care.* Trainees and accompanying dependents will present official U.S. identification or orders verifying their status when applying for care. If any doubt exists as to the extent of care authorized, ITOs should be screened (see paragraph (a)(1) of this section).

(d) *Notification.* When trainees require hospitalization as a result of illness or injury prior to or after entering training, the training activity (the hospital if patient has been admitted) will make a message report through the normal chain of command to the Chief of Naval Operations (OP-63) with information copies to MAAG, COMNAV MEDCOM, Navy International Logistics Control Office (NAVIL CO), Unified Commander, the affected office, and the foreign naval attache concerned. Include details of the incident, estimated period of hospitalization, physical or mental condition of the patient, and diagnosis. For further amplification, see OPNAVINST 4950.1H and NAVCOMPTRAN 032103.

§ 728.45 Civilian components (employees of foreign military services) and their dependents.

(a) *Care authorized.* Beneficiaries covered in this section are only authorized care in naval MTFs in the United States and then only civilian humanitarian emergency care on a reimbursable basis (subpart J) rendered at installations which have been designated as remote by the Secretary of the Navy. Make arrangements to transfer such beneficiaries to a civilian facility as soon as their condition permits.

(b) *Potential beneficiaries*—(1) *NATO.* Civilian employee personnel (and their dependents residing with them) accompanying military personnel in

§ 728.42(b)(1), *Provided*, the beneficiaries are not stateless persons nor nationals of any state which is not a party to the North Atlantic Treaty, nor nationals of, nor ordinarily residents in the United States.

(2) *Others.* Civilian personnel not covered in § 728.45(b)(1) (and their dependents residing with them) accompanying personnel of foreign nations on duty in the United States at the invitation of the Department of Defense or one of the military departments.

(c) *Application for care.* Personnel covered by the provisions of § 728.45 will present orders or other official U.S. identification verifying their status when applying for care.

§ 728.46 Charges and collection.

(a) *Policy.* Pub. L. 99-591, section 9029, contains provisions prohibiting the expenditure of appropriated funds “. . . to provide medical care in the United States on an inpatient basis to foreign military and diplomatic personnel or their dependents unless the Department of Defense is reimbursed for the costs of providing such care: *Provided*, That reimbursements . . . shall be credited to the appropriations against which charges have been made for providing such care, except that inpatient medical care may be provided in the United States without cost to military personnel and their dependents from a foreign country if comparable care is made available to a comparable number of United States military personnel in that foreign country.”

(b) *Canadian agreement.* On 3 November 1986, the Department of National Defence of Canada and DOD concluded a comparable care agreement that covers certain military personnel. The agreement stipulates that:

(1) DOD will, upon request, provide Canadian Forces members the same range of medical and dental services under the same conditions and to the same extent as such services are provided comparable United States military personnel. Inasmuch as the agreement covers only certain military personnel, the reimbursement provisions
